Membangun Kearifan Lokal Melalui Reposisi dan Reorganisasi Bisnis

Sebagai bank pembangunan daerah, bank **bjb** memiliki peran strategis sebagai mitra pemerintah sekaligus motor percepatan pembangunan daerah, oleh karena itu pemanfaatan atas competitive advantage yang berupa faktor kedekatan, pemahaman kultural dan sosiologi kedaerahan menjadi kunci keberhasilan dalam upaya menjadi regional champion. Sesuai dengan corporate road map bank **bjb** yang telah disusun dari tahun 2017-2022, di tahun 2019 merupakan fase ke 2 (dua) bagi bank **bjb** untuk melakukan strategi pertumbuhan bisnis yang berkualitas serta melakukan penguatan infrastruktur yang handal untuk mendukung operasional dan produk berbasis digital. Oleh karena itu arahan strategi telah disusun dengan mempertimbangkan dua faktor, yaitu pertumbuhan organik dengan memperbesar core business dari bank, namun tidak tertutup kemungkinan dilakukannya aksi korporasi untuk mempercepat pertumbuhan bank secara non organik.

Untuk mendukung kegiatan operasional dan produk berbasis digital melalui penguatan infrastruktur yang handal, maka telah ditetapkan strategi manajemen di tahun 2019 yaitu penguatan permodalan untuk mendukung akselerasi bisnis, pengumpulan DPK melalui pengembangan E-Channel untuk menjaga likuiditas yang memadai, meningkatkan pertumbuhan kredit dengan tetap menjaga kualitas kredit, pengembangan digital banking untuk mengoptimalkan transaksi bisnis guna peningkatan pendapatan, dan memperkuat sinergi bidang supporting untuk mendukung pencapaian target bisnis. Dengan menerapkan berbagai strategi manajemen tersebut, bank **bjb** optimis bahwa prospek usaha bank akan semakin membaik kedepannya.

Consistent in Developing Strategic Initiatives to Maintain Growth

2020 became the second year PT Bank Pembangunan Daerah Jawa Barat and Banten Tbk. implementing the strategy of “Accelerated Growth through Organic and Inorganic Strategies as well as Strengthening Reliable Infrastructure to Support Operations and Digital-Based Products”. This strategy was realized by strengthening capital, increasing the transactional banking business, implementing automation processes and the overall integration of Information Technology (IT) based transactions and developing digital products and channels.

These various strategic initiatives succeeded in maintaining the performance of PT Bank Pembangunan Daerah Jawa Barat and Banten Tbk. to keep growing in challenging conditions in 2020, especially the challenges caused by the COVID-19 pandemic. In 2020 PT Bank Pembangunan Daerah Jawa Barat and Banten Tbk. was able to increase Interest and Sharia Income by 4.38% which led to an increase in Profit for the Year by 8.02%. Loans increased by 9.24%, and Third Party Funds increased by 19.39%.

Nurturing Local Wisdom Through Business Repositioning and Restructuring

As a regional development bank, bank **bjb** plays a strategic role as a government's partner and regional development acceleration agent. Therefore, the benefit of competitive advantages, i.e. proximity, cultural understanding, dan sociology of the local, serve as the key of success into becoming a regional champion. In accordance with the bank **bjb** corporate road map arranged for 2017-2022, 2019 is the phase 2 (two) for bank **bjb** to implement the strategy of exceptional business growth and reliable infrastructure reinforcement to support digital-based operations and products. Thus, strategic directives are already organized by taking into account two factors, i.e. organic growth by expanding the Bank's core business and the acceleration of non-organic growth through corporate actions.

To support digital-based operations and products through reliable infrastructure reinforcement, the management strategies for 2019 was set into strengthening capital to support business acceleration, acquiring third party funding (DPK) though e-channel to maintain sufficient liquidity, increasing credit growth by preserving credit quality, developing digital banking to optimize business transaction for increasing income, and reinforcing synergy in supports to achieve business target. By applying these strategies, bank **bjb** is confident that banking business is promising going forward.

Through those program, bank **bjb** ceaselessly strives to empower local potential as part of national development.

Building a Quality Business through Continuous Innovation

In running its business bank **bjb** can not be separated from various challenges that will be faced during the coming year. In a customized road map, bank **bjb** remains consistent and committed to innovate in order to build a business with high quality. This is done by accelerating growth through both organic and inorganic strategies as well as developing digital banking. The combination is expected to address the increasingly sophisticated and complex banking challenges and macroeconomic pressures sourced from the external and further strengthen the business network across all operational areas in Indonesia.

Growing With New Opportunities That Spread

As a commercial bank, owned by a local government, that is publicly listed, bank **bjb** already has a strong image as a commercial bank that is growing rapidly and becoming a national bank. Currently bank **bjb** has a network of offices spread in 14 provinces, mainly in West Java and Jakarta, Indonesian economic centers. In terms of products, **bjb** DIGI electronic banking services has encouraged the development of various bank **bjb** products.

Going forward, the Company has strategies to capture expansion opportunities. With an increasing financially literate society, economic activities are high in West Java, Banten and Jakarta Provinces, and the expansion of cooperation between bank **bjb** with several government agencies, has created major opportunities identified by the Company. By creating the right strategies, and maintaining good relationships with its stakeholders, the Company is confident.

Tinjauan Makro Ekonomi

Perekonomian global tumbuh sesuai prakiraan meski masih dibayangi risiko yang bersumber dari kenaikan kasus COVID-19 varian Omicron, percepatan normalisasi kebijakan moneter di beberapa bank sentral, dan meningkatnya tensi geopolitik. Pemulihan ekonomi global diperkirakan berlanjut didukung oleh percepatan vaksinasi serta berlanjutnya kebijakan fiskal yang ekspansif. Realisasi pertumbuhan ekonomi tahun 2021 di Amerika Serikat (AS), Kawasan Eropa, dan Tiongkok menunjukkan perbaikan yang berlanjut. Perbaikan ekonomi di Jepang dan India juga diperkirakan terus berlangsung ditopang kebijakan moneter dan fiskal yang tetap akomodatif. Pemulihan ekonomi yang berlanjut dikonfirmasi oleh kinerja sejumlah indikator pada Januari 2022 antara lain Purchasing Managers Index (PMI), keyakinan konsumen, dan penjualan ritel yang tetap kuat, di tengah kenaikan penyebaran kasus COVID-19 varian Omicron.

Perekonomian nasional juga mengalami pemulihan ekonomi. Kinerja ekonomi Indonesia pada Triwulan IV 2021 mampu tumbuh sebesar 5,02% (YoY), menunjukkan menguatnya pemulihan ekonomi. Secara *quarter-to-quarter* (QtQ), pertumbuhan ekonomi Triwulan IV 2021 tercatat 1,06%, melampaui pola normalnya yang secara historis mencatatkan pertumbuhan negatif (QtQ Triwulan IV 2015 – 2019 rata-rata - 1,7%).

Laju pertumbuhan ekonomi Triwulan IV ditopang oleh pertumbuhan positif seluruh komponen pengeluaran dan sektor produksi utama. Aktivitas ekspor mampu melanjutkan pertumbuhan yang tinggi seiring permintaan dan harga komoditas global yang meningkat. Sementara impor juga meningkat. Mencerminkan menguatnya pemulihan permintaan domestik, khususnya sektor produksi. Dari sisi lapangan usaha, sektor-sektor unggulan nasional seperti manufaktur, perdagangan, konstruksi, dan transportasi melanjutkan tren pemulihan dengan mencatat pertumbuhan kuat.

Sektor Perdagangan tumbuh kuat pada Triwulan IV sebesar 5,56% (YoY) atau 4,65% secara keseluruhan tahun 2021. Peningkatan ini didorong oleh membaiknya mobilitas masyarakat sejalan dengan kondisi pandemi COVID-19 yang relatif mereda. Kebijakan pemberian PPNBM DTP untuk pembelian mobil juga mendorong kinerja perdagangan kendaraan bermotor secara signifikan. Tingkat penjualan mobil ritel mampu tumbuh 53,9% (YoY) pada Triwulan IV atau 49,3% (YoY) di sepanjang tahun 2021.

The Directors carried out effective management of the resources owned by the bank **bjb**. Below, we present an analysis of the performance of the Company's management in the 2021 financial year starting with an analysis of the macroeconomic review that had a direct impact on the Company's performance.

Macro Economic Review

The global economy grew in line with forecasts, although it was still overshadowed by risks originated from the increase in cases of the Omicron variant of the COVID-19, accelerated normalization of monetary policy at several central banks, and rising geopolitical tensions. The global economic recovery was predicted to continue, supported by accelerated vaccinations and continued expansionary fiscal policy. The realization of economic growth in 2021 in the United States (US), the European Region, and China showed continued improvement. Economic recovery in Japan and India was also predicted to continue, supported by accommodative monetary and fiscal policies. The continued economic recovery was confirmed by the performance of a number of indicators in January 2022, including the Purchasing Managers Index (PMI), consumer confidence, and retail sales which remained strong, amidst an increase in the spread of COVID-19 cases of the Omicron variant.

The national economy also experienced an economic recovery. Indonesia's economic performance in Quarter IV 2021 was able to grow by 5.02% (YoY), indicating a strengthening economic recovery. On a quarter-to-quarter (QtQ) basis, the economic growth in Quarter IV 2021 was recorded at 1.06%, exceeding the normal pattern which historically recorded negative growth (QtQ IV Quarter 2015 – 2019 average - 1.7%).

The pace of economic growth in Quarter IV was supported by positive growth in all components of expenditure and the main production sectors. Export activity was able to continue high growth in line with increasing global commodity demand and prices. Meanwhile imports also increased. It reflected the strengthening recovery in domestic demand, particularly in the production sector. In terms of business sector, national leading sectors such as manufacturing, trade, construction, and transportation continued the recovery trend with strong growth.

The Trade Sector grew strongly in Quarter IV by 5.56% (YoY) or 4.65% overall in 2021. This increase was driven by improved community mobility in line with the relatively easing condition of the COVID-19 pandemic. The policy of providing PPNBM DTP for car purchases also significantly boosted the performance of motor vehicle trade. Retail car sales were able to grow 53.9% (YoY) in Q4 or 49.3% (YoY) throughout 2021.

Dari sisi perbankan, suku bunga kebijakan moneter yang tetap rendah dan likuiditas yang longgar mendorong suku bunga kredit perbankan dalam tren terus menurun. Di pasar uang dan pasar dana, suku bunga PUAB *overnight* dan suku bunga deposito 1 (satu) bulan perbankan telah menurun, masing-masing sebesar 26 bps dan 131 bps sejak Desember 2020 menjadi 2,78% dan 2,96% pada Desember 2021. Di pasar kredit, penurunan SBDK perbankan terus berlanjut, diikuti penurunan suku bunga kredit baru pada seluruh kelompok Bank. Aktivitas ekonomi dan mobilitas masyarakat yang meningkat mendorong perbaikan persepsi risiko perbankan, sehingga berdampak positif bagi penurunan suku bunga kredit baru. Namun demikian, penurunan suku bunga kredit yang jauh lebih lambat daripada penurunan suku bunga deposito perbankan menyebabkan spread antara suku bunga kredit dan deposito, serta Net Interest Margin (NIM) perbankan, terus mengalami peningkatan.

Berdasarkan analisis perekonomian dan industri serta memperhatikan tantangan yang ada, maka bank **bjb** menetapkan target pasar untuk optimalisasi pertumbuhan volume portofolio kredit yang selektif dan *prudent* serta *sustain*, mendorong pertumbuhan ekonomi regional melalui strategi pemberdayaan pelaku usaha UMKM, menjaga tingkat *sustainability* dana murah melalui optimalisasi kapabilitas *digital banking* yang *marketable*, penguatan likuiditas melalui *funding mix* yang efisien untuk mendukung ekspansi bisnis, transformasi *digital* dengan memperkuat infrastruktur teknologi informasi sebagai *anchor* optimalisasi *main income* dan *fee based income*, memperkuat kerangka permodalan dan kapabilitas sumber daya dalam menangkap peluang bisnis serta memaksimalkan peran unit risiko, kepatuhan dan hukum sebagai penyeimbang unit bisnis dalam penerapan *four eyes principles*.

Pada tahun 2021, bank **bjb** menetapkan target pasar antara lain, *Cardless System*, **bjb Onboarding System**, **bjb** TRX (ewallet **bjb**), *Direct Debit* bank **bjb**, kerjasama dengan pihak ketiga yang menyediakan Layanan Perbankan Elektronik (LPE) dan/atau Layanan Perbankan *Digital* (LPD) atau kerjasama dengan *Fintech*, *Social Media Banking*, pengembangan QRIS dan pengembangan dari regulator lainnya, transfer dana, perluasan jaringan internasional, kerja sama dengan Best Winner (Remittance agent Taiwan), penerbitan Obligasi Subordinasi Melalui Penawaran Umum Berkelanjutan (PUB) III, Transaksi Surat Berharga Secara Ritel Kepada Nasabah, Penambahan device (alat transaksi Agen **bjb** BiSA) Aplikasi **bjb** BiSA Versi Android, Pemasaran Produk Reksa Dana melalui kerjasama dengan Manager Investasi, pemasaran produk *Bancassurance* melalui kerjasama dengan Perusahaan Asuransi, *Consumer e-loan* (**bjb** GenCash), Layanan **bjb** Internet Banking Corporate (IBC), Penawaran Umum Terbatas I (PUT I), pemasaran produk *Bancassurance* referensi dalam rangka produk Perseroan melalui kerjasama dengan perusahaan asuransi, Sinergi Perbankan dengan bank **bjb** syariah, penggunaan Sistem Transaksi *Electronic Trading Platform – Multimatching System* dalam melakukan transaksi antar bank.

From the banking side, the interest rate on monetary policy remained low, and loose liquidity pushed bank lending rates on a downward trend. In the money market and funds market, the overnight PUAB interest rate and the banking 1 (one) month deposit rate decreased by 26 bps and 131 bps respectively since December 2020 to 2.78% and 2.96% in December 2021. On the credit market, the decline in the prime lending rate for banks continued, followed by lower interest rates for new loans for all bank groups. Increasing economic activity and mobility of the people led to improved perceptions of banking risk, which had a positive impact on lowering interest rates for new loans. However, the decline in lending rates, which was much slower than the decline in bank deposit rates, caused the spread between lending and deposit rates, as well as banking Net Interest Margin (NIM), to continue to increase.

Based on an analysis of the economy and industry and considering the existing challenges, bank **bjb** set a target market for optimizing selective and prudent and sustainable loan portfolio volume growth, encouraging regional economic growth through a strategy for empowering MSME business actors, maintaining the level of sustainability of low-cost funds through optimizing marketable digital banking capabilities, strengthening liquidity through an efficient funding mix to support business expansion, digital transformation by strengthening information technology infrastructure as an anchor for optimizing main income and fee based income, strengthening the capital framework and resource capability in capturing business opportunities and maximizing the role of risk units, compliance and law as a counterbalance to business units in the implementation of the four eyes principles.

In 2021, bank **bjb** set target markets, including Cardless System, **bjb** Onboarding System, **bjb** TRX (**bjb** ewallet), Direct Debit bank **bjb**, cooperation with third parties that provided Electronic Banking Services (LPE) and/or Digital Banking Services (LPD) or collaboration with Fintech, Social Media Banking, development of QRIS and development from other regulators, transfer of funds, expansion of international networks, collaboration with Best Winner (Taiwanese Remittance agent), issuance of Subordinated Bonds Through Continuous Public Offering (PUB) III, Transactions Retail Securities to Customers, Addition of devices (transaction tools for **bjb** BiSA Agents) Android version of the **bjb** BiSA Application, Marketing of Mutual Fund Products through collaboration with Investment Managers, marketing of Bancassurance products in collaboration with Insurance Companies, Consumer e-loans (**bjb** GenCash), Corporate Internet Banking (IBC) **bjb** services, Limited Public Offering I (PUT I), Bancassurance re product marketing reference in the framework of the Company's products through cooperation with insurance companies, Banking Synergy with bank **bjb** syariah, the use of the Electronic Trading Platform Transaction System – Multimatching System in conducting inter-bank transactions.

In general, bank **bjb**'s target achievement in 2021 has shown good results and has met the expectations of the stakeholders. bank **bjb** in 2021 managed to exceed the asset target of 112.86% with realization reaching IDR158.36 trillion. The achievement of third party funds was 110.58% which was above the target,

110,58% yang berada di atas target, yang didukung juga dengan pencapaian giro sebesar 123,97%, tabungan sebesar 102,89% dan simpanan berjangka sebesar 108,91%. Hal ini menunjukkan bahwa semakin tingginya tingkat kepercayaan masyarakat kepada bank **bjb** walaupun masih dalam kondisi pandemi.

Pencapaian target kredit yang diberikan juga berada di atas target yaitu sebesar 100,12%. Pencapaian kredit dipengaruhi oleh pertumbuhan kredit korporasi dan komersial serta kredit konsumen. Demikian pula dengan pencapaian pendapatan bunga dan syariah yang melampaui target sebesar 115,12%. Dari sisi rasio, rasio NIM dan ROA berada di atas target dengan masing-masing pencapaian sebesar 106,96% dan 104,22%. Ke depannya, bank **bjb** akan senantiasa melakukan evaluasi pelaksanaan strategi yang telah ditetapkan, sehingga kinerja bank **bjb** di masa yang akan datang akan senantiasa mengalami peningkatan secara berkelanjutan.

Kendala yang Dihadapi Bank

Dalam menjalankan kegiatan operasionalnya, bank **bjb** menyadari bahwa Perseroan tidak terlepas dari berbagai kendala. Kendala-kendala tersebut antara lain, ekspansi kredit produktif yang masih belum memenuhi ketentuan regulator dikarenakan terbatasnya kapabilitas SDM handal dalam menangani penyaluran kredit produktif. Laba usaha bank **bjb** masih didominasi oleh hasil bunga kredit dan belum optimalnya kontribusi usaha dari jasa perbankan yang bersumber dari pendapatan non bunga/*fee based income*.

Selain itu, Perseroan juga dihadapkan pada kendala yaitu Dana Pihak Ketiga masih didominasi oleh deposito terutama deposito korporasi dan Pemerintah Daerah. Belum optimalnya penggunaan *database* nasabah juga menjadi kendala, terutama ASN yang memiliki potensi besar untuk memaksimalkan penyaluran produk bank **bjb** yang beragam selain kredit konsumen.

Dalam menghadapi kendala-kendala tersebut, bank **bjb** telah memiliki berbagai strategi. Terkait SDM, Perseroan terus berfokus pada pengembangan karir pegawai sebagai upaya untuk mengembangkan kompetensi pegawai serta memastikan perencanaan suksesi. Berdasarkan skala pasar, sebagian besar Kantor Cabang bank **bjb** masih menjadi market *nichers* di wilayah operasionalnya sehingga masih memiliki peluang yang cukup besar untuk meningkatkan pangsa pasarnya baik dari sisi asset, DPK maupun kredit. Selain itu, kegiatan ekonomi yang cukup tinggi di Provinsi Jawa Barat, Banten dan DKI Jakarta merupakan potensi pengembangan perkreditan dan pendanaan serta dukungan dari pemerintah daerah secara konsisten dan berkesinambungan dalam mengembangkan bank **bjb** sebagai penggerak dan pendorong laju perekonomian di daerah.

which was also supported by the achievement of current accounts of 123.97%, savings of 102.89% and time deposits of 108.91%. This shows that the level of public trust in bank **bjb** is getting higher even though it is still in a pandemic condition.

The achievement of the credit target provided was also above the target of 100.12%. Credit achievement was influenced by growth in corporate and commercial loans as well as consumer loans. Likewise, the achievement of interest and sharia income which exceeded the target of 115.12%. In terms of ratios, the NIM and ROA ratios were above the target with achievements of 106.96% and 104.92%, respectively. Going forward, bank **bjb** will always evaluate the implementation of the strategies that have been set, so that the performance of bank **bjb** in the future will always experience continuous improvement.

Obstacles

In carrying out its operational activities, bank **bjb** realized that the Company could not be separated from various obstacles. These constraints included the expansion of productive loans which still did not meet regulatory requirements due to the limited capability of reliable human resources in handling productive loan distribution. bank **bjb**'s operating profit was still dominated by loan interest results, and the business contribution from banking services was not optimally sourced from non-interest income/*fee based income*.

In addition, the Company also faced with obstacles; Third Party Funds were still dominated by deposits, especially corporate and local government deposits. The less optimal use of the customer database was also an obstacle, especially Civil Government (ASN) who had great potential to maximize the distribution of various bank **bjb** products apart from consumer loans.

In dealing with these obstacles, bank **bjb** performed various strategies. Regarding HR, the Company continued to focus on employee career development as an effort to develop employee competencies and ensure succession planning. Based on market scale, most of bank **bjb** branch offices were still market *nichers* in their operational areas, so they still had a large enough opportunity to increase the market share in terms of assets, deposits and loans. In addition, the high economic activity in the provinces of West Java, Banten and DKI Jakarta became a potential development of loans and funding as well as support from the local government consistently and continuously in developing bank **bjb** as a driver of the regional economy.

Hal-Hal Penting yang Diperkirakan Terjadi pada Masa Mendatang dan Prospek Usaha

Tantangan makro ekonomi global dan nasional selama tahun 2020 hingga semester I tahun 2021 dihadapkan pada tantangan yang sulit dan tidak mudah. Varian baru dari COVID-19 menyerang di hampir di 200 negara dunia sehingga menciptakan kembali gelombang kedua dari serangan virus Corona ini. Kemelut kesehatan yang merupakan dampak dari mutasi virus ini tidak dapat dihindari yakni memberikan tekanan luar biasa terhadap perekonomian global dan nasional. Kebijakan penanganannya melalui pembatasan mobilitas memicu ketidakpastian pasar keuangan global.

Secara umum kondisi ekonomi global di tahun 2022 diperkirakan akan membaik yang didukung peningkatan mobilitas dan stimulus kebijakan di berbagai negara serta kemajuan penanganan COVID-19. Atas hal tersebut berbagai lembaga keuangan internasional memproyeksikan perekonomian dunia akan tumbuh dikisaran 4,3% - 4,4% untuk tahun 2022.

Dari sisi domestik, perekonomian dalam negeri mulai menunjukkan perbaikan yang diperkirakan terus menguat pada tahun 2022. Kebijakan pemerintah tahun 2022 akan berfokus untuk melakukan pemantapan pemulihan sosial ekonomi sebagai penguatan pondasi yang mendukung pelaksanaan reformasi struktural secara lebih optimal. Terdapat empat poin kebijakan Pemerintah untuk melaksanakan penguatan fondasi dimaksud yaitu:

1. Melanjutkan upaya pemantapan pemulihan ekonomi dengan tetap memprioritaskan sektor kesehatan untuk mendorong efektivitas penanganan COVID-19 sebagai kunci pemulihan ekonomi.
2. Menjaga keberlanjutan program perlindungan sosial untuk memperkuat pondasi kesejahteraan sosial, mencegah kemiskinan dan kerentanan akibat dampak COVID-19, termasuk memperkuat daya ungkit UMKM dan dunia usaha agar mampu bangkit kembali lebih kuat dan berdaya tahan.
3. Mendukung peningkatan produktivitas dengan perbaikan kualitas Sumber Daya Manusia (SDM) melalui peningkatan kualitas pendidikan, penguatan sistem kesehatan yang terintegrasi dan handal, serta penguatan program perlindungan sosial sepanjang hayat.
4. Optimalisasi pendapatan, penguatan *spending better* dan inovasi pembiayaan sebagai kunci dalam rangka konsolidasi kebijakan fiskal yang adil dan berkelanjutan.

Di tahun 2022, perekonomian domestik diproyeksikan akan membaik dan pandemi lebih terkendali sejalan dengan akselerasi program vaksinasi dan program penguatan perekonomian seperti pemberian insentif, subsidi, dan optimalisasi serta inovasi *vehicle* Pemerintah pada BUMN dan Badan Layanan Umum (BLU), yang berperan dalam peningkatan layanan publik dan mendukung pertumbuhan ekonomi. Hal tersebut akan berdampak pada

Important Things and Business Prospects Expected to Happen in the Future

Global and national macroeconomic challenges during 2020 until the first semester of 2021 faced difficult and not easy challenges. The new variant of COVID-19 attacked in almost 200 countries of the world, creating a second wave of this Corona virus attack. The health crisis as the impact of this virus mutation was unavoidable. Hence, it put tremendous pressure on the global and national economy. The policy of handling it through restrictions on mobility triggered uncertainty in global financial markets.

In general, global economic conditions in 2022 are expected to improve, supported by increased mobility and policy stimulus in various countries as well as progress in handling COVID-19. For this reason, various international financial institutions project that the world economy will grow in the range of 4.3% - 4.4% for 2022.

From the domestic side, the domestic economy has started to show improvement which is expected to continue to strengthen in 2022. The government's policy in 2022 will focus on strengthening the socio-economic recovery as a strengthening of the foundation that supports the implementation of structural reforms more optimally. There are four points of Government policy to implement the strengthening of the foundation, namely:

1. Continuing efforts to strengthen economic recovery while still prioritizing the health sector to encourage the effectiveness of handling COVID-19 as the key to economic recovery.
2. Maintaining the sustainability of social protection programs to strengthen the foundation of social welfare, prevent poverty and vulnerability due to the impact of COVID-19, including strengthening the leverage of MSMEs and the business world to be able to rise again stronger and more resilient.
3. Supporting increased productivity by improving the quality of Human Resources (HR) through improving the quality of education, strengthening an integrated and reliable health system, and strengthening lifelong social protection programs.
4. Optimizing income, strengthening *spending better* and financing innovation as the keys to consolidating a fair and sustainable fiscal policy.

In 2022, the domestic economy was projected to improve and the pandemic to be more controlled in line with the acceleration of vaccination programs and economic strengthening programs such as providing incentives, subsidies, and optimizing and innovating Government vehicles for SOEs and Public Service Agencies (BLU), which play a role in improving public services. and support economic growth. This will have an impact on increasing domestic

kenaikan permintaan domestik di tahun 2022 yang akan mendorong tingkat inflasi kembali pada pola normal yang didukung dengan stabilitas nilai tukar rupiah yang terjaga.

Secara keseluruhan, perekonomian Indonesia di tahun 2022 diproyeksi mampu tumbuh sebesar 5,2%. Dari sisi pengeluaran, konsumsi rumah tangga yang memberikan kontribusi sekitar 54% terhadap perekonomian diperkirakan mampu kembali ke level pertumbuhan normalnya. Hal ini didorong oleh pola aktivitas dan mobilitas masyarakat yang lebih baik pasca pemulihan dari eskalasi pandemi COVID-19 baik di tahun 2020 maupun 2021. Sementara itu, konsumsi Pemerintah pada tahun 2022 mampu tumbuh positif sebesar 2,8%–4,5% seiring terkendalinya pandemi yang memungkinkan sebagian besar fungsi pelayanan publik dapat berjalan normal.

Berbagai perkiraan kondisi perekonomian tersebut, bank **bjb** yakin memiliki prospek yang baik serta peluang untuk terus tumbuh secara berkelanjutan. Peluang yang dimiliki bank **bjb** antara lain sebagai berikut:

1. Penurunan GWM oleh Bank Indonesia diprediksi akan membuat likuiditas perbankan bertambah sehingga bank **bjb** dapat memanfaatkan penurunan GWM ini untuk melakukan ekspansi kredit.
2. Berdasarkan skala pasar, sebagian besar Kantor Cabang bank **bjb** masih menjadi *market nichers* di wilayah operasionalnya sehingga masih memiliki peluang yang cukup besar untuk meningkatkan pangsa pasarnya baik dari sisi aset, dana pihak ketiga, maupun kredit.
3. Semakin meningkatnya literasi keuangan masyarakat melalui program yang dicanangkan oleh BI dan OJK dalam rangka menerapkan kebijakan keuangan inklusif sebagai suatu bentuk pendalaman layanan keuangan (*financial service deepening*) yang ditujukan kepada masyarakat *in the bottom of the pyramid* untuk memanfaatkan produk dan jasa keuangan formal seperti sarana menyimpan uang yang aman (*keeping*), *transfer*, menabung maupun pinjaman dan asuransi.
4. Kegiatan ekonomi yang cukup tinggi Propinsi Jawa Barat, Banten dan DKI Jakarta merupakan potensi pengembangan perkreditan dan pendanaan.
5. Dukungan dari Pemerintah Daerah secara konsisten dan berkesinambungan dalam mengembangkan bank **bjb** sebagai penggerak dan pendorong laju perekonomian di daerah.
6. Otoritas Jasa Keuangan mengumumkan bahwa penerapan standar industri perbankan sesuai Basel III *Reforms* akan ditunda menjadi 1 Januari 2021, kebijakan ini berdampak bagi permodalan bank **bjb**. Dengan adanya penundaan ini akan memberikan ruang likuiditas dan permodalan bank **bjb** sehingga fungsi utama Bank sebagai penyeimbang sektor keuangan akan tetap terjaga.

bank **bjb** optimis untuk dapat senantiasa meningkatkan kinerja dalam jangka pendek maupun jangka panjang secara berkelanjutan. Hal ini didasarkan pada kekuatan yang dimiliki oleh bank **bjb** yaitu:

demand in 2022 which will push the inflation rate back to a normal pattern supported by maintained stability in the rupiah exchange rate.

Overall, the Indonesian economy in 2022 was projected to grow by 5.2%. From the expenditure side, household consumption, which contributes around 54% to the economy, was estimated to be able to return to its normal growth level. This is driven by better patterns of activity and community mobility after recovery from the escalation of the COVID-19 pandemic in both 2020 and 2021. Meanwhile, Government consumption in 2022 will be able to grow positively by 2.8%-4.5% in line with the control a pandemic that allows most public service functions to run normally.

Various estimates of economic conditions, bank **bjb** believes it has good prospects and opportunities to continue to grow in a sustainable manner. Opportunities owned by bank **bjb** include the following:

1. The reduction in the Statutory Reserves by Bank Indonesia is predicted to increase banking liquidity so that bank **bjb** can take advantage of this reduction in the Statutory Reserves to expand credit.
2. Based on market scale, most of bank **bjb** Branch Offices are still market nichers in their operational areas so they still have a large enough opportunity to increase their market share both in terms of assets, third party funds, and loans.
3. Increasing public financial literacy through programs launched by BI and FSA in order to implement financial inclusion policies as a form of financial service deepening aimed at the community at the bottom of the pyramid to take advantage of formal financial products and services such as safe means of keeping money, transfers, savings and loans and insurance.
4. The high economic activity of the Provinces of West Java, Banten and DKI Jakarta is a potential development of credit and funding.
5. Support from the Regional Government consistently and continuously in developing bank **bjb** as a driver and driver of the regional economy.
6. The Financial Services Authority announced that the application of the banking industry standard according to Basel III Reforms will be postponed to January 1, 2021, this policy has an impact on bank **bjb**'s capital. This delay will provide room for liquidity and bank **bjb**'s capital so that the Bank's main function as a balancer for the financial sector will be maintained.

bank **bjb** is optimistic to be able to continuously improve performance in the short and long term in a sustainable manner. This is based on the strengths of bank **bjb**, namely:

1. Sebagai intitusi pengelola keuangan kas daerah, bank **bjb** memiliki akses yang luas dalam menghimpun dan menyalurkan dana masyarakat serta tercatat sebagai perusahaan publik yang melantai di Bursa efek Indonesia (BEI) sejak tahun 2010.
 2. Memiliki basis nasabah yang loyal dalam jumlah yang sangat besar yaitu Aparatur Sipil Negara (ASN), para pensiunan dan masyarakat lokal, terutama di wilayah Jawa Barat dan Banten.
 3. Berada di Propinsi Jawa Barat dan Banten yang mempunyai sumber daya alam yang luas, sumber daya manusia, kawasan industri besar serta kegiatan ekonomi yang terus berkembang.
 4. Memiliki jaringan kantor yang relatif menyebar di 14 (empat belas) Provinsi terutama Jawa Barat dan Banten serta Jakarta yang merupakan pusat perekonomian Indonesia.
 5. Telah ditunjuknya bank **bjb** sebagai Bank Operasional II (BO II) yang melaksanakan penyaluran gaji Pemerintah Pusat yang ditempatkan di daerah.
 6. Transformasi *digital* bank **bjb** melalui pengembangan layanan berbasis *digital* seperti transaksi **bjb** Digi menjadi lebih mudah, karena fitur layanan terintegrasi melalui sistem *mobile*, seperti *Internet Banking-bjb* Net, *SMS Banking-bjb* SMS, **bjb** info.
 7. Memiliki program pemberdayaan yang dikenal dengan Pemberdayaan Ekonomi Masyarakat Terpadu (PESAT) yang mencakup program Pesat Sehat dan Produktif, Program Pesat kapasitas Usaha dan Program Pesat Wirausaha Baru dalam rangka untuk meningkatkan kompetensi dan kapasitas pelaku Usaha Mikro, Kecil dan Menengah (UMKM).
1. As a regional treasury financial management institution, bank **bjb** has broad access to collecting and distributing public funds and is listed as a public company on the Indonesia Stock Exchange (IDX) since 2010.
 2. Having a very large loyal customer base, namely State Civil Apparatus (ASN), retirees and local communities, especially in West Java and Banten.
 3. Located in the provinces of West Java and Banten which have extensive natural resources, human resources, large industrial areas and growing economic activities.
 4. Having a network of offices that are relatively spread across 14 (fourteen) provinces, especially West Java and Banten as well as Jakarta which is the center of the Indonesian economy.
 5. bank **bjb** has been appointed as the Operational Bank II (BO II) which carries out the distribution of salaries of the Central Government placed in the regions.
 6. The digital transformation of bank **bjb** through the development of digital-based services such as **bjb** Digi transactions is made easier, because of the integrated service features through the mobile system, such as Internet Banking-**bjb** Net, SMS Banking-**bjb** SMS, **bjb** info.
 7. Having an empowerment program known as Integrated Community Economic Empowerment (PESAT) which includes the Healthy and Productive Rapid Program, Business Capacity Development Program and New Entrepreneurship Program in order to improve the competence and capacity of Micro, Small and Medium Enterprises (MSMEs) actors.

bank **bjb** senantiasa melakukan kolaborasi dan sinergi dengan berbagai pihak, baik Pemerintah, BUMN/BUMD maupun swasta. Sebagai mitra strategis Pemerintah Daerah, bank **bjb** terus menebarkan inspirasi kepada setiap generasi dan memantapkan kinerjanya di tengah berbagai tantangan yang dihadapi terutama pandemi COVID-19.

bank **bjb** always collaborates and synergizes with various parties, both the Government, SOEs / ROEs and the private sector. As a strategic partner of the Regional Government, bank **bjb** continues to inspire every generation and strengthen its performance in the midst of various challenges faced, especially the COVID-19 pandemic.

Untuk menjaga pencapaian kinerja bank **bjb** di tahun 2022, dibutuhkan formula yang dituangkan dalam bentuk Arahan Strategi Direksi Tahunan (ASDT) guna menjadi pedoman rencana kerja bagi seluruh unit kerja. Arahan Strategi Direksi Tahunan (ASDT) Tahun 2022 merupakan arahan kebijakan dan strategi yang akan dijalankan selama satu tahun sebagai pedoman bagi seluruh unit kerja dalam menyusun rencana kerja dan anggaran dalam rencana bisnis. Berikut adalah arahan strategi Direksi Tahunan (ASDT) bank **bjb** tahun 2022 yang telah ditetapkan sebagai pedoman untuk menjalankan aktivitas usaha dalam rangka meningkatkan kinerja. Adapun ASDT tahun 2022 diuraikan sebagai berikut:

To maintain the achievement of bank **bjb**'s performance in 2022, a formula is needed that is outlined in the form of the Annual Directors' Strategy Direction (ASDT) to serve as a guideline for work plans for all work units. The Annual Directors' Strategy Direction (ASDT) 2022 is a policy and strategic direction that will be carried out for one year as a guide for all work units in preparing work plans and budgets in the business plan. Perkembangan Penerapan Tata Kelola Perusahaan di Tahun 2021

Dalam rangka evaluasi penerapan GCG, Perseroan melaksanakan GCG *Assessment* yang dilaksanakan secara periodik dan konsisten setiap tahun yang terdiri dari *self assessment* sesuai ketentuan OJK. Pelaksanaan *self assessment* tersebut dilakukan secara periodik setiap semester yaitu pada bulan Juni dan Desember pada tahun berjalan. Penilaian sendiri ini dimaksudkan untuk memetakan kekuatan (*strength*) dan Kelemahan pelaksanaan GCG di bank **bjb** yang ditinjau dari tiga aspek yaitu *Governance Structure*, *Governance Process*, dan *Governance Outcome*.

Development of Corporate Governance Implementation in 2021

In order to evaluate the implementation of GCG, the Company approved a GCG *Assessment* carried out periodically and consistently every year consisting of a self-assessment in accordance with FSA regulations. The self-assessment was carried out periodically every semester, namely in June and December of the current year. This self-assessment was intended to map the strengths and weaknesses of the implementation of GCG at bank **bjb** in terms of three aspects, namely *Governance Structure*, *Governance Process*, and *Governance Outcome*.

Hasil *self assessment* pada periode Januari-Juni 2021 dan periode Juli-Desember 2021 berada pada peringkat 2 (dua) yang mencerminkan Manajemen Bank telah melakukan penerapan Tata Kelola yang secara umum baik. Hasil dari *assessment* serta ditambah dengan masukan dari seluruh *stakeholders* digunakan sebagai pertimbangan di dalam melakukan peningkatan kualitas implementasi GCG. Selama tahun 2021 Perseroan telah melakukan upaya-upaya perbaikan dengan menindaklanjuti beberapa kelemahan yang direkomendasikan berdasarkan hasil *assessment*. Tindaklanjut dari rekomendasi tersebut antara lain:

1. bank **bjb** telah melakukan proses *review* atau pengkinian atas kebijakan, sistem dan prosedur Bank secara bertahap dengan memperhatikan skala prioritas kebutuhan Bank dan mengacu kepada ketentuan internal dan eksternal.
2. Penyelesaian pemenuhan komitmen Perseroan atas hasil pemeriksaan regulator termasuk Otoritas Jasa Keuangan berdasarkan *deadline* telah selesai 100%.
3. Perseroan melalui Satuan Kerja Kepatuhan membuat langkah-langkah dalam rangka mendukung terciptanya Budaya Kepatuhan pada seluruh kegiatan usaha Bank pada setiap jenjang organisasi diantaranya dengan melaksanakan kegiatan sosialisasi Budaya Kepatuhan secara rutin kepada semua tingkatan organisasi dan kegiatan usaha Bank.

Selain melaksanakan *self assessment*, bank **bjb** juga melaksanakan penilaian program *Corporate Governance Perception Index* (CGPI) Tahun 2020 yang diselenggarakan oleh The Indonesian Institute For Corporate Governance (IICG) bersama Majalah SWA. Hasil penilaian CGPI yaitu bank **bjb** termasuk dalam kategori Trusted Company dengan skor 83,74.

Pandangan Atas Kinerja Direksi

Dewan Komisaris memberikan penghargaan yang setinggi-tingginya kepada kinerja Direksi yang telah mampu menghadapi tantangan perekonomian yang masih terdampak oleh pandemi COVID-19. Dasar penilaian Dewan Komisaris atas kinerja Direksi adalah terkait kinerja operasional dan keuangan serta tingkat kesehatan bank yang dapat disampaikan sebagai berikut.

Pertumbuhan ekonomi global 2022 diperkirakan sesuai dengan proyeksi sebelumnya sebesar 4,4%. Volume perdagangan dan harga komoditas global diperkirakan masih meningkat, sehingga menopang prospek ekspor negara berkembang. Namun demikian, perekonomian global masih menghadapi ketidakpastian pasar keuangan yang meningkat sejalan dengan rencana percepatan kebijakan normalisasi negara maju, terutama AS dan Kawasan Eropa, sebagai respons peningkatan tekanan inflasi akibat gangguan rantai pasok dan kuatnya permintaan, kenaikan penyebaran COVID-19 varian Omicron, serta meningkatnya tensi geopolitik. Hal tersebut berpotensi mengakibatkan terbatasnya aliran modal dan tekanan nilai tukar negara berkembang.

Perekonomian Nasional secara keseluruhan tahun 2021 tumbuh sebesar 3,69%. Dari sisi laju pemulihan, PDB Indonesia tahun 2021 berhasil melampaui level periode prapandemi. Dengan pertumbuhan ekonomi ini juga, tingkat PDB per kapita Indonesia berhasil naik dari 57,3 di tahun 2020 ke 62,2 juta rupiah di tahun 2021 (naik 8,6%), atau 4.349,5 dolar AS. Dengan pencapaian ini dan klasifikasi Bank Dunia terakhir (2020), Indonesia diperkirakan kembali masuk ke kelompok *upper-middle income countries* pada tahun 2021.

Ke depan, kinerja perekonomian domestik akan semakin kuat dan diproyeksi tumbuh sebesar 5,2% di tahun 2022. Kinerja tersebut akan ditopang oleh penguatan investasi dan ekspor serta kelanjutan pemulihan konsumsi masyarakat yang didukung oleh upaya pengendalian pandemi yang menyeluruh, termasuk dengan akselerasi vaksinasi secara masif. Namun demikian, terdapat sejumlah risiko yang harus terus diwaspadai dan diantisipasi, khususnya penyebaran varian Omicron. Sejak akhir 2021, berbagai negara mengalami gelombang baru COVID-19 akibat varian tersebut. Pengalaman berbagai negara menunjukkan bahwa gelombang Omicron lebih cepat menyebar dibandingkan varian Delta, namun juga lebih cepat mengalami penurunan.

Dari sisi perbankan, Rasio kecukupan modal (*Capital Adequacy Ratio/CAR*) perbankan November 2021 tetap tinggi sebesar 25,59%, dan rasio kredit bermasalah (*Non Performing Loan/NPL*) tetap terjaga, yakni 3,19% (bruto) dan 0,98% (neto). Intermediasi perbankan terus membaik dengan pertumbuhan kredit sebesar 5,24% (YoY) pada Desember 2021. Pertumbuhan kredit lebih merata pada semua jenis penggunaan, baik kredit modal kerja, kredit konsumsi maupun kredit investasi, yang masing-masing tumbuh 6,32% (YoY), 4,67% (YoY), dan 4,01% (YoY). Permintaan kredit dari sisi korporasi terindikasi semakin meningkat,

Views on the Performance of the Directors

The Board of Commissioners addressed the highest appreciation to the performance of the Directors who had been able to face economic challenges still affected by the COVID-19 pandemic. The basis for the assessment of the Board of Commissioners on the performance of the Directors was related to operational and financial performance as well as the soundness of the bank which could be conveyed as follows.

Global economic growth in 2022 was predicted in line with the previous projection of 4.4%. Global trade volume and commodity prices were forecasted to continue to increase, thus supporting the export outlook for developing countries. However, the global economy will be still facing increasing financial market uncertainty in line with plans to accelerate the normalization policy of developed countries, especially the US and the European Region, in response to increasing inflationary pressures due to supply chain disruptions and strong demand, the increase in the spread of the Omicron variant of COVID-19, as well as rising geopolitical tension. This may become the potential to result in limited capital flows and pressure on the exchange rate of developing countries.

The National Economy as a whole in 2021 grew by 3.69%. In terms of the pace of recovery, and Indonesia's GDP in 2021 managed to surpass the level of the pre-pandemic period. With this economic growth as well, Indonesia's GDP per capita level managed to increase from 57.3 in 2020 to 62.2 million rupiah in 2021 (up 8.6%), or 4,349.5 US dollars. With this achievement and the latest World Bank classification (2020), Indonesia was expected to re-enter the upper-middle income countries group in 2021.

Henceforward, domestic economic performance could be stronger and was projected to grow by 5.2% in 2022. This performance will be supported by strengthening investment and exports as well as continued recovery in public consumption supported by comprehensive pandemic control efforts, including massive acceleration of vaccination. However, there are a number of risks that must be monitored and anticipated, in particular the spread of the Omicron variant. Since the end of 2021, various countries have experienced a new wave of COVID-19 due to this variant. The experience of various countries showed that the Omicron wave spread faster than the Delta variant, but it also decreased faster.

From the banking side, the November 2021 Capital Adequacy Ratio (CAR) remained high at 25.59%, and the non-performing loan (NPL) ratio was maintained at 3.19% (gross) and 0.98% (net). Banking intermediation continued to improve with loans growth of 5.24% (YoY) in December 2021. Loans growth was more evenly distributed across all types of use, both working capital loans, consumption loans and investment loans, each of which grew 6.32% (YoY), 4.67% (YoY), and 4.01% (YoY). The demand for loans from the corporate side was indicated to be increasing, while from the supply side, banks were lowering

sementara dari sisi penawaran perbankan menurunkan standar penyaluran kredit terutama pada sektor-sektor prioritas seiring dengan menurunnya persepsi risiko kredit. Pertumbuhan kredit UMKM juga meningkat signifikan didorong oleh meningkatnya permintaan sejalan dengan pemulihan aktivitas dunia usaha.

Di tengah kondisi perekonomian tersebut, Direksi mampu menghadapi tantangan dan peluang yang terjadi dengan mencatatkan kinerja yang baik di tahun 2021. Pada tahun 2021, Outstanding kredit konsumen mencapai Rp44,84 triliun, tumbuh 4,31% dibandingkan dengan tahun 2020 yang mencapai Rp42,98 triliun. Outstanding kredit ritel mencapai Rp17,07 triliun, tumbuh 0,98% dibandingkan dengan tahun 2020 yang mencapai Rp16,91 triliun. Kredit korporasi dan komersial mencapai Rp22,16 triliun tumbuh 14,81% dibandingkan tahun 2020 yang mencapai Rp19,30. Outstanding Kredit UMKM mencapai Rp3,10 triliun tumbuh 19,37% dibandingkan tahun 2020 sebesar Rp2,59 triliun.

Dana pihak ketiga konsumen pada tahun 2021 mencapai Rp36,75 triliun, meningkat 5,91% atau Rp2,05 triliun dibandingkan dengan tahun 2020 yang mencapai Rp34,70 triliun. Total DPK nasabah institusi pada tahun 2021 mencapai Rp76,69 triliun, meningkat 20,93% atau Rp13,27 triliun dibandingkan dengan tahun 2020 yang mencapai Rp63,41 miliar.

Jasa layanan bank **bjb** juga menunjukkan kinerja yang baik di tahun 2021. Pada jasa *Wealth Management, Asset Under Management* Reksa Dana tahun 2021 mencapai Rp737,34 miliar, meningkat Rp310,51 miliar atau 72,75% dibandingkan dengan tahun 2020 yang mencapai Rp426,82 miliar. Sedangkan untuk premi *bancassurance* tahun 2021 mencapai Rp20,70 miliar, meningkat sebesar 17,20% dibandingkan tahun 2020 mencapai Rp17,66 miliar. DPK **bjb** Prioritas tahun 2021 sebesar Rp11,92 triliun, meningkat 3,99% dibandingkan dengan tahun 2020 yang sebesar Rp11,47 triliun. Pada jasa *International Banking*, volume transaksi *trade and loan* tahun 2021 meningkat 60,17% dari Rp2,33 triliun di tahun 2020 menjadi Rp3,73 triliun di tahun 2021. Dari jasa *treasury*, volume transaksi *trading fixed income* tahun 2021 sebesar Rp36,32 triliun, meningkat 72,51% dibandingkan dengan tahun 2020 yang sebesar Rp21,06 triliun. Volume transaksi forex tahun 2021 sebesar USD6,64 juta meningkat 32,16% dibandingkan dengan tahun 2020 yang sebesar USD5,021.71 juta. Selain kinerja operasional dan keuangan, tingkat kesehatan bank juga menjadi salah satu pertimbangan Dewan Komisaris dalam melakukan penilaian atas kinerja Direksi. Tingkat Kesehatan Bank adalah hasil penilaian kondisi Perseroan yang dilakukan terhadap Risiko dan kinerja Perseroan. Perseroan wajib melakukan penilaian Tingkat Kesehatan Bank secara *self assessment* untuk posisi akhir bulan Juni dan Desember. Penilaian Tingkat Kesehatan dengan pendekatan Risiko (*Risk-Based Bank Rating*) tersebut dilakukan dengan cakupan penilaian terhadap faktor profil risiko, tata kelola, rentabilitas dan permodalan.

Peringkat Komposit Tingkat Kesehatan bank **bjb** posisi 31 Desember 2021 berada pada PK 2 (Sehat). Kondisi bank **bjb** secara umum sehat, sehingga dinilai mampu menghadapi pengaruh negatif yang signifikan dari perubahan kondisi bisnis dan faktor eksternal lainnya. Hal ini tercermin dari peringkat faktor penilaian antara lain profil risiko, penerapan tata kelola, rentabilitas, dan permodalan yang secara umum baik. Dalam hal terdapat kelemahan, maka secara umum kelemahan tersebut kurang signifikan.

Pandangan Atas Prospek Usaha yang Disusun Direksi

Kondisi ekonomi global di tahun 2022 diperkirakan akan membaik yang didukung peningkatan mobilitas dan stimulus kebijakan di berbagai negara serta kemajuan penanganan COVID-19. Atas hal tersebut berbagai lembaga keuangan internasional memproyeksikan perekonomian dunia akan tumbuh dikisaran 4,3% - 4,4% untuk tahun 2022.

Dari sisi domestik, perekonomian dalam negeri mulai menunjukkan perbaikan yang diperkirakan terus menguat pada tahun 2022. Kebijakan pemerintah tahun 2022 akan berfokus untuk melakukan pemantapan pemulihan sosial ekonomi sebagai penguatan pondasi yang mendukung pelaksanaan reformasi struktural secara lebih optimal.

Di tahun 2022, perekonomian domestik diproyeksikan akan membaik dan pandemi lebih terkendali sejalan dengan akselerasi program vaksinasi dan program penguatan perekonomian seperti pemberian insentif, subsidi, dan optimalisasi serta inovasi *vehicle* Pemerintah pada BUMN dan Badan Layanan Umum (BLU), yang berperan dalam peningkatan layanan publik dan mendukung pertumbuhan ekonomi. Hal tersebut akan berdampak pada kenaikan permintaan domestik di tahun 2022 yang akan mendorong tingkat inflasi kembali pada pola normal yang didukung dengan stabilitas nilai tukar rupiah yang terjaga.

Total assets reached IDR158,356,097 million, an increase of 12.36% compared to 2020 which reached IDR140,934,002 million.

Other than operational and financial performance, the soundness of the bank also became one of the considerations for the Board of Commissioners in assessing the performance of the Directors. Bank Soundness Level was the result of an assessment of the Company's condition carried out on the Company's risks and performance. The Company was required to conduct a self-assessment of the Bank's Soundness Level for positions at the end of June and December. The Health Level Assessment with a Risk-Based Bank Rating approach was carried out with a scope of assessment of risk profile factors, governance, profitability and capital.

The Composite Rating of bank **bjb**'s Health Level on December 31, 2021 was at PK 2 (Healthy). The condition of bank **bjb** was generally healthy, so it was considered capable of facing significant negative effects from changes in business conditions and other external factors. This was reflected in the ratings of the assessment factors, including risk profile, implementation of good governance, profitability, and generally good capital. In the event that there were weaknesses, in general these weaknesses were less significant.

View on Business Prospects Developed by The Directors

Global economic conditions in 2022 were expected to improve, supported by increased mobility and policy stimulus in various countries as well as progress in handling COVID-19. For this reason, various international financial institutions project that the world economy will grow in the range of 4.3% - 4.4% for 2022.

From the domestic side, the domestic economy is starting to show improvement, and it is expected to continue to strengthen in 2022. The government's policy in 2022 will focus on strengthening the socio-economic recovery as a strengthening of the foundation that supports the implementation of structural reforms more optimally.

In 2022, the domestic economy was projected to improve and the pandemic to be more controlled in line with the acceleration of vaccination programs and economic strengthening programs such as providing incentives, subsidies, and optimizing and innovating Government vehicles for SOEs and Public Service Agencies (BLU), which play a role in improving public services and support economic growth. This will have an impact on increasing domestic demand in 2022 which will push the inflation rate back to a normal pattern supported by maintained stability in the rupiah exchange rate.

Secara keseluruhan, perekonomian Indonesia di tahun 2022 diproyeksi mampu tumbuh sebesar 5,2%. Dari sisi pengeluaran, konsumsi rumah tangga yang memberikan kontribusi sekitar 54% terhadap perekonomian diperkirakan mampu kembali ke level pertumbuhan normalnya. Hal ini didorong oleh pola aktivitas dan mobilitas masyarakat yang lebih baik pasca pemulihan dari eskalasi pandemi COVID-19 baik di tahun 2020 maupun 2021. Sementara itu, konsumsi Pemerintah pada tahun 2022 mampu tumbuh positif sebesar 2,8%–4,5% seiring terkendalinya pandemi yang memungkinkan sebagian besar fungsi pelayanan publik dapat berjalan normal.

Setelah mempertimbangkan kondisi perekonomian, Dewan Komisaris berpendapat bahwa prospek usaha yang telah disusun oleh Direksi sudah tepat. Dewan Komisaris berkeyakinan bahwa Perseroan akan dapat memanfaatkan peluang yang ada di antaranya adalah sebagian besar Kantor Cabang bank **bjb** masih menjadi *market nichers* di wilayah operasionalnya sehingga masih memiliki peluang yang cukup besar untuk meningkatkan pangsa pasarnya baik dari sisi aset, dana pihak ketiga, maupun kredit. Kegiatan ekonomi yang cukup tinggi Propinsi Jawa Barat, Banten dan DKI Jakarta merupakan potensi pengembangan perkreditan dan pendanaan serta dukungan dari Pemerintah Daerah secara konsisten dan berkesinambungan dalam mengembangkan bank **bjb** sebagai penggerak dan pendorong laju perekonomian di daerah. Hal tersebut didukung oleh efektifnya strategi usaha yang telah ditetapkan oleh Direksi.

Pandangan atas Penerapan Tata Kelola Bank

Dewan Komisaris menyadari pentingnya penerapan tata kelola perusahaan yang baik atau *good corporate governance* (GCG) di Perseroan, sehingga setiap kegiatan bisnis Perseroan tidak bertentangan dengan peraturan yang menimbulkan pelanggaran hukum. Penerapan GCG dapat meningkatkan kinerja Perseroan melalui terciptanya proses pengambilan keputusan yang lebih baik, meningkatkan efisiensi operasional Perseroan serta lebih meningkatkan pelayanan kepada *stakeholders*. Oleh karena itu implementasi GCG menjadi perhatian utama bagi Dewan Komisaris dalam menjalankan fungsi pengawasan dan pemberian nasehat kepada Direksi.

Dewan Komisaris berpendapat bahwa Direksi telah menerapkan GCG dengan efektif dan konsisten di 2021. GCG merupakan mekanisme yang mengatur hubungan Bank dengan para pemangku kepentingan secara transparan, akuntabel, bertanggung jawab, independen dan adil. Dewan Komisaris berpendapat bahwa Perseroan telah merasakan manfaat yang signifikan dari implementasi GCG yang telah dilakukan.

Salah satu isu kunci terkait dengan penerapan GCG adalah penerapan manajemen risiko, penerapan *whistleblowing system* (WBS) serta sistem pengendalian internal. Dewan Komisaris

Overall, the Indonesian economy in 2022 was projected to grow by 5.2%. From the expenditure side, household consumption, which contributes around 54% to the economy, was estimated to be able to return to its normal growth level. This is driven by better patterns of activity and community mobility after recovery from the escalation of the COVID-19 pandemic in both 2020 and 2021. Meanwhile, Government consumption in 2022 will be able to grow positively by 2.8%-4.5% in line with the control a pandemic that allows most public service functions to run normally.

After considering the economic conditions, the Board of Commissioners was of the opinion that the business prospects that had been prepared by the Directors were appropriate. The Board of Commissioners believed that the Company would be able to take advantage of the existing opportunities, including most of the branch offices of bank **bjb** became still market nichers in their operational areas so that they still had a large enough opportunity to increase their market share in terms of assets, third party funds, and loans. The high economic activity in the Provinces of West Java, Banten and DKI Jakarta was a potential development of loans and funding as well as support from the Regional Government consistently and continuously in developing bank **bjb** as a driver of the regional economy. This was supported by the effective business strategy set by the Directors.

Views on The Implementation of Bank Governance

The Board of Commissioners was aware of the importance of implementing good corporate governance (GCG) in the Company, so that each of the Company's business activities did not conflict with regulations that resulted in violations of the law. The implementation of GCG could improve the Company's performance through the creation of a better decision-making process, increase the Company's operational efficiency and further improve services to stakeholders. Therefore, the implementation of GCG became a major concern for the Board of Commissioners in carrying out its supervisory function and providing advice to the Directors.

The Board of Commissioners believed that the Directors had implemented GCG effectively and consistently in 2021. GCG became a mechanism that regulated the Bank's relationship with stakeholders in a transparent, accountable, responsible, independent and fair manner. The Board of Commissioners was of the opinion that the Company had benefited significantly from the implementation of GCG that had been carried out.

One of the key issues related to the implementation of GCG was the implementation of risk management, the implementation of the whistleblowing system (WBS) and the internal control

Manajemen Risiko

Sistem manajemen risiko yang efektif merupakan salah satu komponen yang penting dalam manajemen Perseroan dan landasan untuk menjalankan organisasi Perseroan dengan sehat, aman dan baik. Sistem manajemen risiko akan mengarahkan aktivitas pada misi dan tujuan Perseroan yang sudah ditetapkan, yaitu untuk mencapai target laba jangka panjang yang terus meningkat dan berkesinambungan, serta meningkatkan alokasi permodalan secara optimal yang mendukung aktivitas operasional yang sehat. Sistem dimaksud akan membantu manajemen dalam melakukan pemantauan terhadap ketentuan dan hukum yang berlaku, kebijakan, rencana, ketentuan serta prosedur internal. Di samping itu, sistem manajemen risiko juga dapat mengurangi risiko sistemik (*systemic risk*) yang dapat merugikan bank baik secara material maupun immaterial. Dalam mewujudkan penerapan manajemen risiko yang efektif, bank **bjb** menerapkan pendekatan *Three Lines of Defense* sebagai mekanisme pertahanan secara berlapis untuk mengelola dan menerapkan kerangka kerja manajemen risiko, yakni:

1. Pertahanan Tingkat Pertama

Risk Taking Unit berperan sebagai pertahanan tingkat pertama dan bertanggung jawab untuk mengidentifikasi, mengevaluasi, mengendalikan dan memitigasi risiko dalam aktivitas operasional. *Risk Taking Unit* memiliki tanggung jawab yang utama atas pengelolaan eksposur risiko dalam aktivitas sehari-hari.

2. Pertahanan Tingkat Kedua

Satuan Kerja Manajemen Risiko (SKMR) berperan sebagai unit kunci dalam memberikan pertahanan tingkat kedua melalui fungsi pemantauan yang independen. SKMR telah melakukan *review* atas kelengkapan dan keakuratan identifikasi, pengukuran, pemantauan, pengendalian dan pelaporan risiko, serta atas kecukupan skenario mitigasi yang diusulkan oleh unit kerja operasional.

3. Pertahanan Tingkat Ketiga

Fungsi Internal Audit melakukan penilaian terhadap kecukupan kebijakan, strategi dan kerangka Manajemen Risiko serta efektivitas pengendalian internal dalam rangka memberikan *assurance* yang independen dan objektif.

bank **bjb** ditunjuk sebagai Entitas Utama dari konglomerasi keuangan oleh Pemerintah Provinsi Jawa Barat melalui Surat No. 539/1495/Invest&BUMD tanggal 27 Maret 2015 perihal Penunjukan bank **bjb** sebagai Entitas Utama. Sebagai implementasi dari Peraturan OJK No. 17/POJK.03/2014 tentang Penerapan Manajemen Risiko Terintegrasi Bagi Konglomerasi Keuangan, bank **bjb** melaksanakan penerapan Manajemen Risiko Terintegrasi mencakup paling sedikit:

1. Pengawasan Direksi dan Dewan Komisaris Entitas Utama;

system. The Board of Commissioners provided direction from system development to implementation and evaluation of its implementation.

Risk Management

An effective risk management system became one of the important components in the management of the Company and the foundation for running the Company's organization in a healthy, safe and good manner. The risk management system directed activities to the Company's mission and goals that had been set, namely to achieve long-term profit targets that continued to increase and were sustainable, as well as increase the optimal allocation of capital supporting healthy operational activities. This system assisted management in monitoring the applicable laws and regulations, policies, plans, provisions and internal procedures. In addition, the risk management system could also reduce systemic risk that might harm the bank both materially and immaterially. In realizing the implementation of effective risk management, bank **bjb** applied the Three Lines of Defense approach as a defense mechanism in layers to manage and implement a risk management framework, namely:

1. First Level Defense

The Risk Taking Unit acted as the first line of defense and was responsible for identifying, evaluating, controlling and mitigating risks in operational activities. The Risk Taking Unit had primary responsibility for managing risk exposure in daily activities.

2. Second Level Defense

The Risk Management Unit (SKMR) acted as a key unit in providing the second level of defense through an independent monitoring function. SKMR reviewed the completeness and accuracy of the identification, measurement, monitoring, control and risk reporting, as well as the adequacy of the mitigation scenarios proposed by the operational work units.

3. Third Level Defense

The Internal Audit function assessed the adequacy of policies, strategies and Risk Management frameworks as well as the effectiveness of internal controls in order to provide independent and objective assurance.

bank **bjb** was appointed as the Main Entity of the financial conglomerate by the West Java Provincial Government through Letter No. 539/1495/Invest&BUMD dated March 27, 2015 regarding the appointment of bank **bjb** as the Main Entity. As the implementation of FSA Regulation No. 17/POJK.03/2014 concerning Implementation of Integrated Risk Management for Financial Conglomerates, bank **bjb** implemented Integrated Risk Management including at least:

1. Supervision of the Main Entity's Directors and Board of Commissioners;

2. Kecukupan kebijakan, prosedur, dan penetapan limit Manajemen Risiko Terintegrasi;
3. Kecukupan proses identifikasi, pengukuran, pemantauan, pengendalian risiko secara terintegrasi, dan sistem informasi Manajemen Risiko Terintegrasi; dan
4. Sistem pengendalian intern yang menyeluruh terhadap penerapan Manajemen Risiko Terintegrasi.

Perseroan juga membentuk Komite Manajemen Risiko Terintegrasi yang beranggotakan Direktur/Pejabat Eksekutif yang membawahkan fungsi manajemen risiko dari Perseroan serta perusahaan anak yang memiliki peran sebagai pemberi masukan serta rekomendasi terhadap pelaksanaan manajemen risiko di dalam Konglomerasi Keuangan dengan berdasarkan Surat Keputusan Direksi bank **bjb** nomor 0823/SK/DIR-MRI/2021 tanggal 28 Desember 2021 tentang Pedoman Komite Manajemen Risiko Terintegrasi. Beberapa agenda yang telah dibahas dalam Komite Manajemen Risiko Terintegrasi adalah:

1. Pembahasan Terkait Laporan Profil Risiko Terintegrasi.
2. Pembahasan Terkait Penerapan dan Infrastruktur Manajemen Risiko di BPR.
3. Penerapan Budaya Risiko di dalam Konglomerasi keuangan.
5. Pembahasan Terkait *Awareness* Kepatuhan dan APPU PPT.

Dewan Komisaris berpendapat bahwa penerapan manajemen risiko telah diterapkan secara baik pada operasional Perseroan. Berdasarkan hasil *self assessment* terhadap peringkat risiko bank **bjb** secara keseluruhan setiap triwulan pada tahun 2021 adalah *Low to Moderate* dengan *trend* risiko stabil apabila dibandingkan dengan tahun sebelumnya. Hal ini menunjukkan bahwa bank **bjb** mengalami perkembangan bisnis bank yang diiringi dengan peningkatan Kualitas Penerapan Manajemen Risiko dalam seluruh aktivitas operasionalnya.

Direksi dan Dewan Komisaris melalui Komite Pemantau Risiko menilai bahwa kecukupan manajemen risiko telah berjalan memadai yang tercermin hasil review atas kelengkapan dan keakuratan identifikasi, pengukuran, pemantauan, pengendalian dan pelaporan risiko, serta atas kecukupan skenario mitigasi yang diusulkan oleh unit kerja operasional telah memadai.

Sistem Pengendalian Internal

Sistem Pengendalian Internal (SPI) merupakan suatu mekanisme proses pengawasan yang ditetapkan oleh manajemen Perseroan secara berkesinambungan yang kualitas desain dan pelaksanaannya dipengaruhi oleh Dewan Komisaris, Direksi serta seluruh pejabat dan pegawai Perseroan. SPI dirancang untuk dapat memberikan yang memadai guna menjaga dan mengamankan harta kekayaan Perseroan, menjamin tersedianya laporan yang akurat, meningkatkan kepatuhan terhadap ketentuan yang berlaku, mengurangi dampak kerugian keuangan, penyimpangan termasuk kecurangan (*fraud*) dan pelanggaran aspek kehati-hatian, serta meningkatkan efektivitas organisasi dan meningkatkan efisiensi biaya.

2. Adequacy of Integrated Risk Management policies, procedures and limits;
3. The adequacy of the process of identification, measurement, monitoring, integrated risk control, and Integrated Risk Management information system; and
4. A comprehensive internal control system for the implementation of Integrated Risk Management.

The Company also established an Integrated Risk Management Committee consisting of Directors/Executive Officers in charge of the risk management function of the Company and its subsidiaries who had a role as a provider of input and recommendations on the implementation of risk management within the Financial Conglomerate based on the Decree of the Directors of bank **bjb** number 0823/SK /DIR-MRI/2021 dated December 28, 2021 regarding Guidelines for the Integrated Risk Management Committee. Several agendas were discussed in the Integrated Risk Management Committee including:

1. Discussion related to the Integrated Risk Profile Report.
2. Discussion on the Implementation and Infrastructure of Risk Management in BPR.
3. Implementation of Risk Culture in the Financial Conglomerate.
4. Discussion on Compliance Awareness and APPU PPT.

The Board of Commissioners was of the opinion that the implementation of risk management had been well implemented in the Company's operations. Based on the results of the self-assessment of bank **bjb**'s overall risk rating every quarter in 2021, the result obtained Low to Moderate with a stable risk trend when compared to the previous year. This showed that bank **bjb** experienced good bank business development accompanied by an increase in the Quality of Risk Management Implementation in all of its operational activities.

The Directors and the Board of Commissioners through the Risk Monitoring Committee assess that the adequacy of risk management has been running adequately as reflected in the results of the review on the completeness and accuracy of the identification, measurement, monitoring, control and reporting of risks, as well as on the adequacy of the mitigation scenarios proposed by the operational work units as adequate.

Internal Control System

The Internal Control System (SPI) became a supervisory process mechanism established by the Company's management on an ongoing basis of which design and implementation quality was influenced by the Board of Commissioners, Directors and all officers and employees of the Company. Internal Control System was designed to be able to provide adequate safeguards and secure the Company's assets, ensure the availability of accurate reports, improve compliance with applicable regulations, reduce the impact of financial losses, determine irregularities including fraud and violations of prudential aspects, as well as improve organizational effectiveness. and improve cost efficiency.

Sistem Pengendalian Intern bank **bjb** mengacu pada SEOJK 35/SEOJK.03/2017 tentang Pedoman Sistem Pengendalian Intern Bagi Bank Umum. Pengendalian intern diselenggarakan secara berkesinambungan (on going basis) untuk mencapai 3 (tiga) sasaran, yaitu:

1. Mencapai efektivitas dan efisiensi pada setiap aktivitas yang dijalankan oleh Perseroan, mencakup kinerja operasional dan keuangan, serta menjaga dan mengamankan harta kekayaan Perseroan.
2. Menciptakan laporan finansial dan non-finansial bagi pihak internal dan eksternal yang terpercaya, tepat waktu, dan transparan, serta sesuai dengan regulasi dan standar yang berlaku.
3. Menjaga kepatuhan terhadap hukum dan regulasi dalam seluruh aspek aktivitas Perseroan.

Sistem Pengendalian Internal (SPI) yang efektif merupakan komponen penting dalam manajemen bank **bjb** dan menjadi dasar bagi kegiatan operasional Perseroan yang sehat dan aman. SPI yang efektif dapat membantu Direksi dan Dewan Komisaris menjaga aset bank, menjamin tersedianya pelaporan keuangan dan manajerial yang dapat dipercaya, meningkatkan kepatuhan bank terhadap ketentuan dan peraturan perundang-undangan, serta mengurangi Risiko terjadinya kerugian, penyimpangan, dan pelanggaran aspek kehati-hatian.

Direksi dan Dewan Komisaris mempunyai tanggung jawab terkait pengawasan Sistem Pengendalian Intern dan Budaya Pengendalian, adapun tugas tanggung jawabnya adalah sebagai berikut:

1. Direksi mempunyai tanggung jawab sebagai berikut:
 - a. Melaksanakan kebijakan dan strategi yang telah disetujui oleh Dewan Komisaris.
 - b. Memberikan masukan terkait prosedur untuk mengidentifikasi, mengukur, memantau dan mengendalikan risiko yang dihadapi Bank.
 - c. Memelihara suatu struktur organisasi yang mencerminkan kewenangan, tanggung jawab dan hubungan pelaporan yang jelas.
 - d. Memantau pendelegasian wewenang telah berjalan secara efektif dan didukung oleh penerapan akuntabilitas yang konsisten.
 - e. Menetapkan kebijakan dan strategi serta prosedur pengendalian intern.
 - f. Memantau implementasi pengendalian intern yang dilaksanakan oleh unit sistem pengendalian intern.
2. Dewan Komisaris mempunyai tanggung jawab:
 - a. Mengesahkan dan mengkaji ulang secara berkala terhadap kebijakan dan strategi usaha bank secara keseluruhan.
 - b. Memahami risiko utama yang dihadapi Perseroan, menetapkan tingkat risiko yang dapat ditolerir (*risk tolerance*) dan mengawasi Direksi terkait langkah-langkah yang diambil Direksi dalam mengidentifikasi, mengukur, memantau dan mengendalikan risiko tersebut.
 - c. Mengesahkan struktur organisasi.
 - d. Mengawasi Direksi terkait tugas Direksi melakukan pemantauan efektivitas pelaksanaan Sistem Pengendalian Intern.

bank **bjb**'s Internal Control System referred to SEOJK 35/SEOJK.03/2017 concerning Guidelines for Internal Control Systems for Commercial Banks. Internal control was carried out on an ongoing basis to achieve 3 (three) goals, namely:

1. Achieving effectiveness and efficiency in every activity carried out by the Company, including operational and financial performance, as well as safeguarding and securing the Company's assets.
2. Creating financial and non-financial reports for internal and external parties that were reliable, timely, and transparent, and in accordance with applicable regulations and standards.
3. Maintaining compliance with laws and regulations in all aspects of the Company's activities.

An effective Internal Control System (SPI) became an important component in bank **bjb** management and forms the basis for the Company's healthy and safe operational activities. An effective Internal Control System could help the Directors and the Board of Commissioners maintain bank assets, ensure the availability of reliable financial and managerial reporting, improve bank compliance with laws and regulations, and reduce the risk of losses, irregularities, and violations of prudential aspects.

The Directors and the Board of Commissioners had responsibilities related to the supervision of the Internal Control System and Control Culture, while their responsibilities were as follows:

1. The Directors had the following responsibilities in:
 - a. Implementing policies and strategies approved by the Board of Commissioners.
 - b. Providing input related to procedures to identify, measure, monitor and control risks faced by the Bank.
 - c. Maintaining an organizational structure reflecting clear authority, responsibility and reporting relationships.
 - d. Monitoring the delegation of authority had been running effectively and was supported by the consistent implementation of accountability.
 - e. Establishing policies and strategies as well as internal control procedures.
 - f. Monitoring the implementation of internal control carried out by the internal control system unit.
2. The Board of Commissioners had responsibilities in:
 - a. Approving and periodically reviewing the policies and business strategies of the bank as a whole.
 - b. Understanding the main risks faced by the Company, determining the level of risk that could be tolerated (*risk tolerance*) and supervising the Directors regarding the steps taken by the Directors in identifying, measuring, monitoring and controlling these risks.
 - c. Validating the organizational structure.
 - d. Supervising the Directors regarding the duties of the Directors to monitor the effectiveness of the implementation of the Internal Control System.

Kelemahan dalam pengendalian intern, baik yang diidentifikasi oleh satuan kerja operasional (*risk taking unit*), SKAI maupun pihak lainnya, segera dilaporkan dan menjadi perhatian pejabat atau Direksi yang berwenang. Kelemahan pengendalian intern yang material juga dilaporkan kepada Dewan Komisaris. Langkah-langkah perbaikan yang dilakukan Perseroan dalam rangka memperbaiki kelemahan pengendalian intern, antara lain:

1. Setiap laporan mengenai kelemahan dalam pengendalian intern atau tidak efektifnya pengendalian risiko Perseroan segera ditindaklanjuti oleh Dewan Komisaris, Direksi dan pejabat eksekutif terkait;
2. SKAI melakukan *review* atau langkah pemantauan lainnya yang memadai terhadap kelemahan yang terjadi dan segera melaporkan kepada Direktur Utama, Dewan Komisaris dan Komite Audit, dalam hal masih terdapat kelemahan yang belum diperbaiki atau tindakan korektif yang belum ditindaklanjuti;
3. Untuk menentukan bahwa seluruh kelemahan segera ditindaklanjuti maka harus ada kesadaran dari unit terkait untuk segera mengambil langkah perbaikan. Direksi dan Dewan Komisaris harus menerima laporan secara berkala berupa ikhtisar mengenai hasil identifikasi seluruh permasalahan dalam pengendalian intern.

Dewan Komisaris berpendapat bahwa perseroan telah memiliki sistem pengendalian internal yang memadai. Berdasarkan evaluasi yang telah dilakukan selama tahun 2021, menunjukkan bahwa sistem pengendalian internal pada bank **bjb** telah memadai.

SKAI, Direksi, Dewan Komisaris serta Komite Audit telah melakukan pemantauan terhadap efektivitas keseluruhan pelaksanaan pengendalian intern. SKAI, Direksi, Dewan Komisaris serta Komite Audit memantau dan mengevaluasi kecukupan sistem pengendalian intern berkaitan dengan adanya perubahan kondisi internal dan eksternal serta harus meningkatkan kapasitas sistem pengendalian internal tersebut agar efektivitasnya dapat ditingkatkan. SKAI, Direksi, Dewan Komisaris serta Komite Audit menilai bahwa bahwa sistem pengendalian internal telah memadai.

Whistleblowing System

Whistleblowing System berperan penting dalam meningkatkan pelaksanaan tata kelola perusahaan yang baik serta merupakan bagian dari pemeliharaan budaya dan kepedulian atas *anti fraud* di jajaran organisasi bank **bjb**. Dalam rangka meningkatkan efektivitas penerapan *Good Corporate Governance* melalui peran aktif para pelapor (*whistleblower*) maka Perseroan telah membentuk Sistem Pengaduan Pelanggaran berupa **bjbWBS** (*Whistleblowing System*).

Penerapan *Whistleblowing System* di bank **bjb** bertujuan untuk:

1. Membangun sistem penanganan pelaporan pelanggaran yang tanggap, transparan, aman dan bertanggung jawab.

Weaknesses in internal control, identified by the operational work unit (*risk taking unit*), Internal Audit Work Unit or other parties, were immediately reported and brought to the attention of the authorized official or Directors. Material internal control weaknesses were also reported to the Board of Commissioners. The corrective steps taken by the Company in order to improve the weaknesses of internal control were including:

1. Any reports regarding weaknesses in internal control or ineffectiveness of the Company's risk control were immediately followed up by the Board of Commissioners, Directors and related executive officers;
2. Internal Audit Work Unit conducted a review or other adequate monitoring measures for weaknesses that occur and immediately reported to the President Director, Board of Commissioners and the Audit Committee, in the event that there were still weaknesses that could not be corrected or corrective actions that were not followed up;
3. To determine that all weaknesses were immediately followed up, there had to be awareness from the relevant units to immediately take corrective steps. The Directors and the Board of Commissioners had to receive periodic reports in the form of an overview of the results of the identification of all problems in internal control.

The Board of Commissioners was of the opinion that the company had an adequate internal control system. Based on the evaluation carried out during 2021, it showed that the internal control system at bank **bjb** was adequate.

SKAI, the Directors, the Board of Commissioners and the Audit Committee have monitored the overall effectiveness of the implementation of internal control. SKAI, the Directors, the Board of Commissioners and the Audit Committee monitor and evaluate the adequacy of the internal control system in relation to changes in internal and external conditions and must increase the capacity of the internal control system so that its effectiveness can be improved. SKAI, the Directors, the Board of Commissioners and the Audit Committee consider that the internal control system is adequate.

Whistleblowing System

The Whistleblowing System played an important role in improving the implementation of good corporate governance and became a part of maintaining the culture and awareness of anti-fraud within the ranks of the bank **bjb** organization. In order to increase the effectiveness of the implementation of Good Corporate Governance through the active role of the whistleblowers, the Company established a Whistleblowing System in the form of **bjbWBS** (*Whistleblowing System*).

The implementation of the Whistleblowing System at bank **bjb** aimed to:

1. Develop a responsive, transparent, safe and responsible reporting system for handling violations.

2. Menyediakan fasilitas dan panduan yang jelas dan konsisten bagi pelapor untuk menyampaikan dugaan adanya pelanggaran terhadap kebijakan dan ketentuan bank serta peraturan perundang-undangan.

Efektivitas penerapan *Whistleblowing System* bank **bjb** dikelola oleh Satuan Kerja Audit Internal yang bertanggung jawab secara langsung kepada Direktur Utama serta memiliki hubungan komunikasi kepada Dewan Komisaris. Untuk meningkatkan pemahaman mengenai *Whistleblowing System* kepada seluruh tingkatan pegawai, bank **bjb** secara konsisten melakukan presentasi kepada masing-masing unit kerja serta menampilkan materi dalam *screen display* pada *workstation* setiap pegawai.

Pada tahun 2021 terdapat 52 (lima puluh dua) pengaduan melalui *Whistleblowing System*. Dari pengaduan tersebut, 39 (tiga puluh Sembilan) laporan ditutup, 1 (satu) laporan masih dalam proses, 12 (dua belas) laporan selesai dan 11 (sebelas) laporan diteruskan kepada penyidik.

Dewan Komisaris senantiasa melakukan evaluasi atas efektivitas *whistleblowing system* melalui Komite Audit yang secara berkala mereview program kerja dan pelaksanaan tugas Satuan Kerja Audit Internal. Dewan Komisaris berpendapat bahwa penerapan *Whistleblowing System* telah diterapkan secara baik pada operasional Perseroan. Selama tahun 2021, bank **bjb** telah berupaya melakukan langkah-langkah sebagai bentuk tindak lanjut penyelesaian tindakan fraud, antara lain pemberian sanksi kepegawaian dengan kriteria sanksi pembinaan, teguran, peringatan I, peringatan II, peringatan III, pernyataan tidak puas dan pemberhentian sebagai pegawai. Selain itu, Perseroan melakukan upaya hukum dengan melaporkan pelaku *fraud* ke Aparat Penegak Hukum (APH) sebagai bagian dari implementasi program "*Zero Tolerance For Fraud*".

Penilaian Kinerja Komite-Komite di Bawah Dewan Komisaris

Dalam rangka meningkatkan peran Dewan Komisaris dalam menjalankan fungsi pengawasan, Dewan Komisaris telah membentuk 4 (empat) komite yaitu:

1. Komite Audit
2. Komite Nominasi dan Remunerasi
3. Komite Pemantau Risiko
4. Komite Tata Kelola Terintegrasi

Prosedur penilaian kinerja Komite di bawah Dewan Komisaris dilakukan oleh Dewan Komisaris secara periodik yang dilakukan 1 (satu) kali dalam satu tahun setiap akhir tahun buku. Adapun kriteria penilaian kinerja Komite di bawah Dewan Komisaris berdasarkan rapat dan pelaksanaan tugas komite selama tahun buku.

2. Provide clear and consistent facilities and guidelines for whistleblowers to submit allegations of violations of bank policies and regulations as well as laws and regulations.

The effectiveness of the implementation of the bank **bjb** Whistleblowing System was managed by the Internal Audit Unit which was responsible directly to the President Director and had a communication relationship with the Board of Commissioners. To improve understanding of the Whistleblowing System to all levels of employees, bank **bjb** consistently made presentations to each work unit and displayed material on screen displays on each employee's workstation.

In 2021 there were 52 (fifty two) complaints through the Whistleblowing System. Among these complaints, 39 (thirty-nine) reports were closed, 1 (one) report was still in process, 12 (twelve) reports were completed and 11 (eleven) reports were forwarded to investigators.

The Board of Commissioners continuously evaluated the effectiveness of the whistleblowing system through the Audit Committee which periodically reviewed the work program and implementation of the duties of the Internal Audit Unit. The Board of Commissioners was of the opinion that the implementation of the Whistleblowing System had been implemented properly in the Company's operations. During 2021, bank **bjb** attempted to take steps as a form of follow-up to the settlement of fraud, including the provision of employment sanctions with the criteria of coaching sanctions, warnings, warning I, warning II, warning III, dissatisfied statement and dismissal of the employees. In addition, the Company took legal action by reporting the perpetrators of fraud to the Law Enforcement Officials (APH) as part of the implementation of the "*Zero Tolerance For Fraud*" program.

Performance Assessment of Committees under the Board of Commissioners

In order to enhance the role of the Board of Commissioners in carrying out its supervisory function, the Board of Commissioners formed 4 (four) committees, namely:

1. Audit Committee
2. Nomination and Remuneration Committee
3. Risk Monitoring Committee
4. Integrated Governance Committee

The procedure for evaluating the performance of the Committees under the Board of Commissioners was carried out by the Board of Commissioners periodically, which was carried out 1 (one) time in a year at the end of each financial year. The criteria for evaluating the performance of the Committees under the Board of Commissioners were based on the committee's meetings and duties during the financial year.

Brand Perseroan

Company Brand

Identitas brand bank **bjb** dapat dijelaskan sebagai berikut:
bank **bjb** brand identity can be explained as follows:

Logo Perseroan memiliki makna Jangkauan Pelayanan, dalam perspektif sekunder berarti sayap yang terbang untuk kemajuan. Bentuk sayap pada logo bank **bjb** melambangkan lengan yang menjangkau jauh untuk memberikan pelayanan yang terbaik kepada nasabah, shareholder dan seluruh masyarakat. Sedangkan penggunaan huruf pada *logotype* merupakan pengembangan bentuk dari huruf Alte Haas Grothesk.

Pemilihan nama bank **bjb** hadir sebagai akronim dari Bank Jabar Banten menggambarkan sifat kesederhanaan dan sifat modern masyarakat di mana bank **bjb** akan berbakti. Nama ini menggambarkan transformasi bank **bjb** untuk menjadi lebih efektif dan profesional dalam melayani seluruh lapisan masyarakat dari Sabang sampai Merauke.

bank **bjb** logo has the meaning of Service Outreach, in a secondary perspective it means wings that fly to progress. The wing shape on the bank **bjb** logo symbolizes the far reaching arm to provide the best service to customers, shareholders and the entire community. While the use of letters on the logotype is the development of the shape of the letters Alte Haas Grothesk.

The selection of the name bank **bjb** was present as an acronym for Bank Jabar Banten describing the simplicity and modern nature of the society in which the bank **bjb** will serve. This name describes the transformation of the bank **bjb** to be more effective and professional in serving all levels of society from Sabang to Merauke.

Riwayat Singkat Perusahaan

Company Brief History

PT Bank Pembangunan Daerah Jawa Barat dan Banten Tbk (selanjutnya disebut “bank **bjb**” atau Perseroan) didirikan berdasarkan Peraturan Pemerintah No 33 Tahun 1960 tentang penentuan perusahaan milik Belanda di Indonesia yang dikenakan nasionalisasi. Salah satu perusahaan milik Belanda yang berkedudukan di Bandung yaitu N.V Denis (*De Eerste Nederlandsche Indische Shareholding*) terkena ketentuan tersebut dan diarahkan kepada Pemerintah Daerah Provinsi Daerah Tingkat I Jawa Barat. Bank telah mulai beroperasi secara komersial pada tanggal 20 Mei 1961.

PT Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk. (from now on referred to as “bank **bjb**” or the Company) was established based on Government Regulation No. 33 of 1960 concerning the determination of Dutch-owned companies in Indonesia subject to nationalization. One of the Dutch-owned companies based in Bandung, namely N.V Denis (*De Eerste Nederlandsche Indische Shareholding*), is affected by this provision and directed to the Regional Government of the Provincial Level Region of West Java. The bank began its commercial operation on May 20, 1961.

Sebagai tindak lanjut dari peraturan Pemerintah No. 33 tahun 1960, Pemerintah daerah Tingkat Provinsi I Jawa Barat mendirikan Bank Karja Pembangunan dengan Akta Notaris Noezar No. 152 tanggal 21 Maret 1961 dan No. 184 tanggal 13 Mei 1961 yang kemudian dikukuhkan dengan surat Keputusan Gubernur Provinsi Jawa Barat No. 7/GKDN/BPD/61 tanggal 20 Mei 1961 dengan nama PT Bank Karja Pembangunan Daerah Djawa Barat. Berdasarkan Peraturan Daerah Provinsi DJawa Barat No. 11/PD/DPRD/72 tanggal 27 Juni 1972, kedudukan hukum PT Bank Karja Pembangunan Daerah Djawa Barat diubah menjadi PD Bank Karja Pembangunan Daerah Djawa Barat. Nama PD Bank Karja Pembangunan Daerah Jawa Barat selanjutnya diubah menjadi Bank Pembangunan Daerah Jawa Barat (BPD Jabar) sesuai Perda Provinsi Jawa Barat Nomor 1/DP-040/PD/1978 Tanggal 27 Juni 1978. Pada tahun 1992 sesuai dengan Surat Keputusan Bank Indonesia No. 25/84/KEP/DIR tanggal 2 November 1992 status BPD Jabar meningkat menjadi bank umum devisa. Berdasarkan Peraturan Daerah No. 11 Tahun 1995, BPD Jabar memiliki sebutan Bank Jabar dengan logo baru.

As a follow up to Government Regulation No. 33 of 1960, the Regional Government of the Provincial Level I of West Java established the Development Work Bank with Noezar Notarial Deed No. 152 March 21, 1961 and No. 184 dated May 13, 1961 which was then confirmed by the Decree of the Governor of West Java Province No. 7 / GKDN / BPD / 61 dated May 20, 1961 under the name of PT Bank Karya Pembangunan Daerah Djawa Barat. Based on the Regional Regulation of West Java Province No. 11/ PD/DPRD/72 dated June 27, 1972, the legal position of PT Bank Karya Pembangunan Daerah in West Java was changed to PD Bank Karja Pembangunan Jawa Barat. The name PD Karja Pembangunan Jawa Barat is subsequently changed to West Java BPD according to West Java Provincial Regulation Number 1/ DP-040/PD/1978 dated June 27, 1978. In 1992 according to Bank Indonesia Decree No.25 / 84 / KEP / On November 2, 1992 the status of the West Java BPD increased to a foreign exchange commercial bank. Based on Regional Regulation No. 11 of 1995, West Java BPD has the name Bank Jabar with a new logo.

Berdasarkan Peraturan Daerah Provinsi Daerah Tingkat I Jawa Barat No.22 Tahun 1998 tanggal 14 Desember 1998 tentang Perubahan Bentuk Hukum Bank Pembangunan Daerah Jawa Barat dari Perusahaan Daerah (PD) menjadi Perseroan Terbatas (PT). Perda tersebut dituangkan lebih lanjut pada Akta Pendirian Nomor 4 Tanggal 8 April 1999 juncto Akta Perbaikan Nomor 8 Tanggal 15 April 1999. Keduanya dibuat di hadapan Popy Kuntari Sutresna, S.H., Notaris di Bandung yang telah memperoleh pengesahan Menteri Kehakiman RI berdasarkan Surat Keputusan No. C2-7103.HT.01.01.TH.99 tanggal 16 April 1999, didaftarkan dalam Daftar Perusahaan di Kantor Pendaftaran Perusahaan Kab/ Kodya Bandung di bawah No. 871/BH.10.11/IV/99 tanggal 24 April 1999, serta telah diumumkan dalam Berita Negara Republik Indonesia No.39 tanggal 14 Mei 1999, Tambahan No. 2811, bentuk hukum Bank Jabar diubah dari Perusahaan Daerah (PD) menjadi Perseroan Terbatas (PT).

Based on the Regional Regulation of the Provincial Level I West Java No.22 of 1998 dated December 14, 1998 concerning the Changing the Legal Form of the West Java Regional Development Bank from a Regional Company (PD) to a Limited Liability Company (PT). The Regional Regulation was further outlined in Deed of Establishment Number 4 dated on April 8, 1999 juncto Deed of Amendment Number 8 dated April 15, 1999. Both of them were made before Popy Kuntari Sutresna, SH, a Notary in Bandung who had been approved by the Minister of Justice of the Republic of Indonesia based on Decree No.C2 -7103.HT.01.01. TH.99 dated April 16, 1999, was registered in the Company Register at the Bandung District / Kodya Company Registration Office under No.871 / BH.10.11 / IV / 99 dated April 24, 1999, and was announced in the News Negara Republik Indonesia No.39 dated May 14, 1999, Supplement No.871/ BH.10.11/IV/99, the legal form of Bank Jabar was changed from a Regional Company (PD) to a Limited Liability Company (PT).

Untuk memenuhi meningkatnya kebutuhan masyarakat akan jasa layanan perbankan yang berlandaskan syariah, sesuai dengan izin Bank Indonesia No. 2/18/DpG/DPIP Tanggal 12 April 2000 maka sejak tanggal 15 April 2000 Bank Jabar menjadi BPD pertama di Indonesia yang menjalankan dual banking system, yaitu memberikan layanan perbankan dengan sistem konvensional dan sistem syariah.

Berdasarkan Rapat Umum Pemegang Saham (RUPS) tanggal 16 April 2001 menyetujui peningkatan modal dasar Bank Jabar menjadi Rp1 triliun. Selanjutnya, berdasarkan hasil keputusan Rapat Umum Pemegang Saham (RUPS) yang diselenggarakan pada tanggal 14 April 2004 berdasarkan Akta No. 10 Tanggal 14 April 2004, modal dasar Bank Jabar dinaikkan dari Rp1 triliun menjadi Rp2 triliun. Melihat perkembangan prospek usaha yang terus membaik, hasil RUPS tanggal 5 April 2006 menetapkan kenaikan modal dasar Bank Jabar dari Rp2 triliun menjadi Rp4 triliun.

Pada bulan November 2007, sebagai tindak lanjut SK Gubernur BI No. 9/63/kep.gbi/2007 tentang Perubahan Izin Usaha Atas Nama PT Bank Pembangunan Daerah Jawa Barat Menjadi Izin Usaha Atas Nama PT Bank Pembangunan

To meet the increasing needs of the community for sharia-based banking services, in accordance with BI license Number 2/18/DpG/DPIP on April 12, 2000, since April 15, 2000 Bank Jabar became the first BPD in Indonesia to run a dual banking system, namely providing banking services with conventional and sharia systems.

Outlet Innovation

bjb Prioritas

Berbagai layanan diluncurkan untuk para nasabah istimewa. Salah satunya, program **bjb** Prioritas yang ditujukan bagi para nasabah prima perorangan (*high net worth individuals*). **bjb** Prioritas melayani secara personal di ruangan khusus dengan prinsip kemudahan, keramahan, dan kenyamanan.

Benefit yang dinikmati oleh nasabah **bjb** Prioritas sangat banyak dan beragam antara lain, layanan konsultasi keuangan dan pengelolaan aset, layanan konsultasi kesehatan dan pendidikan di luar negeri, fasilitas *airport lounge*, bingkisan spesial di setiap perayaan hari raya keagamaan dan berbagai keunggulan lainnya.

bjb Prioritas

Various services were launched for unique customers. One of them is the **bjb** Prioritas program aimed at high-net-worth individuals. **bjb** Prioritas serves personally in a particular room with the principles of convenience, friendliness, and comfort.

The benefits enjoyed by **bjb** Prioritas customers are many and varied, including financial consulting services and asset management, health and education consulting services abroad, airport lounge facilities, unique gifts at every religious holiday celebration and various other benefits.

Inovasi Layanan E-Channel

Di era industri 4.0 ini, bank **bjb** meluncurkan inovasi baru yakni *Quick Response* (QR) Code (*transfer on us*) dan *E-Tax* bank **bjb** untuk menyetorkan Pajak Bumi dan Bangunan Perdesaan dan Perkotaan (PBB-P2). Inovasi tersebut merupakan fitur terbaru yang berada di fasilitas layanan DIGI by bank **bjb**. QR Payment (*transfer on us*) adalah sistem pembayaran yang menggunakan sebuah *barcode* atau *Quick Response* (QR) Code yang akan dipindai setiap akan melakukan transaksi pembayaran/transfer.

Selain pembaruan fasilitas pada layanan DIGI by bank **bjb**, pembaruan fasilitas juga ditambahkan dalam situs web resmi bank **bjb**. Fitur *Chatbot* dalam situs web resmi bank **bjb** ini merupakan layanan perbankan berbasis aplikasi chatting yang dapat diakses langsung oleh pengguna secara *mobile* untuk mengetahui informasi mengenai bank **bjb** serta layanan dan promosi yang ditawarkan bank **bjb**, sehingga mempermudah nasabah bank **bjb** untuk mengetahui berbagai informasi selain menggunakan **bjb** Call Center.

Inovasi juga dilakukan dalam layanan *E-Tax* bank **bjb** untuk menyetorkan Pajak Bumi dan Bangunan Perdesaan dan Perkotaan (PBB-P2). Kerjasama bank **bjb** terkait Layanan Penerimaan Pajak Daerah dengan Provinsi DKI Jakarta dan 34 Kota dan Kabupaten wilayah Jawa Barat dan Banten serta 2 Kota di luar wilayah Jabar dan Banten (Kota Batam dan Kota Pekanbaru) khususnya layanan PBB-P2 membuat Wajib Pajak di wilayah tersebut dapat melakukan pembayaran PBB-P2 secara *online* melalui aplikasi DIGI by bank **bjb**.

Layanan E-Channel Inovation

In this industrial era 4.0, bank **bjb** launched a new innovation, namely **bjb** DigiCash, which became server-based electronic money based on Quick Response Indonesia Standards (QRIS). This innovation was the latest feature in the DIGI by bank **bjb** service facility. QR Payment became a payment system that used a barcode or Quick Response (QR) Code which would be scanned every time a payment/transfer transaction was made.

In addition to facility updates on the DIGI by bank **bjb** service, bank **bjb** facility updates had also been added, namely the TAMMI Chatbot/Virtual Assistance feature (Tandamata Understanding) **bjb** was a chat application-based banking service that could be accessed directly by mobile users to find out information about bank **bjb** and services and promotions offered by bank **bjb**, making it easier for bank **bjb** customers to find out various information besides using the **bjb** Call Center.

Innovations were also carried out in the bank **bjb** E-Tax service to deposit Rural and Urban Land and Building Tax (PBB-P2). Bank **bjb** cooperation related to Regional Tax Revenue Services with DKI Jakarta Provinces and Cities and Regencies in West Java and Banten regions as well as 3 cities outside the West Java and Banten areas, namely Batam City, Palembang City and Pekanbaru City) especially PBB-P2 services made taxpayers in the region could make PBB-P2 online payment through the DIGI by bank **bjb** application.

Tinjauan Perekonomian

Economic Review

Analisis Perekonomian Global

Ekonomi global tumbuh sesuai prakiraan meski masih dibayangi risiko yang bersumber dari kenaikan kasus COVID-19 varian Omicron, percepatan normalisasi kebijakan moneter di beberapa bank sentral, dan meningkatnya tensi geopolitik. Pemulihan ekonomi global diperkirakan berlanjut didukung oleh percepatan vaksinasi serta berlanjutnya kebijakan fiskal yang ekspansif. Realisasi pertumbuhan ekonomi tahun 2021 di Amerika Serikat (AS), Kawasan Eropa, dan Tiongkok menunjukkan perbaikan yang berlanjut. Perbaikan ekonomi di Jepang dan India juga diperkirakan terus berlangsung ditopang kebijakan moneter dan fiskal yang tetap akomodatif. Pemulihan ekonomi yang berlanjut dikonfirmasi oleh kinerja sejumlah indikator pada Januari 2022 antara lain *Purchasing Managers Index* (PMI), keyakinan konsumen, dan penjualan ritel yang tetap kuat, di tengah kenaikan penyebaran kasus COVID-19 varian Omicron.

Global Economic Analysis

The global economy grew in line with its forecasts, although it was still overshadowed by risks as the result of the increase in cases of the Omicron variant of the COVID-19, accelerated normalization of monetary policy at several central banks, and rising geopolitical tensions. The global economic recovery was predicted to continue, supported by accelerated vaccinations and continued expansionary fiscal policy. The realization of economic growth in 2021 in the United States (US), the European Region, and China showed continuous improvement. Economic recovery in Japan and India was also predicted to continue, supported by accommodative monetary and fiscal policies. The continued economic recovery was confirmed by the performance of a number of indicators in January 2022, including the *Purchasing Managers Index* (PMI), consumer confidence, and retail sales which remained strong, amid the increase in the spread of COVID-19 cases of the Omicron variant.

Dengan perkembangan tersebut, pertumbuhan ekonomi global 2022 diperkirakan sesuai dengan proyeksi sebelumnya sebesar 4,4%. Volume perdagangan dan harga komoditas global diperkirakan masih meningkat, sehingga menopang prospek ekspor negara berkembang. Namun demikian, perekonomian global masih menghadapi ketidakpastian pasar keuangan yang meningkat sejalan dengan rencana percepatan kebijakan normalisasi negara maju, terutama AS dan Kawasan Eropa, sebagai respons peningkatan tekanan inflasi akibat gangguan rantai pasok dan kuatnya permintaan, kenaikan penyebaran COVID-19 varian Omicron, serta meningkatnya tensi geopolitik. Hal tersebut berpotensi mengakibatkan terbatasnya aliran modal dan tekanan nilai tukar negara berkembang, termasuk Indonesia.

Sumber: Laporan Kebijakan Moneter Triwulan IV 2021, Bank Indonesia, Januari 2022

With these developments, global economic growth in 2022 was predicted in line with the previous projection of 4.4%. Global trade volume and commodity prices were predicted to continue to increase, thus supporting the export outlook for developing countries. However, the global economy still faced increasing financial market uncertainty in line with plans to accelerate the normalization policy of developed countries, especially the US and the European Region, in response to increasing inflationary pressures due to supply chain disruptions and strong demand, the increase in the spread of the Omicron variant of COVID-19, as well as rising geopolitical tension. These had the potential to result in limited capital flows and pressure on the exchange rate of developing countries, including Indonesia.

Analisis Perekonomian Nasional

Kinerja ekonomi Indonesia pada Triwulan IV 2021 mampu tumbuh sebesar 5,02% (YoY), menunjukkan menguatnya pemulihan ekonomi. Secara *quarter-to-quarter* (QtQ), pertumbuhan ekonomi Triwulan IV 2021 tercatat 1,06%, melampaui pola normalnya yang secara historis mencatatkan pertumbuhan negatif (QtQ Triwulan IV 2015 – 2019 rata-rata - 1,7%).

Laju pertumbuhan ekonomi Triwulan IV ditopang oleh pertumbuhan positif seluruh komponen pengeluaran dan sektor produksi utama. Aktivitas ekspor mampu melanjutkan pertumbuhan yang tinggi seiring permintaan dan harga komoditas global yang meningkat. Sementara impor juga meningkat. Mencerminkan menguatnya pemulihan permintaan domestik, khususnya sektor produksi. Dari sisi lapangan usaha, sektor-sektor unggulan nasional seperti manufaktur, perdagangan, konstruksi, dan transportasi melanjutkan tren pemulihan dengan mencatat pertumbuhan kuat.

National Economic Analysis

Indonesia's economic performance in Quarter IV 2021 was able to grow by 5.02% (YoY), indicating a strengthening economic recovery. On a quarter-to-quarter (QtQ) basis, the economic growth in Quarter IV 2021 was recorded at 1.06%, exceeding the normal pattern which historically recorded negative growth (QtQ IV Quarter 2015 – 2019 average - 1.7%).

The pace of economic growth in Quarter IV was supported by positive growth in all components of expenditure and the main production sectors. Export activity was able to continue high growth in line with increasing global commodity demand and prices. Meanwhile imports also increased, and it reflected the strengthening recovery in domestic demand, particularly in the production sector. In terms of business sector, national leading sectors such as manufacturing, trade, construction, and transportation continued the recovery trend with strong growth.

Sektor Perdagangan tumbuh kuat pada Triwulan IV sebesar 5,56% (YoY) atau 4,65% secara keseluruhan tahun 2021. Peningkatan ini didorong oleh membaiknya mobilitas masyarakat sejalan dengan kondisi pandemi COVID-19 yang relatif mereda. Kebijakan pemberian PPhBM DTP untuk pembelian mobil juga mendorong kinerja perdagangan kendaraan bermotor secara signifikan. Tingkat penjualan mobil ritel mampu tumbuh 53,9% (YoY) pada Triwulan IV atau 49,3% (YoY) di sepanjang tahun 2021.

Secara keseluruhan tahun 2021, ekonomi Indonesia tumbuh sebesar 3,69%. Dari sisi laju pemulihan, PDB Indonesia tahun 2021 berhasil melampaui level periode prapandemi. Dengan pertumbuhan ekonomi ini juga, tingkat PDB per kapita Indonesia berhasil naik dari 57,3 di tahun 2020 ke 62,2 juta rupiah di tahun 2021 (naik 8,6%), atau 4.349,5 dolar AS. Dengan pencapaian ini dan klasifikasi Bank Dunia terakhir (2020), Indonesia diperkirakan kembali masuk ke kelompok *upper-middle income countries* pada tahun 2021.

Aktivitas investasi tumbuh positif 3,80% setelah tumbuh negatif 4,96% di 2020. Konsumsi Pemerintah juga mampu tumbuh 5,25% (YoY) di Triwulan IV atau 4,17% secara keseluruhan 2021 sejalan dengan peningkatan realisasi belanja negara, khususnya terkait akselerasi program vaksinasi, keberlanjutan program perlindungan sosial, serta pelaksanaan layanan publik Pemerintah.

Ekspor kembali mencatatkan pertumbuhan tinggi pada Triwulan IV sebesar 29,83% (YoY). Laju pemulihan ekonomi global menjadi faktor utama yang menjaga kinerja ekspor Indonesia, terutama bersumber dari ekspor nonmigas seperti olahan CPO, kendaraan Bermotor, dan mesin. Selain itu, ekspor hasil hilirisasi mineral logam tumbuh signifikan di sepanjang tahun 2021 (ekspor besi baja tahun 2021 termasuk hasil olahan nikel tumbuh 92,9% YoY). Di sisi lain, kinerja Impor juga tumbuh tinggi mencapai 29,60% (YoY), didominasi oleh importasi barang modal dan bahan baku, mencerminkan peningkatan aktivitas produksi domestik pada periode selanjutnya. Secara keseluruhan tahun 2021, kinerja ekspor dan impor barang dan jasa tumbuh tinggi masing-masing sebesar 24,04% dan 23,31%.

Nilai tukar Rupiah pada akhir tahun 2021 masih terjaga didukung oleh ketahanan sektor eksternal Indonesia, di tengah ketidakpastian pasar keuangan global yang berlanjut. Perkembangan nilai tukar Rupiah tersebut disebabkan oleh aliran masuk modal asing yang masih terbatas di tengah terjaganya pasokan valas domestik dan persepsi positif terhadap prospek perekonomian domestik. Depresiasi Rupiah tersebut relatif lebih rendah dibandingkan depresiasi mata uang sejumlah negara berkembang lainnya, seperti Filipina (0,98% YtD) dan Rusia (2,89% YtD).

Inflasi 2021 tetap rendah dan mendukung stabilitas perekonomian. Inflasi Indeks Harga Konsumen (IHK) 2021 tercatat sebesar 1,87% (YoY) dan berada di bawah kisaran sasaran 3,0%±1%, meski meningkat dibandingkan dengan inflasi IHK 2020 sebesar 1,68%

The Trade Sector grew strongly in Quarter IV by 5.56% (YoY) or 4.65% overall in 2021. This increase was driven by improved community mobility in line with the relatively easing condition of the COVID-19 pandemic. The policy of providing PPhBM DTP for car purchases also significantly boosted the performance of motor vehicle trade. Retail car sales were able to grow 53.9% (YoY) in Q4 or 49.3% (YoY) throughout 2021.

Overall in 2021, the Indonesian economy grew by 3.69%. In terms of the pace of recovery, Indonesia's GDP in 2021 managed to surpass the level of the pre-pandemic period. With this economic growth, Indonesia's GDP per capita level managed to increase from 57.3 in 2020 to 62.2 million rupiah in 2021 (up 8.6%), or 4,349.5 US dollars. With this achievement and the latest World Bank classification (2020), Indonesia was expected to re-enter the upper-middle income countries group in 2021.

Investment activity grew positively 3.80% after negative 4.96% growth in 2020. Government consumption was also able to grow 5.25% (YoY) in Quarter IV or 4.17% overall in 2021 in line with the increase in state spending realization, particularly related to acceleration of vaccination programs, sustainability of social protection programs, and implementation of government public services.

Exports again recorded high growth in Q4 of 29.83% (YoY). The pace of global economic recovery became the main factor that maintained Indonesia's export performance, mainly from non-oil and gas exports such as processed CPO, motor vehicles, and machinery. In addition, exports of metal mineral downstream products grew significantly throughout 2021 (exports of iron and steel in 2021 including processed nickel products grew 92.9% YoY). On the other hand, imports also grew at a high rate of 29.60% (YoY), dominated by imports of capital goods and raw materials, reflecting increased domestic production activity in the following period. Overall in 2021, the performance of exports and imports of goods and services grew by 24.04% and 23.31%, respectively.

The Rupiah exchange rate at the end of 2021 was still maintained, supported by the resilience of Indonesia's external sector, amidst the ongoing global financial market uncertainty. The development of the Rupiah exchange rate was due to the limited inflow of foreign capital amidst the maintained supply of domestic foreign currency and positive perceptions of the outlook for the domestic economy. The Rupiah depreciation was relatively lower than the depreciation of the currencies of a number of other developing countries, such as the Philippines (0.98% YtD) and Russia (2.89% YtD).

Inflation in 2021 remained low and supported economic stability. The 2021 Consumer Price Index (CPI) inflation was recorded at 1.87% (YoY) and was below the target range of 3.0%±1% although it increased compared to the 2020 CPI inflation of

(YoY). Perkembangan tersebut dipengaruhi oleh permintaan domestik yang belum kuat sebagai dampak pandemi COVID-19, nilai tukar yang stabil dan ekspektasi inflasi yang terjaga, ketersediaan pasokan dan kelancaran distribusi bahan pangan.

Ke depan, kinerja perekonomian domestik akan semakin kuat dan diproyeksi tumbuh sebesar 5,2% di tahun 2022. Kinerja tersebut akan ditopang oleh penguatan investasi dan ekspor serta kelanjutan pemulihan konsumsi masyarakat yang didukung oleh upaya pengendalian pandemi yang menyeluruh, termasuk dengan akselerasi vaksinasi secara masif. Namun demikian, terdapat sejumlah risiko yang harus terus diwaspadai dan diantisipasi, khususnya penyebaran varian Omicron. Sejak akhir 2021, berbagai negara mengalami gelombang baru COVID-19 akibat varian tersebut. Pengalaman berbagai negara menunjukkan bahwa gelombang Omicron lebih cepat menyebar dibandingkan varian Delta, namun juga lebih cepat mengalami penurunan.

Analisis Industri Perbankan

Suku bunga kebijakan moneter yang tetap rendah dan likuiditas yang longgar mendorong suku bunga kredit perbankan dalam tren terus menurun. Di pasar uang dan pasar dana, suku bunga Pasar Uang Antar Bank (PUAB) *overnight* dan suku bunga deposito 1 bulan perbankan telah menurun, masing-masing sebesar 26 bps dan 131 bps sejak Desember 2020 menjadi 2,78% dan 2,96% pada Desember 2021. Di pasar kredit, penurunan Suku Bunga Dasar Kredit (SBDK) perbankan terus berlanjut, diikuti penurunan suku bunga kredit baru pada seluruh kelompok Bank. Aktivitas ekonomi dan mobilitas masyarakat yang meningkat mendorong perbaikan persepsi risiko perbankan, sehingga berdampak positif bagi penurunan suku bunga kredit baru. Namun demikian, penurunan suku bunga kredit yang jauh lebih lambat daripada penurunan suku bunga deposito perbankan menyebabkan spread antara suku bunga kredit dan deposito, serta *Net Interest Margin* (NIM) perbankan, terus mengalami peningkatan.

Rasio kecukupan modal (*Capital Adequacy Ratio*/CAR) perbankan November 2021 tetap tinggi sebesar 25,59%, dan rasio kredit bermasalah (*Non Performing Loan*/NPL) tetap terjaga, yakni 3,19% (bruto) dan 0,98% (neto). Intermediasi perbankan terus membaik dengan pertumbuhan kredit sebesar 5,24% (YoY) pada Desember 2021. Pertumbuhan kredit lebih merata pada semua jenis penggunaan, baik kredit modal kerja, kredit konsumsi maupun kredit investasi, yang masing-masing tumbuh 6,32% (YoY), 4,67% (YoY), dan 4,01% (YoY). Permintaan kredit dari sisi korporasi terindikasi semakin meningkat, sementara dari sisi penawaran perbankan menurunkan standar penyaluran kredit terutama pada sektor-sektor prioritas seiring dengan menurunnya persepsi risiko kredit. Pertumbuhan kredit UMKM juga meningkat signifikan didorong oleh meningkatnya permintaan sejalan dengan pemulihan aktivitas dunia usaha.

Sumber: Laporan Kebijakan Moneter Triwulan IV 2021, Bank Indonesia, Januari 2022

1.68% (YoY). These developments were influenced by weak domestic demand as a result of the COVID-19 pandemic, stable exchange rates and maintained inflation expectations, availability of supplies and smooth distribution of food ingredients.

In the future, domestic economic performance could be stronger and was projected to grow by 5.2% in 2022. This performance will be supported by strengthening investment and exports as well as continued recovery in public consumption supported by comprehensive pandemic control efforts, including massive acceleration of vaccination. However, there are a number of risks that must be monitored and anticipated, in particular the spread of the Omicron variant. Since the end of 2021, various countries have experienced a new wave of COVID-19 due to this variant. The experience of various countries showed that the Omicron wave spread faster than the Delta variant, but the rate also decreased faster.

Analysis of Banking Industry

Monetary policy interest rates that remained low and loose liquidity pushed bank credit interest rates on a downward trend. In the money market and funds market, the overnight PUAB (Interbank Money Market) interest rate and 1 month bank deposit interest rate have declined by 26 bps and 131 bps respectively since December 2020 to 2.78% and 2.96% in December 2021. On the credit market, the decline in SBDK (Basic Credit Interest Rate) for banks continued, followed by a decrease in interest rates for new loans for all bank groups. Increased economic activity and mobility of the people have led to improved perceptions of banking risk, which will have a positive impact on lowering interest rates for new loans. However, the decline in credit interest rate, which was much slower than the decline in bank deposit rates, caused the spread between credit and deposit interest rates, as well as banking Net Interest Margin (NIM), to continue to increase.

The banking Capital Adequacy Ratio (CAR) in November 2021 remained high at 25.59%, and the ratio of Non Performing Loans (NPL) was maintained at 3.19% (gross) and 0.98% (net). Banking intermediation continued to improve with 5.24% (YoY) credit growth in December 2021. Credit growth was more evenly distributed across all types of use, both working capital loans, consumption loans and investment loans, each of which grew 6.32% (YoY), 4.67% (YoY), and 4.01% (YoY). The demand for loans from the corporate side is indicated to be increasing, while banks are lowering lending standards from the supply side, especially in priority sectors in line with the declining perception of credit risk. MSME loan growth also increased significantly, driven by increased demand in line with the recovery in business activity.

Tinjauan Operasi Per Segmen Usaha

Segmen adalah bagian yang dapat dibedakan dari kelompok usaha yang terlibat baik dalam menyediakan produk tertentu (segmen usaha), maupun dalam menyediakan produk dalam lingkungan ekonomi tertentu (segmen geografis), yang memiliki risiko dan imbalan yang berbeda dengan segmen lainnya.

Pendapatan, beban, hasil, aset dan liabilitas segmen mencakup item-item yang dapat diatribusikan langsung kepada suatu segmen serta hal-hal yang dapat dialokasikan dengan dasar yang sesuai kepada segmen tersebut. Item-item segmen ditentukan sebelum saldo dan transaksi antar Kelompok Usaha, dieliminasi sebagai bagian dari proses konsolidasi. Bank dan entitas anak menyajikan segmen usaha berdasarkan laporan internal konsolidasian yang disajikan kepada pengambil keputusan operasional yaitu Direksi.

Dalam menjalankan kegiatan usahanya, bank **bjb** memiliki 2 (dua) segmen usaha yaitu segmen konvensional dan segmen syariah. Segmen konvensional meliputi produk pinjaman, produk dana pihak ketiga, dan jasa layanan. Sedangkan, segmen syariah dilaksanakan melalui kegiatan usaha entitas anak.

Segmen Konvensional

Segmen konvensional bank **bjb**, terdiri atas produk kredit/pinjaman, produk dana pihak ketiga dan jasa layanan.

Penjelasan dan Produktivitas Segmen Konvensional

Kredit/Pinjaman

Pada tahun 2021, *outstanding* kredit konsumen tumbuh sebesar 3,37% (YoY) dengan volume sebesar Rp61,92 triliun. Segmen Kredit Konsumen diproyeksikan masih menjadi kunci pertumbuhan kredit bank **bjb**. Hal ini seiring dengan proyeksi pertumbuhan ekonomi yang membaik. Bisnis kredit konsumen menjadi andalan bank **bjb** untuk meraih laba, bank **bjb** meyakini segmen tersebut masih cukup prospektif.

Operation Review Per Business Segment

A segment is a distinguishable part of a business group that is involved both in providing certain products (business segments), as well as in providing products in certain economic environments (geographical segments), which have risks and rewards that are different from other segments.

Segment revenue, expenses, results, assets and liabilities include items that are directly attributable to a segment as well as those that can be allocated on an appropriate basis to the segment. Segment items are determined before balances and transactions between Business Groups are eliminated as part of the consolidation process. Banks and subsidiaries present business segments based on consolidated internal reports that are presented to operational decision makers, namely the Directors.

In carrying out its business activities, bank **bjb** has 2 (two) business segments, namely the conventional segment and the sharia segment. The conventional segment includes loan products, third party fund products, and services. Meanwhile, the sharia segment is implemented through the business activities of subsidiaries.

Conventional Segment

Dalam lima tahun terakhir, kinerja kredit konsumen menunjukkan pertumbuhan yang positif. Pada tahun 2021, *outstanding* kredit konsumen mencapai Rp45,30 triliun, tumbuh 4,22% dibandingkan dengan tahun 2020 yang mencapai Rp43,47 triliun. Pertumbuhan tersebut karena pertumbuhan *outstanding bjb* Kredit Guna Bhakti (KGB). Secara rata-rata, pertumbuhan *outstanding* kredit mencapai 6,42% per tahun sedangkan pertumbuhan jumlah debitur mencapai 3,21% per tahun.

In the last five years, consumer loans performance had shown positive growth. In 2021, outstanding consumer loans reached IDR45.30 trillion, growing 4.22% compared to 2020 which reached IDR43.47 trillion. This growth was due to the outstanding growth of the Guna Bhakti (KGB) *bjb*. On average, the growth of outstanding loans reached 6.42% per year while the growth in the number of debtors reached 3.21% per year.

 - Program **bjb** Musisi (Makin Untung Provisi dan Asuransi)
 - Program Suku Bunga Khusus **bjb** KGB dan **bjb** KPPB
- c. *Top Up Program* – **bjb** Mengulang Setia
- d. *Customer Reward*
 - Program Ramadhan
 - Program Penghargaan Nasabah Setia
- e. *Internal Appreciation*
 - **bjb** RACER
 - **bjb** CORE

2. Produk Diversification Strategy

Eksplorasi dan pengembangan produk dan atau pasar yang baru, dalam rangka mengejar pertumbuhan, peningkatan penjualan, profitabilitas, dan fleksibilitas melalui **bjb** GenCash.

3. People Development Strategy

Meningkatkan kualitas sumber daya manusia dalam melakukan pemasaran kredit konsumer bank **bjb**.

- a. *Marketing Club*
- b. *Consumer Carrier Challenge*
- c. *Coaching Clinic*
- d. *Knowledge Development*

4. Internal Process Strategy

Meningkatkan proses bisnis perusahaan agar dapat memberikan jasa layanan perbankan yang maksimal kepada debitur.

- a. Optimalisasi **bjb** COIN
- b. Optimalisasi *Loan management System* (LMS)
- c. Optimalisasi *Consumer Loan Payment System* (CLPS) dan *Consumer Pay* (Cospay)

Faktor Pendukung dan Penghambat Bisnis Kredit Konsumer

1. Faktor Pendukung

- a. Jumlah populasi ASN (Aparatur Sipil Negara) yang akan memasuki masa pensiun mengalami kenaikan setiap tahunnya dan ini menjadi peluang bagi bank **bjb** untuk meningkatkan portofolio kredit, khususnya *market share* produk **bjb** Kredit Pra Purna Bhakti (**bjb** KPPB).
- b. Beberapa tahun terakhir, Pemerintah membuka penerimaan Calon Pegawai Negeri Sipil (CPNS) serta Pegawai Pemerintah dengan Perjanjian Kerja (PPPK). Hal ini tentunya menjadi pendukung meningkatnya portofolio Kredit Konsumer, khususnya **bjb** KGB.

2021 Consumer Credit Plans and Strategies

In facing year 2021, the Consumer and Retail Loan Division has prepared a Business Strategy to improve and maintain the Consumer loan portfolio. The intended business strategies are as follows:

1. Marketing Strategy

Developing sustainable competitive advantage over the entered market, and marketing programs used to serve the consumer credit target market.

- b. *Consumer Carrier Challenge*
- c. *Coaching Clinic*
- d. *Knowledge Development*

4. Internal Process Strategy

Improve the company's business processes in order to provide maximum banking services to debtors.

- a. **bjb** COIN Optimization
- b. *Loan management System* (LMS) Optimization
- c. *Consumer Loan Payment System* (CLPS) and *Consumer Pay* (Cospay) Optimization

Supporting and Inhibiting Factors in Consumer Credit Business

1. Supporting Factors

- a. The total population of State Civil Servants (ASN) who were about to enter retirement increased every year and this was an opportunity for bank **bjb** to increase its loan portfolio, especially the market share of the product **bjb** Kredit Purna Bhakti (**bjb** KPPB).
- b. In recent years, the Government opened the acceptance of Candidates for Civil Servants (CPNS), both for Central and Regional Civil Servants. This certainly supported the increase in the consumer and retail loan portfolio, especially **bjb** KGB

- c. Kebijakan dari regulator berupa Gerakan Nasional Non Tunai (GNNT), khususnya di wilayah Jawa Barat, terimplementasikan dengan dibayarkannya gaji ASN secara langsung ke masing-masing rekening gaji pegawai. Hal ini memudahkan bank **bjb** sebagai bank penyalur gaji mayoritas ASN di Jawa Barat untuk melakukan pemotongan gaji guna pembayaran angsuran kredit.
- d. Penyerapan jumlah ASN yang sudah menjadi debitur adalah sebesar 62%. Hal ini menunjukkan bahwa masih terdapat potensi peningkatan portofolio Kredit Konsumer melalui optimalisasi penyerapan ASN, khususnya di Jawa Barat dan Banten.

2. Faktor Penghambat

Munculnya *Coronavirus Disease 2019* (COVID-19) pada akhir Tahun 2019 yang telah dinyatakan sebagai *global pandemic* oleh *World Health Organization* (WHO), hingga berakhirnya tahun 2022 penyebarannya masih cukup fluktuatif. Hal ini cukup berdampak terhadap aktivitas pemasaran kredit konsumer. Kebijakan *Work From Home* (WFH) yang diberlakukan pemerintah dan diimplementasikan pada dinas/instansi yang merupakan *captive market* menyebabkan kurang optimalnya penyaluran Kredit Konsumer.

RITEL

Penjelasan Kredit Ritel

Produk Kredit Ritel di tahun 2021 terdiri dari **bjb** Kredit Guna Bhakti (KGB) Pola 2 dan 3, **bjb** Kredit Pra Purna Bhakti (KPPB) Pola 2, **bjb** Kredit Purna Bhakti (KPB), **bjb** Kredit Usaha Bhakti (KUB), **bjb** Back to Back Loan (BTB), Penyaluran Fasilitas Kredit Multiguna dengan Pola *Channeling*, Penyaluran Fasilitas Kredit Multiguna melalui *Fronting Agent*, Pembiayaan Bersama (*Joint Financing*), Kartu Kredit, *Asset Buy*, *Asset Sell*.

Keunggulan Layanan Kredit Ritel

Keunggulan layanan Kredit Ritel adalah sebagai berikut:

1. Proses pencairan kredit 1 (satu) hari setelah dokumen lengkap (*one day service*).
2. Persyaratan pengajuan kredit mudah.
3. Pelayanan ramah terhadap semua debitur.
4. Saluran informasi *digital* yang cukup lengkap untuk mengetahui informasi pinjaman melalui aplikasi **bjb** DIGI.

Pengembangan Produk dan Layanan Kredit Ritel Tahun 2021

Beberapa fokus pada perkembangan bisnis dan kinerja kredit ritel pada tahun 2021 adalah:

1. Fokus terhadap *captive market* yang masih memiliki risiko yang terukur seperti ASN Vertikal, Pegawai BUMN dan Swasta dan Pensiunan.
2. Adanya program *empathy branding*, antara lain program seperti edukasi terhadap Pensiunan seperti *Talk Show* Pensiun Oke, Sehat Pasti dan Edukasi terkait Literasi Keuangan kepada para calon Debitur dan Debitur Eksisting.
3. *Bundling Package*, seperti *marketing* program khusus untuk *holding company*.
4. Inisiasi Perjanjian Kerjasama (PKS) secara nasional.

- c. The regulator's policy in the form of the National Non-Cash Movement (GNNT), especially in the West Java region, was implemented by paying ASN salaries directly to each employee's salary account. This made it easier for bank **bjb** as the bank that distributed the majority of ASN salaries in West Java to make salary deductions for payment of credit installments.
- d. Absorption of the number of Civil Government who had become debtors is 62%. This showed that there was still potential for an increase in the Consumer Loans portfolio through optimizing the absorption of Civil Government, particularly in West Java and Banten.

2. Inhibiting Factors

The emergence of *Coronavirus Disease 2019* (COVID-19) at the end of 2019 which has been declared a global pandemic by the World Health Organization (WHO), until the end of 2022 its spread is still quite volatile. This has quite an impact on consumer credit marketing activities. The Work From Home (WFH) policy imposed by the government and implemented in agencies/agencies that are captive markets has resulted in less than optimal distribution of consumer credit.

RETAIL

Retail Loans Explanation

Retail loan products in 2021 consisted of Patterns 2 and 3, **bjb** Pre Purna Bhakti Loans (KPPB) Pattern 2, **bjb** Purna Bhakti Loans (KPB), **bjb** Bhakti Business Loans (KUB), **bjb** Back to Back Loans (BTB), Multipurpose Loan Facility Distribution with Channeling Pattern, Multipurpose Loan Facility Distribution through Fronting Agent, Joint Financing, Credit Card, Asset Buy, Asset Sell.

Retail Loans Service Advantages

The advantages of Retail loan services were as follows:

1. Loans disbursement process 1 (one) day after complete documents (*one day service*).
2. Easy loan application requirements.
3. Friendly service to all debtors.
4. A complete digital information channel to find out loan information through the **bjb** DIGI application.

Development of Retail Loan Products and Services in 2021

Some of the focuses on business development and retail credit performance in 2021 were:

1. Focus on captive markets that still have measurable risks, such as Vertical ASN, BUMN and Private Employees and Retirees.
2. There was an empathy branding program, including programs such as education for Retirees such as the Okay, Healthy, Sure Retirement Talk Show and Education related to Financial Literacy for prospective debtors and existing debtors.
3. Bundling Packages, such as special marketing programs for holding companies.
4. Initiation of Cooperation Agreements (PKS) nationally.

In contrast to the achievement of total outstanding, the data on the achievement of total ABS NPL Retail Loans increased in the last 5 (five) years by IDR36.72 billion. The largest increase in NPL abs was in the **bjb** KGB Pattern 2 product of IDR18.73 billion and the **bjb** of KPB Taspen of IDR5.38 billion. One of the causes of the increase in the NPL abs number was the increase in submission of death claims that fell to the NPL due to the increase in mortality as a result of the COVID-19 pandemic in the middle of the year.

Dalam 5 (lima) tahun terakhir, perkembangan **bjb** KGB Pola 2 mengalami kenaikan hingga tahun 2019 dengan rata-rata *nett growth* sebesar Rp473,3 miliar. Namun pada tahun 2020 dan 2021, **bjb** KGB Pola 2 mengalami penurunan *growth*. Hal tersebut dikarenakan gaji para pegawai tetap yang belum disalurkan di bank **bjb**, khususnya ASN Daerah di luar wilayah Jawa Barat dan Banten telah disalurkan secara otomatis melalui Sistem Informasi Pembangunan Daerah (SIPD), gaji para ASN otomatis tersalurkan ke rekening gaji masing-masing ASN, sehingga Bendahara/Juru Bayar tidak dapat melakukan pemotongan angsuran secara kolektif. Adapun

In the last 5 (five) years, the development of **bjb** KGB Pattern 2 has increased until 2019 with an average net growth of IDR473.3 billion. However, in 2020 and 2021, **bjb** KGB Pattern 2 experienced a decline in growth. This was because the salaries of permanent employees that had not been distributed at bank **bjb**, especially Regional Civil Government outside the West Java and Banten regions had been channeled automatically through the Regional Development Information System (SIPD), the salaries of Civil Government were automatically channeled to the salary account of each Civil Government, so that the Treasurer/Payer could not make collective installment deductions. Sehingga selain **bjb** KGB Pola 2, **bjb** KPB Taspen menjadi produk unggulan pada segmen Kredit Ritel. Namun secara angka abs NPL, **bjb** KPB Taspen mengalami penurunan kualitas kredit mulai tahun 2018 ke tahun 2019, angka abs NPL **bjb** KPB Taspen mengalami kenaikan Rp7,18 miliar. Pada tahun 2020, terdapat perbaikan abs NPL **bjb** KPB Taspen sebesar Rp142,31 Juta. Namun kembali mengalami kenaikan pada tahun 2021 sebesar Rp7,57 miliar dari tahun sebelumnya.

Significantly KPB Taspen's **bjb** product experienced positive growth during 2017-2021 with a total growth of IDR4.42 trillion in the last 5 (five) years. Hence, apart from the **bjb** KGB Pattern 2, the **bjb** KPB Taspen was a superior product in the Retail Loan segment. However, in terms of abs NPL figures, Taspen's **bjb** KPB Taspen loan quality decreased from 2018 to 2019, the NPL abs number of KPB Taspen's **bjb** experienced an increase of IDR7.18 billion. In 2020, there was an improvement in the NPL **bjb** KPB Taspen abs of IDR142.31 million. However, it increased again in 2021 by IDR7.57 billion from the previous year.

Pengembangan Produk Layanan Korporasi dan Komersial

Dalam rangka menunjang bisnis Divisi Korporasi dan Komersial selama periode 2021 telah dilakukan pengembangan produk dan layanan terutama di segmen komersial diantaranya sebagai berikut:

1. Penyesuaian standar operasional prosedur segmen komersial, khususnya terkait alur proses kredit dengan limit kewenangan kantor wilayah, yaitu seluruh proses pemberian fasilitas kredit dari inisiasi hingga pencairan kredit dilakukan oleh organ kantor wilayah. Dengan pemberlakuan ketentuan tersebut, proses pemberian kredit dapat dilakukan dengan lebih efektif dan efisien yang tidak terjadi pengulangan proses di kantor cabang dan kantor wilayah sehingga SLA kepada calon debitur dapat lebih cepat.
2. Penyesuaian manual produk **bjb** *Supply Chain Financing* terkait penjelasan lebih detail mengenai ketentuan dan mekanisme dalam hal terjadi *Past Due*.
3. Penyesuaian manual produk **bjb** Kredit Modal Kerja Kepada Koperasi (penerus pinjaman) dengan meningkatkan mitigasi risiko dari sisi agunan untuk Koperasi Umum serta penguatan terkait monitoring kredit melalui *sampling* dan rekonsiliasi piutang.
4. Penyesuaian manual produk **bjb** Kredit *Cash Collateral* untuk mengakomodir potensi penyaluran kredit *cash collateral* secara *cross currency*.
5. Otomatisasi perhitungan denda keterlambatan pada *core banking system*.
6. Pengembangan aplikasi *distributor financing online* untuk mendukung proses transaksi *Distributor Financing*. Aplikasi tersebut dapat digunakan oleh pihak *principal*, bank, serta debitur serta dapat dikoneksikan (*host to host*) dengan sistem yang telah dimiliki oleh *principal*.
7. Pengembangan aplikasi garansi bank *online* untuk memudahkan nasabah dalam mengajukan permohonan penerbitan garansi bank serta mengakomodir kebutuhan penerima jaminan dalam melakukan pengecekan keabsahan garansi bank yang diterima.

Corporate and Commercial Product and Service Development

In order to support the Corporate and Commercial Division business during the 2021 period, product and service developments have been carried out, especially in the commercial segment, including the following:

1. Adjustment of standard operating procedures for the commercial segment, particularly related to the credit process flow with the regional office authority limit, namely the entire process of providing credit facilities from initiation to credit disbursement carried out by regional office organs. With the implementation of these provisions, the process of providing credit could be carried out more effectively and efficiently without repeating the process at branch offices and regional offices so that SLA to prospective debtors could be faster.
2. Manual adjustment of the **bjb** Supply Chain Financing product related to a more detailed explanation of the provisions and mechanisms in the event of a Past Due.
3. Manual adjustment of the **bjb** product for Working Capital Loans to Cooperatives (successor loans) by increasing risk mitigation in terms of collateral for General Cooperatives and strengthening related to loan monitoring through sampling and reconciliation of receivables.
4. Manual adjustment of the **bjb** Cash Collateral Loans product to accommodate the potential for cross currency cash collateral credit distribution.
5. Automate the calculation of late fees in the core banking system.
6. Development of online distributor financing applications to support the Distributor Financing transaction process. The application could be used by principals, banks, and debtors and can be connected (*host to host*) with the system already owned by the principal.
7. Development of an online bank guarantee application to make it easier for customers to apply for the issuance of bank guarantees and to accommodate the needs of guarantee recipients in checking the validity of bank guarantees received.

Penurunan persentase komposisi produk KMKK selama 5 (lima) tahun terakhir dengan diiringi peningkatan pada produk lain merupakan salah satu strategi Divisi Korporasi dan Komersial untuk melakukan diversifikasi produk dalam penyaluran fasilitas kredit. Adapun produk lainnya yang memiliki persentase cukup besar adalah sebagai berikut:

In line with bank **bjb**'s vision of supporting regional infrastructure, the **bjb** Contract Working Capital Loan (KMKK) product was still the flagship product of the Corporate and Commercial Division. This was reflected in the percentage of loan distribution by product, with KMKK still being the product with the highest percentage at 21.37%. The performance data of KMKK products for the last 5 (five) years are as follows:

The decrease in the percentage of KMKK product composition over the last 5 (five) years accompanied by an increase in other products was one of the Corporate and Commercial Division's strategies to diversify products in the distribution of loan facilities. The other products that had a fairly large percentage are as follows:

Faktor Pendukung dan Penghambat Bisnis Korporasi dan Komersial

Uraian faktor pendukung dan penghambat bisnis Korporasi dan Komersial adalah sebagai berikut:

1. Faktor Pendukung

Divisi Korporasi dan Komersial didukung oleh infrastruktur yang cukup dalam menerapkan budaya kredit yang lebih baik untuk pertumbuhan kredit yang sehat dan berkualitas, antara lain:

Supporting and Inhibiting Factors Corporate and Commercial Business

The description of the supporting and inhibiting factors of Corporate and Commercial business are as follows:

1. Supporting Factors

The Corporate and Commercial Divisions are supported by adequate infrastructure in implementing a better credit culture for healthy and quality credit growth, among others:

- a. Ketersediaan Sumber Daya Manusia (SDM)/Account Officer (AO) yang tersebar di Kantor Cabang, Kantor Wilayah dan Kantor Pusat. Jumlah SDM Divisi Korporasi dan Komersial sampai dengan 31 Desember 2020 sebanyak 296 orang, yang terdiri dari 231 orang Account Officer (AO) Komersial di Kantor Cabang, 23 orang Account Officer (AO) Komersial di Kantor Wilayah dan 34 orang Account Officer (AO) Korporasi di Kantor Pusat.
- b. Pelaksanaan *E-Learning* yang dilakukan secara mingguan untuk seluruh Account Officer dan Manager Komersial untuk meningkatkan pemahaman produk bisnis kelolaan Divisi Korporasi dan Komersial selama Tahun 2021 sebanyak 36 modul soal.
- c. Penyempurnaan aplikasi *Loan Management System* (LMS) Segmen Komersial untuk mendukung proses bisnis, khususnya dalam hal mendukung proses perpanjangan dan suplesi kredit. Selain itu, pada tahun 2021 terdapat penambahan 3 (tiga) produk baru yang dapat diproses melalui aplikasi LMS, sebagai berikut:
 - Cash Collateral
 - KMK Pengembang
 - Kredit kepada Lembaga Pembiayaan
- d. Ketersediaan pilihan produk pembiayaan yang beragam untuk dapat memenuhi kebutuhan nasabah dalam meningkatkan usahanya.

2. Faktor Penghambat

Selain faktor pendukung, terdapat juga faktor penghambat yang mempengaruhi kinerja di tahun 2021, diantaranya sebagai berikut:

- a. Pandemi COVID-19 yang masih terjadi selama tahun 2021 secara langsung maupun tidak langsung berdampak pada belum stabilnya kondisi ekonomi secara makro dan iklim usaha secara umum sehingga ekspansi bisnis beberapa sektor industri masih selektif yang berpengaruh pada potensi pembiayaan yang terbatas.
- b. Terdapatnya beberapa run off dengan nominal besar di luar jadwal pembayaran pada kredit segmen korporasi menyebabkan *net growth* tercatat kurang optimal.
- c. Pemberian relaksasi kepada Debitur terdampak COVID-19 melalui restrukturisasi kredit mengakibatkan pendapatan bunga yang seharusnya diterima bank mengalami penurunan dari kondisi normal.

Rencana dan Strategi Tahun 2022 Korporasi dan Komersial

Berdasarkan ASDT 2022 strategi Divisi Korporasi dan Komersial di tahun 2022 adalah sebagai berikut:

1. Menjaga budaya kredit yang mengutamakan pertumbuhan kredit berkualitas pada sektor – sektor industri potensial dengan selalu menerapkan prinsip kehati – hatian.
2. Optimalisasi *product holding* dari kredit korporasi dan komersial melalui transformasi *digital* yang dapat meningkatkan *fee based*.
3. Mendukung *sustainable finance* melalui peningkatan penyaluran kredit kepada *sustainable business company*.

- a. Availability of Human Resources (HR)/Account Officer (AO) spread across Branch Offices, Regional Offices and Head Office. The number of Human Resources for the Corporate and Commercial Divisions as of 31 December 2020 was 296 people, consisting of 231 Commercial Account Officers (AO) at Branch Offices, 23 Commercial Account Officers (AO) at Regional Offices and 34 Corporate Account Officers (AO) at the Head Office.
- b. E-Learning which was conducted on a weekly basis for all Account Officers and Commercial Managers to improve understanding of the business products managed by the Corporate and Commercial Divisions during 2021 as many as 36 question modules;
- c. Completion of the Commercial Segment Loan Management System (LMS) application to support business processes, particularly in terms of supporting the credit extension and supplementation process. In addition, in 2021 there was the addition of 3 (three) new products that could be processed through the LMS application, as follows:
 - Cash Collateral
 - KMK Developer
 - Loansto Financing Institutions
- d. Availability of a variety of financing product options to meet customer needs in increasing their business.

2. Inhibiting Factors

In addition to supporting factors, there were also inhibiting factors that affect performance in 2021, including the following:

- a. The COVID-19 pandemic that was still occurring during 2021 directly or indirectly had an impact on the unstable macroeconomic conditions and the general business climate so that the business expansion of several industrial sectors was still selective affecting the limited financing potential.
- b. The existence of several run-offs with large amounts outside the payment schedule for corporate segment loans caused net growth to be recorded as less than optimal.
- c. The granting of relaxation to debtors affected by COVID-19 through credit restructuring resulted in a decrease in interest income that should have been received by banks from normal conditions.

Corporate and Commercial Plans and Strategies for 2022

Based on ASDT 2022 the Corporate and Commercial Division strategy in 2022 was as follows:

1. Maintain a credit culture that prioritized quality credit growth in potential industrial sectors by always applying the precautionary principle.
2. Optimizing product holding from corporate and commercial loans through digital transformation that could increase fee based.
3. Supporting sustainable finance by increasing lending to sustainable business companies.

Berdasarkan Surat Keputusan Direksi Nomor 0833/SK/DIR-PST/2021 tanggal 31 Desember 2021 tentang Struktur Organisasi PT. Bank Pembangunan Daerah Jawa Barat dan Banten, Tbk, dilakukan pemisahan Divisi Korporasi dan Divisi Komersial untuk pengelolaan yang lebih terfokus pada masing-masing segmen, dengan strategi sebagai berikut:

1. Segmen Korporasi dengan strategi yakni:
 - a. Pemilihan sektor industri utama, yaitu Infrastruktur, Industri Pengolahan, Telekomunikasi, dan Kesehatan.
 - b. Optimalisasi penyaluran kredit kepada perusahaan BUMN/*Government Related* serta perusahaan swasta yang merupakan *major player/wellknown player* pada sektor industri utama.
 - c. Peningkatan keikutsertaan dalam kredit sindikasi terutama pada sektor industri yang relatif baru.
 - d. Penguatan sumber daya manusia melalui berbagai program pendidikan dan pelatihan dalam rangka meningkatkan kompetensi *hard skill* maupun *soft skill* dalam proses bisnis korporasi.
2. Segmen Komersial dengan strategi yakni:
 - a. Pertumbuhan secara selektif melalui mekanisme *threshold*.
 - b. Perbaikan kualitas kredit dengan penurunan absolute NPL dengan bersinergi dengan Divisi Penyelamatan dan Penyelesaian Kredit.
 - c. Perbaikan bisnis proses melalui penggunaan aplikasi LMS dan digitalisasi proses *screening* awal.
 - d. Pengembangan bisnis model baru melalui inisiasi sinergi dengan lembaga *fintech*.
 - e. Penguatan sumber daya manusia melalui peningkatan kompetensi dalam melakukan analisa kredit.

c. PESAT *Go Digital*

Pilar PESAT *Go Digital* yaitu suatu upaya dari bank **bjb** yang bertujuan untuk mengajak masyarakat pelaku UMKM dan Debitur agar dapat mulai memanfaatkan perkembangan teknologi digital dalam menjalankan usaha. Selama tahun 2021 terdapat 111 debitur yang sudah dibuatkan website pribadi untuk memasarkan produknya.

Keunggulan Layanan Kredit UMKM

1. PESAT

Program Pemberdayaan Ekonomi Masyarakat Terpadu (PESAT) adalah program pemberdayaan pelaku usaha baik untuk masyarakat maupun debitur kredit UMKM. Program ini telah berjalan semenjak tahun 2015 di bawah Divisi Kredit UMKM. Program ini bertujuan untuk meningkatkan kompetensi pelaku usaha dan peluang pengembangan kapasitas usaha. Pada tahun 2021 terdapat beberapa perkembangan program PESAT yaitu:

a. **Perkembangan Jumlah Sentra**

Pada tahun 2021 secara resmi sentra UMKM Tasikmalaya dilakukan reaktivasi untuk dapat mendukung pelaksanaan program pemberdayaan yang semula untuk wilayah priangan timur ditangani oleh Sentra UMKM Cirebon. Sentra UMKM Priangan Timur membawahi 6 (enam) Kantor Cabang yaitu Pangandaran, Banjar, Ciamis, Tasikmalaya, Singaparna dan Garut. Dengan demikian total jumlah sentra menjadi yaitu: Sentra Bandung, Sentra Pakuan, Sentra Banten, Sentra Cirebon Dan Sentra Priangan Timur.

b. **Pemanfaatan Pilar Program PESAT WIRUSAHA BARU**

Pesat terus terlibat dalam perkuatan Wirusaha Baru, melalui materi edukasi perbankan, PESAT terus memberikan pelatihan kepada beragam kelompok sasaran pelaku UMKM dan calon pelaku UMKM seperti, UMKM binaan *offtaker*, UMKM binaan Dinas

While the Online Business Talk program via Zoom was carried out using the Zoom Meeting application with a duration of 2 to 3 hours with varied material. In the 2021 period, 7,416 became beneficiaries of this business talk activity, both through WhatsApp group media and zoom meetings. The following were the beneficiaries of the various centers:

Bandung Center	: Total 294 Benefit Recipient
Pakuan Center	: Total 3.628 Benefit Recipient
Cirebon Center	: Total 1.661 Benefit Recipient
Priangan Timur Center	: Total 464 Benefit Recipient
Banten Center	: Total 1.530 Benefit Recipient

c. PESAT *Go Digital*

The PESAT *Go Digital* pillar was an effort from bank **bjb** which aimed to invite the community of UMKM actors and debtors to start taking advantage of the development of digital technology in running their business. During 2021, there were 111 debtors whose personal websites had been created to market their products.

Advantages of UMKM Loan Services

1. PESAT

Program Pemberdayaan Ekonomi Masyarakat Terpadu (PESAT) was a business actor empowerment program for both the community and UMKM loan debtors. This program had been running since 2015 under the UMKM Credit Division. This program aimed to improve the competence of business actors and opportunities for developing business capacity. In 2021 there were several developments in the PESAT program, namely:

a. **Development of the Number of Centers**

In 2021 the Tasikmalaya UMKM center was officially reactivated to be able to support the implementation of the empowerment program which was originally for the eastern Priangan area handled by the Cirebon UMKM Center. The East Priangan UMKM Center oversaw 6 (six) branch offices, namely Pangandaran, Banjar, Ciamis, Tasikmalaya, Singaparna and Garut. Thus the total number of centers becomes: Bandung Center, Pakuan Center, Banten Center, Cirebon Center and East Priangan Center.

b. **Utilization of the NEW WIRUSAHA PESAT Program Pillars**

Pesat continued to be involved in strengthening New Entrepreneurs, through banking education materials, PESAT continued to provide training to various target groups of UMKM actors and prospective UMKM actors such as UMKM assisted by *offtakers*, UMKM assisted by Regional

Pemerintah Daerah, Lembaga atau Ormas Keagamaan, dan organisasi atau komunitas yang membawahi pelaku UMKM. Di samping itu PESAT juga dilibatkan dalam event yang diselenggarakan oleh Bank Indonesia dan Otoritas Jasa Keuangan, Kementerian Koordinator Perekonomian, Kementerian Pertanian. PESAT juga dilibatkan dalam program OPOP (*One Pesantren One Product*) dan UMKM Juara yang merupakan salah satu program unggulan dari Provinsi Jawa Barat.

c. Penambahan kegiatan pada Pilar Program PESAT Kapasitas Usaha

Semula pembelajaran dilakukan dengan daring dan media digital, seiring dengan perkembangan kebijakan telah dimulai beberapa kelas secara *offline*. Jangkauan penyelenggaraan kelas tidak hanya di Jawa Barat dan Banten, namun juga masuk ke DKI Jakarta, Jawa Timur, dan Jawa Tengah melalui Kerjasama Kantor Cabang bank **bjb** dengan pemerintah daerah setempat. Pesat juga mengirimkan bulletin *digital* kepada para debitur. Pada Pilar ini juga, dimulai kegiatan pemberian kesempatan kurasi ekspor untuk debitur UMKM yang memiliki potensi dan kapasitas produksi yang memadai. Kurasi ekspor ini bekerjasama dengan Indonesia *in your hand* sebagai Lembaga perantara ekspor dan pemilik *storage* atau gudang produk Indonesia di Australia dan Eropa.

d. Pilar Program PESAT GO DIGITAL

Satu dari tiga pilar program PESAT mengalami perubahan, yaitu Pilar Pesat Sehat Sejahtera menjadi Pilar *Go Digital*. Perubahan ini didasarkan bahwa program pada pilar sebelumnya dapat diakomodir dalam kegiatan Pilar PESAT Kapasitas Usaha, melalui media bulletin berupa artikel kesehatan populer. Untuk meningkatkan keberhasilan Pilar Program maka telah dilahirkan Aplikasi **bjb** DISENTRA (Digital Sistem Informasi dan Interaksi) dan Aplikasi CAKAP (Catatan Akuntansi Lengkap).

2. bjb LAKU

bjb LAKU merupakan aplikasi berbasis android yang dapat memberikan kemudahan untuk para calon debitur dalam mendapatkan akses pembiayaan perbankan dari seluruh Segmen Kredit UMKM bank **bjb**. Aplikasi ini diperuntukan bagi masyarakat khususnya para pelaku UMKM yang membutuhkan fasilitas pembiayaan kredit yang dapat digunakan untuk meningkatkan kapasitas usaha dengan cepat, murah dan terjangkau. Melalui aplikasi **bjb** Laku ini, diharapkan bank **bjb** khususnya segmen Kredit UMKM dapat menjangkau masyarakat dan para pelaku UMKM secara luas dan cepat.

3. DiSentra

Aplikasi DiSentra (*Digital Sistem Informasi dan Interaksi*) adalah salah satu inovasi Divisi Kredit UMKM diawali dengan rintisan pada bulan juli, di tahun 2020, pada tahun 2021 aplikasi DiSentra telah dilakukan *switching* dengan semula berbasis web menjadi berbasis android. Aplikasi DiSentra adalah sebuah Aplikasi yang dibuat oleh Divisi Kredit UMKM untuk menjadikan "ruang" aktivitas bagi pelaku UMKM baik debitur maupun non debitur. DiSentra adalah

Government Offices, Religious Institutions or Community Organizations, and organizations or communities that oversaw UMKM actors. In addition, PESAT was also involved in events organized by Bank Indonesia and the Financial Services Authority, Coordinating Ministry for the Economy, Ministry of Agriculture. PESAT was also involved in the OPOP (*One Pesantren One Product*) program and the UMKM Champion which was one of the flagship programs of West Java Province.

c. Adding activities to the PESAT Program Pillar Business Capacity

Initially, learning was carried out online and digital media, along with policy developments, several offline classes were started. The scope of class implementation was not only in West Java and Banten, but also in DKI Jakarta, East Java, and Central Java through bank **bjb** Branch Office Cooperation with the local government. Pesat also sent Digital bulletins to debtors. Also in this Pillar, activities were initiated to provide export curation opportunities for UMKM debtors who had sufficient potential and production capacity. This export curation collaborates with Indonesia *in your hand* as an export intermediary institution and owner of storage or warehouse for Indonesian products in Australia and Europe.

d. PESAT GO DIGITAL Program Pillars

One of the three pillars of the PESAT program changed, namely the Healthy and Prosperous Pesat Pillar to the Go Digital Pillar. This change was based on the fact that the programs in the previous pillar could be accommodated in the PESAT Business Capacity Pillar activities, through the bulletin media in the form of popular health articles. to increase the success of the Pillar Program, the **bjb** DISENTRA Application (Digital Information and Interaction System) and CAKAP Application (Complete Accounting Records) had been created.

2. bjb LAKU

bjb LAKU was an android-based application that can provide convenience for prospective debtors in getting access to banking financing from all of bank **bjb**'s UMKM Loan Segments. This application was intended for the community, especially UMKM actors who needed loan financing facilities that could be used to increase business capacity quickly, cheaply and affordable. Through the **bjb** Laku application, it was hoped that bank **bjb**, especially the UMKM Loan segment, could reach the community and UMKM actors widely and quickly.

3. DiSentra

The DiSentra application (*Digital Information and Interaction System*) was one of the innovations of the UMKM Loan Division starting with a pilot in July, in 2020, in 2021 the DiSentra application had been switched from being web-based to android-based. The DiSentra application was an application created by the UMKM Loan Division to make a "space" of activity for UMKM actors, both debtors and non-debtors. DiSentra stood for Digital Education and

singkatan dari Digital Sistem Edukasi dan Interaksi. Penamaan SENTRA diambil juga dari nama aktivitas Kantor Fungsional Non Operasional (KFNO) yang dimiliki oleh Divisi kredit UMKM untuk menjalankan program PESAT (Pemberdayaan Ekonomi Masyarakat Terpadu). Nama aplikasi DiSentra dipilih untuk memudahkan pelaku umkm/masyarakat umum bisa mencerna dan mengingat karena ter asosiasi dengan nama tempat untuk pusat segala informasi dan interaksi, hanya saja dalam platform *digital*. **bjb** disentra memiliki fitur-fitur yang sangat mendukung pemasyarakatan pengetahuan kewirausahaan dan percepatan pelaku UMKM untuk naik kelas, baik secara pengetahuan, jejaring maupun dukungan perluasan pemasaran.

4. Cash Pick Up

Selain memberikan fasilitas pembiayaan dengan tujuan modal kerja dan investasi untuk seluruh pelaku usaha UMKM sesuai kriteria yang ingin mengembangkan usahanya, produk dan layanan Divisi Kredit UMKM juga memiliki banyak kelebihan diantaranya adalah layanan jemput angsuran (*cash pick up*) sesuai kondisi dan permintaan debitur

Interaction System. The name SENTRA was also taken from the name of the Non-Operational Functional Office (KFNO) activity owned by the UMKM loan division to run the PESAT (Pemberdayaan Ekonomi Masyarakat Terpadu) program. The name DiSentra application was chosen to make it easier for UMKM actors/general public to digest and remember because it was associated with the name of the place for the center of all information and interactions, only on a digital platform. **bjb** disentra had features that strongly support the dissemination of entrepreneurial knowledge and accelerate UMKM actors to advance to class, in terms of knowledge, networking and support for marketing expansion.

4. Cash Pick Up

In addition to providing financing facilities with the aim of working capital and investment for all UMKM business actors according to the criteria who wanted to develop their business, the UMKM Loan Division's products and services also had many advantages including cash pick-up services according to the conditions and requests of debtors.

Selama tahun 2021 total *outstanding* Kredit UMKM mengalami kenaikan dibandingkan tahun sebelumnya sebesar 19,29% dari Rp2,60 triliun di tahun 2020 menjadi sebesar Rp3,10 triliun di tahun 2021 dengan *nett growth* sebesar Rp501,39 miliar. Hal ini dikarenakan sudah lebih baiknya kualitas portofolio kredit UMKM sehingga jumlah pencairan lebih tinggi daripada *runoff* yang dilakukan untuk perbaikan kualitas kredit kelolaan Divisi Kredit UMKM yang terjadi peningkatan kualitas kredit yang sangat baik terlihat pada komponen kualitas kredit yang sangat baik terlihat pada komponen kualitas *non performing loan* dan *repayment rate* semakin membaik.

Dalam kurun waktu 5 (lima) tahun terakhir secara prosentase pertumbuhan (YoY) tahun 2017 merupakan pertumbuhan tertinggi dibanding tahun-tahun sebelumnya yaitu sebesar 16,93%. Rincian terkait penyaluran produk kredit kelolaan Divisi Kredit UMKM dalam 5 (lima) tahun terakhir diuraikan sebagai berikut:

During 2021, the total outstanding UMKM loans increased compared to the previous year by 19.29% from IDR2.60 trillion in 2020 to IDR3.10 trillion in 2021 with a net growth of IDR501.39 billion. This was because the quality of the UMKM loan portfolio improved so that the number of disbursements was higher than the runoff made to improve the quality of loans managed by the UMKM Loan Division.

In the last 5 (five) years, the percentage growth (YoY) in 2017 was the highest growth compared to the previous years, which was 16.93%. Details related to the distribution of credit products managed by the UMKM Loan Division in the last 5 (five) years are described as follows:

Dari keseluruhan produk kredit UMKM bank **bjb**, Kredit Mikro Utama, Kredit Cinta Rakyat dan Kredit Program mengalami peningkatan jumlah *outstanding*. Hal tersebut dilakukan adanya perbaikan kualitas kredit UMKM, debitur dengan kategori kolektabilitas 3 (tiga) sampai 5 (lima) pada periode sebelum tahun 2017 yang didorong untuk dilakukan pelunasan atau penyelesaian kredit, sehingga terjadi peningkatan pada angka *outstanding* kredit UMKM. Sedangkan untuk produk yang mengalami peningkatan cukup baik adalah Kredit Usaha Rakyat dengan jumlah *outstanding* tahun 2020 sebesar Rp1.910,2 miliar dengan pertumbuhan sebesar 57,09% dibandingkan tahun sebelumnya dikarenakan telah dibukanya semua sektor ekonomi dan adanya subsidi dan stimulus dari Pemerintah. Dari segi kualitas kredit tahun 2020 Divisi Kredit UMKM berhasil memperbaiki kualitas kredit dengan NPL sebesar 3,20%.

Of all bank **bjb** UMKM credit products, Kredit Mikro Utama, Kredit Cinta Rakyat and Kredit Program experienced a decrease in the number of outstanding. This was carried out as an effort to improve the quality of UMKM credit, where debtors with the collectability category of 3 (three) to 5 (five) in the period before 2017 were encouraged to make repayments or credit settlements, so the consequence was that there was a correction in the outstanding number of UMKM loans. Meanwhile, the product that experienced a fairly good increase was Kredit Usaha Rakyat with an outstanding amount of IDR1,910.2 billion in 2020 with a growth of 57.09% compared to the previous year due to the opening of all economic sectors and the existence of subsidies and stimulus from the Government. In terms of credit quality in 2020, the UMKM Loan Division managed to improve loan quality with an NPL of 3.20%.

KPR and KKB Productivity

The description of KPR and KKB productivity is presented as follows.

Currently the **bjb** KPR product had been well known by the public, bank **bjb** was also one of the pioneer banks that carried housing loan facilities for Millennials. Currently the bank **bjb** portfolio reached IDR7,731 billion with the achievement of the RBB target of 105.8%, growth the largest net growth along the KPR and KKB divisions stood at ±IDR1 trillion (IDR982 billion).

This significant achievement was supported by strategic steps taken by the KPR and KKB Divisions throughout 2021, including issuing flagship products and programs including the **bjb** KPR Gaul, **bjb** KPR FLPP, **bjb** KPR Bumi and **bjb** KPR Green.

On the other hand, hard work in continuing to suppress NPLs also yielded results, with an absolute of IDR236 billion as of December 31, 2021 or with a mortgage NPL percentage of 3.06%, this NPL is also the best decline since 2017.

The improvement in NPL in 2021 was caused by efforts to save loans in the form of intensive collection, efforts to settle loans through auctions and an increase in the disbursement of **bjb** KPR and KKB loans. Apart from rescue and settlement efforts, the KPR and KKB Divisions continuously improved credit quality since the start of the business process and carried out continuous monitoring.

Divisi KPR dan KKB per Desember 2021 tercatat memiliki 1.169 proyek Kerjasama pengembang, 614 merupakan pengembang komersial, dan 555 adalah pengembang FLPP. Proyek ini tersebar hampir diseluruh wilayah Indonesia.

Faktor Pendukung dan Penghambat Bisnis KPR dan KKB

Penjelasan terkait faktor pendukung dan penghambat bisnis yaitu sebagai berikut:

1. Faktor Pendukung

- Terdapatnya Program Pemerintah Sejuta Rumah yang menjadi peluang bagi bank **bjb** untuk menyalurkan **bjb** KPR FLPP.
- Adanya kelonggaran terhadap ketentuan LTV yang tertuang dalam PBI 23/2/PBI/2021 tentang Perubahan Ketiga atas PBI No. 20/8/PBI/2018 tentang Rasio LTV Untuk Kredit Properti, Rasio FTV untuk Pembiayaan Properti, dan Uang Muka untuk Kredit atau Pembiayaan Kendaraan Bermotor (PBI LTV/FTV dan Uang Muka).

2. Faktor Penghambat Bisnis

Supporting and Inhibiting Factors in KPR and KKB Business

Explanations related to supporting factors and business obstacles are as follows:

1. Supporting Factors

- The existence of the Government's One Million Houses Program was an opportunity for bank **bjb** to distribute **bjb** KPR FLPP.
- There was relaxation of the LTV provisions contained in PBI 23/2/PBI/2021 concerning the Third Amendment to PBI No. 20/8/PBI/2018 concerning LTV Ratio for Property Loans, FTV Ratio for Property Financing, and Advances for Motor Vehicle Loans or Financing (PBI LTV/FTV and Down Payments).

2. Inhibiting Business Factors

- People's purchasing power tended to be unstable due to the impact of the COVID-19 pandemic.
- Still waiting for the revision of the work copyright law regarding Building Approval.

KPR and KKB Plans and Strategies for 2022

The year 2022 is a new challenge for the Mortgage and KKB Divisions, the achievement of targets is likely to be overshadowed by the COVID-19 pandemic, the Omicron variant. However, as a bank **bjb** person, we must remain optimistic and prepare strategic steps, including:

- Creating a Marketing Program (Gebyar 1 Dekade **bjb** KPR, KPR Foundation, AO Reborn, Grounded Mortgage Interest) and monitor absorption.
- Mapping and focusing on subsidized and non-subsidized mortgage processing businesses.
- Supporting KPR Government Program for FLPP Products, TAPERA Products, JAMSOSTEK Products – MLT.
- Increasing Promo in coordination with related Divisions. Increasing joint socialization activities with related Divisions for marketing activities with institutions holding developer gatherings.
- Increasing the number of non-subsidized PKS developers, improving relationships with joint promo developers and developers.

Total DPK nasabah institusi pada tahun 2021 mencapai Rp76,69 triliun, meningkat 20,93% atau Rp13,27 triliun dibandingkan dengan tahun 2020 yang mencapai Rp63,41 miliar. Peningkatan tersebut khususnya berasal dari pertumbuhan giro dan deposito sebesar Rp6,69 triliun dan Rp6,58 triliun.

Total third party funds for institutional customers in 2021 reached IDR76.69 trillion, an increase of 20.93% or IDR13.27 trillion compared to 2020 which reached IDR63.41 billion. The increase in particular came from the growth in demand deposits and time deposits of IDR6.69 trillion and IDR6.58 trillion, respectively.

Pada tahun 2021 Divisi Hubungan Kelembagaan mengelola 69% dari DPK bank **bjb** atau sebesar Rp76,68 triliun dari total kelolaan bank **bjb** sebesar Rp111,84 triliun. Dalam perjalanan tahun 2021 Divisi Hubungan Kelembagaan semakin fokus dalam menerapkan strategi sinergi dan kolaborasi dalam membangun kerjasama dengan nasabah institusi. Kerjasama yang semakin baik dengan Divisi Teknologi Informasi dalam meningkatkan teknologi perbankan dengan menghasilkan inovasi layanan-layanan berbasis teknologi yang membantu transaksi perbankan untuk nasabah institusi seperti kerjasama Aggregator penerimaan Pajak Daerah dalam peningkatan *fee based income* yang memungkinkan nasabah membayar di *channel-channel* lain yang dikerjasamakan (*Modern Channel*, *E-Commerce*, dan *PPOB*) serta layanan-layanan pemberian solusi aplikasi kepada segmentasi nasabah seperti **bjb** HOPE untuk nasabah Rumah Sakti dan Edusmart untuk Nasabah Lembaga Pendidikan.

In 2021 the Institutional Relations Division managed 69% of bank **bjb** deposits or IDR76.68 trillion of the total managed bank **bjb** of IDR111.84 trillion. In the course of 2021, the Institutional Relations Division was increasingly focused on implementing synergy and collaboration strategies in building cooperation with institutional customers. It was done by improving cooperation with the Information Technology Division in improving banking technology by producing innovative technology-based services that assisted banking transactions for institutional customers such as the cooperation with the Regional Tax Revenue Aggregator in increasing fee-based income that allowed customers to pay through other partnered channels (*Modern Channel*, *E-Commerce*, and *PPOB*) as well as services for providing application solutions to customer segmentation such as **bjb** HOPE for Hospitals customers and Edusmart for Educational Institution customers.

Divisi Hubungan Kelembagaan juga berkomunikasi secara intensif dan bekerjasama dengan Divisi Bisnis lain (*collaboration marketing*) dalam mengimplementasikan *product holding* bank **bjb** dalam menggarap nasabah institusi, agar nasabah institusi mendapatkan layanan perbankan **bjb** secara menyeluruh sehingga mempercepat dan mempermudah pencapaian target bank **bjb** secara keseluruhan.

The Institutional Relations Division also communicated intensively and collaborated with other Business Divisions (*collaboration marketing*) in implementing bank **bjb** holding products in working with institutional customers, so that institutional customers got **bjb** banking services as a whole so as to accelerate and simplify the achievement of bank **bjb** targets as a whole.

International Banking Productivity

The realization of the International Banking Division's revenue in the last 5 (five) years generally increased, but in 2021 the performance decreased compared to the previous years. Fee-based income and interest income decreased slightly by 2.20% from IDR73.13 billion in 2020 to IDR71.52 billion in 2021. This was due to the COVID-19 pandemic which also affected the decline in transactions managed by the International Banking Division.

Nevertheless, the volume of trade and loan transactions in 2021 increased by 60.17% from IDR2.33 trillion in 2020 to IDR3.73 trillion in 2021. This increase was in line with product development to support optimizing cooperation with Bank Financial Institutions in the form of granting term loans, as well as to Non-Bank Financial Institutions in the form of providing money market facilities to Securities Companies.

Perkembangan transaksi bisnis *trade* semakin meningkat dan bervariasi, sehingga bank **bjb** harus terus melakukan pengembangan produk serta menggali potensi kerjasama dengan nasabah eksisting maupun calon nasabah dengan melakukan *cross selling* berbagai produk yang dimiliki. Adapun kegiatan pemasaran lebih difokuskan pada sektor-sektor usaha yang mendukung program Pemerintah dan pengembangan sektor riil, diantaranya sektor konstruksi, infrastruktur, *consumer goods*, sektor kesehatan.

The development of trade business transactions increased and varied, so bank **bjb** had to continue to develop products and explore the potential for cooperation with existing and prospective customers by cross-selling various products they have. Meanwhile, marketing activities were more focused on business sectors that supported government programs and the development of the real sector, including the construction, infrastructure, consumer goods and health sectors.

Melalui kegiatan pemasaran dan promosi yang efektif, pengembangan produk dan infrastruktur penunjang yang dilakukan secara berkelanjutan, serta pengembangan kerjasama dengan *remittance* agent di Taiwan, pada tahun 2021 transaksi remitansi bank **bjb** membukukan *fee based income* sebesar ±Rp4,84 triliun atau naik 62,91% dari tahun 2020. Pencapaian *fee based income* transaksi remitansi diharapkan dapat menunjukkan perkembangan kinerja yang positif setiap tahunnya dan berkontribusi terhadap pencapaian *fee based income* bank **bjb**.

Through effective marketing and promotion activities, sustainable product development and supporting infrastructure, as well as the development of cooperation with remittance agents in Taiwan, in 2021 bank **bjb** remittance transactions recorded fee based income of ±IDR4.84 trillion, an increase of 62.91% from 2020. The achievement of fee based income on remittance transactions was expected to show positive performance developments every year and contribute to the achievement of bank **bjb**'s fee based income.

Faktor Pendukung dan Penghambat Bisnis *International Banking*

Terdapat beberapa faktor pendukung dan penghambat bisnis atas produk dan jasa layanan yang dikelola Divisi *International Banking*, antara lain:

1. Faktor Pendukung

- Untuk mendukung strategi dalam menghadapi semakin ketatnya tantangan dan persaingan produk yang menawarkan transaksi *trade finance* antar bank serta *loan* kepada bank maupun sekuritas, bank **bjb** terus berusaha meningkatkan pelayanan dan melakukan pengembangan produk yang mampu memenuhi ekspektasi *counterparty* dan membina hubungan baik dengan *counterparty* sehingga menghasilkan kerjasama transaksi dalam berbagai produk.
- Produk *Trade Finance and Services* dapat diakses di seluruh cabang bank **bjb** (65 kantor cabang) yang tersebar diseluruh Indonesia dengan penanganan operasional transaksi secara sentralisasi (ISO 9001:2015) dan produk serta layanan yang senantiasa *up to date* seiring perkembangan pasar serta kebutuhan nasabah dengan tarif yang kompetitif.
- Selain meningkatkan kiriman uang valuta asing dari dan/ atau ke luar negeri, bank **bjb** meningkatkan kiriman uang secara domestic diantaranya untuk menyalurkan dana bantuan dan pencairan pemerintah, penyaluran dana BPJS dan sekolah, serta kiriman uang antar bank.

2. Faktor Penghambat

- Namun demikian masih belum pulihnya perekonomian akibat pandemi COVID-19 dan akibat dari *refocusing* anggaran *project* pemerintah, menyebabkan penggunaan fasilitas *trade* nasabah pada tahun berjalan belum optimal.
- Kendala yang dihadapi selama tahun 2020 sampai dengan tahun 2021 adalah pandemi COVID-19. Salah satu kelompok yang terdampak pandemi global COVID-19 ini adalah Pekerja Migran Indonesia. PMI

Supporting and Barriers to International Banking Business Factors

There were several factors that support and hinder the business of products and services managed by the International Banking Division, including:

1. Supporting Factors

- To support the strategy in facing increasingly fierce challenges and product competition that offers interbank trade finance transactions as well as loans to banks and securities, bank **bjb** continues to strive to improve services and develop products that are able to meet counterparty expectations and foster good relations with counterparties so as to result in transaction cooperation. in various products.
- Trade Finance and Services products can be accessed in all bank **bjb** branches (65 branch offices) spread throughout Indonesia with centralized handling of transaction operations (ISO 9001:2015) and products and services that are always up to date in line with market developments and customer needs at high rates. competitive ones.
- In addition to increasing foreign currency remittances from and/or abroad, bank **bjb** also increases domestic remittances, including channeling aid funds and government disbursements, distribution of BPJS and school funds, and interbank remittances.

2. Inhibiting Factor

- However, the economy had not recovered due to the COVID-19 pandemic and as a result of the refocusing of the government's project budget, causing the use of customer trade facilities in the current year is not optimal.
- The obstacle faced during 2020 to 2021 was the COVID-19 pandemic. One of the groups affected by the global COVID-19 pandemic was Indonesian Migrant Workers. PMIs in several countries were forced to be

di beberapa negara terpaksa harus dipulangkan ke Indonesia, terdapat beberapa negara juga yang melarang PMI untuk keluar rumah serta dampak lain yang juga dirasakan oleh Pekerja Migran Indonesia khususnya mereka yang sedang menjalani masa pra penempatan (persiapan keberangkatan) adalah tertundanya keberangkatan Pekerja Migran Indonesia tersebut ke beberapa negara penempatan akibat kebijakan pengetatan lalu lintas keimigrasian di banyak negara. Hal tersebut mengakibatkan kiriman uang PMI dari luar negeri ke Indonesia semakin berkurang.

- c. Selain itu pemberlakuan Pembatasan Sosial Berskala Besar (PSBB) atau saat ini menjadi Pemberlakuan Pembatasan Kegiatan Masyarakat (PPKM) dari pemerintah yang mengharuskan beberapa jaringan kantor cabang harus dilakukan pembatasan operasional serta pemberlakuan *Work From Home* (WFH) merupakan salah satu penghambat bisnis perbankan salah satunya remitansi.
- d. Selama pandemi COVID-19 terdapat bisnis yang mengalami peningkatan salah satunya bisnis alat-alat pendukung kesehatan, tidak sedikit pelaku usaha alat-alat pendukung kesehatan yang melakukan ekspor keluar negeri sehingga terdapat peluang bisnis remitansi dari Indonesia ke luar negeri.

Pengembangan Produk dan Layanan *International Banking*

Dengan semakin bertambahnya persaingan produk dan layanan perbankan khususnya pada transaksi *International Banking*, telah dilakukan beberapa pengembangan produk dan peningkatan layanan yang mampu memenuhi ekspektasi nasabah bank **bjb** antara lain:

1. Mengembangkan produk dan layanan untuk meningkatkan kerja sama transaksi kepada pihak *counterparty*, baik itu kepada Lembaga Keuangan Bank berupa produk *term loan* ataupun kepada Lembaga Keuangan Non Bank berupa produk *money market* dan surat referensi untuk perusahaan sekuritas.
2. Mengembangkan aplikasi Western Union *Host to Host* untuk optimalisasi operasional transaksi dan mempercepat layanan di jaringan kantor bank **bjb**.
3. Mengembangkan fitur "BEN" pada aplikasi **bjb quickcash** untuk melakukan pendebitan biaya kirim dari dana pokok yang dikirim.
4. Mengembangkan aplikasi Firecash pada aplikasi **bjb FAST** untuk otomatisasi pembukuan dana, biaya dan pajak pengiriman uang.

Rencana dan Strategi *International Banking* di Tahun 2022

Rencana dan strategi Divisi *International Banking* pada tahun 2021, antara lain:

1. Membuat dan melakukan *review credit line* dan *monitoring credit line* untuk mendukung bisnis bank.
2. Memperluas dan mengembangkan kerjasama dengan *counterparty bank* melalui berbagai produk transaksi antar bank yang tidak terbatas pada *Usance Payable At Sight* (UPAS)/*Usance Payable At Usance* (UPAU), *Banker Acceptance*, *BG under Counter Guarantee*, *Risk Participation*, *Forfaiting* dan *Term Loan*.

sent back to Indonesia; there were some countries that prohibited PMIs from leaving the house and another impact that was also felt by Indonesian Migrant Workers, especially those who were undergoing a pre-placement period (preparation for departure) was the delay in the departure of the Indonesian Migrant Workers to several countries of placement due to tightening immigration traffic policies in many countries. This resulted in fewer PMI remittances from abroad to Indonesia.

- c. In addition, the implementation of Large-Scale Social Restrictions (PSBB) or currently the Implementation of Community Activity Restrictions (PPKM) from the government which required several branch office networks to be subject to operational restrictions and the implementation of *Work From Home* (WFH) was one of the obstacles to the banking business, one of which was remittances.
- d. During the COVID-19 pandemic, there were businesses that experienced an increase, one of which was the business of health support equipment, not a few business players of health support equipment were exporting abroad so that there were business opportunities for remittances from Indonesia to abroad.

Development of *International Banking* Products and Services

With the increasing competition in banking products and services, especially in *International Banking* transactions, several product developments and service improvements were carried out to meet the expectations of bank **bjb** customers, including:

1. Developing products and services to improve transaction cooperation with counterparties, whether to Bank Financial Institutions in the form of *Term Loan* products or to Non-Bank Financial Institutions in the form of *Money Market* products and reference letters for securities companies.
2. Developing the Western Union *Host to Host* application for optimizing transaction operations and accelerating services in the bank **bjb** office network.
3. Developing the "BEN" feature on the **bjb quickcash** application to debit shipping costs from the principal funds sent.
4. Developing the Firecash application on the **bjb FAST** application to automate the bookkeeping of funds, fees and remittance taxes.

Plan and Strategy For *International Banking* in 2022

Perkembangan Bisnis *Treasury* Tahun 2021

Visi Divisi *Treasury* sebagai pilar pertumbuhan laba bank **bjb** dengan dukungan tenaga profesional dan handal, serta senantiasa terus mengembangkan dan meningkatkan aktivitas bisnis *Treasury* dalam rangka optimalisasi likuiditas dan peningkatan pendapatan bank.

Pada tahun 2021 kita mengetahui bahwa perbaikan ekonomi global terus berlangsung meski tidak merata dengan ketidakpastian pasar keuangan. Ketidakpastian pasar keuangan global masih terus berlanjut sejalan dengan risiko yang masih mengemuka antara lain terkait peningkatan penyebaran COVID-19 varian Delta pada Triwulan II 2021 yang memiliki karakteristik sangat cepat menular dibandingkan dengan varian lainnya, antisipasi pasar terhadap kebijakan *tapering* The Fed, serta kekhawatiran tekanan inflasi yang berlangsung lebih lama akibat gangguan rantai pasokan dan keterbatasan energi.

Pemerintah mulai menetapkan program vaksinasi nasional pada awal tahun 2021 setelah vaksin COVID-19 mendapat izin dari BPOM dan untuk mendukung program tersebut Pemerintah mulai memesan jenis vaksin Sinovac, Astra Zeneca, Moderna, dan Pfizer. Pemerintah telah mengambil berbagai kebijakan *extraordinary* (luar biasa) untuk mengatasi dampak sosial ekonomi akibat pandemi COVID-19 diantaranya adalah realokasi Anggaran Pendapatan dan Belanja Negara (APBN) yang diarahkan sepenuhnya untuk keperluan penanganan pandemi COVID-19. Dari sisi ekonomi program yang sudah dilakukan pemerintah melalui Pemulihan Ekonomi Nasional (PEN) dan program perlindungan sosial dan langkah-langkah lain yang telah dilakukan Pemerintah sampai semester I 2021 telah menunjukkan perkembangan positif.

Kondisi pemulihan ekonomi global tentu mempengaruhi perekonomian Indonesia. Pada Juli 2021 Bank Indonesia memprediksi pertumbuhan ekonomi 2021 berkisar 3,5% hingga 4,3% (YoY), tumbuh signifikan jika dibandingkan kondisi di tahun 2020 yang pertumbuhannya terkontraksi dan bernilai negatif. Optimisme pertumbuhan ini ditopang oleh keberlanjutan program vaksinasi yang mendorong kenaikan mobilitas sehingga konsumsi rumah tangga membaik. Selain itu, laporan pertumbuhan ekonomi Indonesia Triwulan II-2021 juga memperlihatkan pertumbuhan yang perlahan membaik. Badan Pusat Statistik melaporkan

Services and Other Services are services that include Monitoring Agent Services, Guarantee Agent services, and Payment Agent services to Issuers/Issuers/Customers who meet the requirements

The account is used for depositing the client's funds separately from the Securities Company funds or other client's funds.

Treasury Business Development In 2022

In line with the Vision of the Treasury Division as a pillar of Company profit growth with the support of professional and reliable personnel, it continues to enhance treasury business activities in order to optimize liquidity and increase bank revenue.

In 2021 it is known that the global economic recovery continued even though it was uneven with financial market uncertainty. Global financial market uncertainty continued to be in line with emerging risks, including the increased spread of the Delta variant of COVID-19 in the second quarter of 2021, which was highly contagious compared to other variants, market anticipation for the Fed's tapering policy, and concerns over inflationary pressures which lasted longer due to supply chain disruptions and energy constraints.

The government began to establish a national vaccination program in early 2021 after the COVID-19 vaccine received permission from BPOM and to support this program the government began ordering Sinovac, Astra Zeneca, Moderna, and Pfizer vaccines. The government took various extraordinary policies to overcome the socio-economic impacts of the COVID-19 pandemic, including the reallocation of the State Revenue and Expenditure Budget (APBN) which was fully directed to the needs of handling the COVID-19 pandemic. From the economic side, the programs carried out by the government through the National Economic Recovery (PEN) and social protection programs and other measures taken by the Government until the first semester of 2021 showed positive developments.

The condition of global economic recovery certainly affected the Indonesian economy. In July 2021, Bank Indonesia predicted economic growth in 2021 to range from 3.5% to 4.3% (YoY), growing significantly when compared to conditions in 2020 where growth was contracted and had a negative value. This growth optimism was supported by the sustainability of the vaccination program which encouraged the increased mobility so that household consumption improved. In addition, the report on Indonesia's economic growth in Quarter II-2021 also showed that growth was slowly improving. The Central Bureau of Statistics

pertumbuhan ekonomi Indonesia pada Triwulan II-2021 tumbuh sebesar 7,07% (YoY). Pertumbuhan ekonomi perlahan membaik dibandingkan kondisi pertumbuhan ekonomi Triwulan II-2020 yang berkontraksi hingga -5,32%(YoY).

Tahun 2021 Bank Indonesia melanjutkan kebijakan suku bunga rendah dan injeksi likuiditas untuk mendorong proses pemulihan ekonomi. Setelah menurunkan suku bunga kebijakan *BI 7-Day Reverse Repo Rate* (BI7DRR) sebanyak lima kali sejak tahun 2020, Bank Indonesia kembali menurunkan BI7DRR pada Februari 2021 menjadi 3,50%, terendah sepanjang sejarah. Pada periode selanjutnya hingga akhir tahun 2021 Bank Indonesia tetap mempertahankan BI7DRR sejalan dengan perlunya menjaga stabilitas nilai tukar dan sistem keuangan, di tengah prakiraan inflasi yang rendah dan upaya untuk mendukung pertumbuhan ekonomi. Injeksi likuiditas (*quantitative easing*) tetap dilanjutkan untuk memperkuat kemampuan perbankan dalam meningkatkan kredit/pembiayaan kepada dunia usaha. Pada tahun 2021 Bank Indonesia telah menambah likuiditas di perbankan sebesar Rp147,83 triliun. Sepanjang tahun 2021 nilai tukar Rupiah bergerak dari kisaran Rp13.800-14.600an dan imbal hasil surat berharga 10Y (seri *benchmark*) untuk surat berharga Pemerintah pada akhir tahun 2021 ditutup pada level 6,382%.

Sepanjang tahun 2021 Divisi *Treasury* mampu membukukan pendapatan dengan total sebesar Rp1,955 triliun (per Desember 2021) yang diperoleh dari transaksi jual beli valas, surat berharga, penempatan dana pada instrumen pasar uang serta aktivitas kustodi dan wali amanat. Divisi *Treasury* juga terus meningkatkan aktivitas *sales* khususnya untuk nasabah ritel baik transaksi *forex* maupun surat berharga dengan memperbanyak *customer based*, memberikan harga yang kompetitif serta terus mengembangkan sistem **bjb** TIP-FX yang merupakan *electronic trading system* yang mempermudah transaksi valas nasabah di kantor cabang bank **bjb**.

Produktivitas *Treasury*

Uraian produktivitas *Treasury* meliputi transaksi *money market*, *fixed income* dan *forex* yang disajikan sebagai berikut.

Transaksi *Money Market*

Salah satu aktivitas Divisi *Treasury* merupakan pengelolaan dan optimalisasi eksekusi likuiditas melalui transaksi pasar uang (*money market*). Sepanjang tahun 2021 pendapatan yang diperoleh melalui transaksi *money market* adalah sebesar Rp425,71 miliar.

Aktivitas *money market* yang dilakukan antara lain penempatan melalui instrumen moneter Bank Indonesia dan penempatan antar bank untuk optimalisasi likuiditas. Saat ini bank **bjb** merupakan salah satu bank kontributor JIBOR (*Jakarta Interbank Offered Rate*) yang ditunjuk Bank Indonesia untuk memberikan kuotasi suku bunga penawaran transaksi pasar uang antar bank di Indonesia. bank **bjb** sebagai kontributor JIBOR senantiasa mendukung terciptanya suku bunga acuan pasar uang yang kredibel dan dapat mendorong perkembangan transaksi pasar uang antar bank.

reported that Indonesia's economic growth in Quarter II-2021 grew by 7.07% (YoY). Economic growth was slowly improving compared to the economic growth conditions in Quarter II-2020 which contracted to -5.32%(YoY).

In 2021, Bank Indonesia continued its policy of low interest rates and liquidity injection to encourage the process of economic recovery. After lowering the BI 7-Day Reverse Repo Rate (BI7DRR) policy rate five times since 2020, Bank Indonesia again lowered the BI7DRR in February 2021 to 3.50%, the lowest in history. In the next period until the end of 2021, Bank Indonesia maintained BI7DRR in line with the need to maintain exchange rate stability and the financial system, amidst low inflation forecasts and efforts to support economic growth. Liquidity injection (*quantitative easing*) continued to strengthen the ability of banks to increase loans/financing to the business world. In 2021, Bank Indonesia added liquidity in the banking sector by IDR147.83 trillion. Throughout 2021 the Rupiah exchange rate moved from the range of IDR13,800-14,600 and the yield on 10Y securities (benchmark series) for Government securities at the end of 2021 closed at 6.382%.

Throughout 2021 the Treasury Division was able to record revenues of a total of IDR1.955 trillion (as of December 2021) obtained from foreign exchange buying and selling transactions, securities, placement of funds in money market instruments as well as custodial and trustee activities. The Treasury Division also continued to increase sales activities, especially for retail customers, both forex and securities transactions by increasing customer base, providing competitive prices and continuing to develop the **bjb** TIP-FX system, which was an electronic trading system that facilitates customer forex transactions at bank **bjb** branch offices.

Treasury Productivity

Treasury productivity descriptions include money market, fixed income and forex transactions which are presented as follows.

Money Market Transactions

One of the activities of the Treasury Division is the management and optimization of excess liquidity through money market transactions. Throughout 2021, revenue obtained through money market transactions amounted to IDR425,71 billion.

Money market activities include placements through Bank Indonesia monetary instruments, interbank placements and optimization through gapping. Company is currently one of the contributors to the JIBOR (*Jakarta Interbank Offered Rate*) appointed by Bank Indonesia to provide interest rates on interbank money market transaction offerings in Indonesia. Company as a contributor to JIBOR always supports the creation of credible and money market benchmark interest rates the development of interbank money market transactions.

Sejalan dengan program Bank Indonesia dalam rangka pendalaman transaksi pasar uang, bank **bjb** juga aktif dalam melakukan transaksi repo dan *reverse repo* antar bank, mengingat transaksi *repo* merupakan alternatif pendanaan yang fleksibel dengan suku bunga yang relatif rendah.

In line with Bank Indonesia's program in the context of deepening money market transactions, Company is also active in conducting inter-bank repo and reverse repo transactions, bearing in mind that repo transactions are flexible funding alternatives with relatively low interest rates.

Posisi *outstanding money market* per akhir tahun 2021 mengalami sedikit penurunan dibandingkan dengan tahun sebelumnya. *Outstanding money market* tahun 2021 mencapai Rp10,33 triliun, turun 21,61% dibandingkan dengan tahun 2020 yang sebesar Rp13,18 triliun. Hal ini dikarenakan eksese likuiditas perbankan yang banyak (*liquid*) ditambah dengan kecenderungan perbankan melakukan penempatan instrumen jangka panjang melalui instrument surat berharga, hal ini terlihat dari volume transaksi *fixed income* mengalami kenaikan yang cukup signifikan.

The position of the outstanding money market at the end of 2021 experienced a slight decrease compared to the previous year. The outstanding money market in 2021 reached IDR10.33 trillion, down 21.61% compared to 2020 which was IDR13.18 trillion. This was due to the excess liquidity of the banking system coupled with the tendency of banks to place long-term instruments through securities, this could be seen from the volume of fixed income transactions which increased quite significantly.

Transaksi Fixed Income

Pada kuartal pertama tahun 2021, kondisi pasar surat berharga Indonesia cenderung lebih baik apabila dibandingkan dengan tahun 2020. Posisi *yield* obligasi Pemerintah 10Y awal tahun 2021 berada pada level 5,9%, jauh lebih rendah apabila dibandingkan dengan posisi awal tahun 2020 yang berada pada level 7,0%. Meskipun tingkat suku bunga acuan Bank Indonesia (*BI 7 Day*

Fixed Income Transaction

In the first quarter of 2021, the Indonesian securities market condition tended to be better when compared to 2020. The position of the 10Y Government bond yield in early 2021 was at the level of 5.9%, much lower when compared to the position in the beginning of 2020 which was at the level of 7.0%. Although the benchmark interest rate of Bank Indonesia (BI 7 Day Reverse

Reverse Repo Rate) kembali mengalami penurunan dari 3,75% pada bulan Januari menjadi 3,50% pada bulan Februari 2021, posisi *yield* obligasi pemerintah dinilai masih kompetitif apabila dibandingkan dengan negara berkembang lainnya.

Likuiditas di pasar domestik yang tinggi menjadi salah satu sentimen yang mempengaruhi penguatan imbal hasil surat berharga Indonesia. Kasus COVID-19 yang terkendali, kondisi perekonomian yang terus membaik dan meredanya sentimen global terkait kebijakan *The Fed* juga menjadi katalis positif bagi pergerakan surat berharga Indonesia. Hal ini kemudian mendorong para investor untuk masuk ke *emerging market* seperti Indonesia. Kenaikan minat investor tersebut ditunjukkan dengan tingginya angka penawaran pada lelang Sukuk Negara maupun Surat Utang Negara.

Namun demikian, pada akhir Kuartal III pergerakan pasar obligasi Indonesia mengalami tekanan akibat penurunan jumlah kepemilikan asing terhadap Surat Berharga Negara (SBN) yang cukup signifikan. Tekanan ini juga berlanjut pada Kuartal IV sehubungan dengan rencana *tapering* dan kenaikan suku bunga oleh *The Fed*. *US Treasury yield* 10Y mengalami kenaikan ke level 1,87% pada pertengahan bulan Desember 2021, hal ini juga membuat *yield* obligasi pemerintah 10Y mengalami peningkatan ke level 6,4%. Selain itu, merebaknya kasus Omicron di berbagai wilayah di dunia juga membuat para investor kembali ke aset *safe haven*.

Pengelolaan likuiditas dan optimalisasi pendapatan melalui instrumen *fixed income* dilakukan dengan penempatan dana pada surat berharga, baik obligasi pemerintah maupun obligasi korporasi di pasar perdana dan pasar sekunder serta melakukan *trading*/jual beli surat berharga. Total pendapatan yang diperoleh dari transaksi surat berharga sepanjang tahun 2021 mencapai Rp1,46 triliun (per Desember 2021).

Divisi *Treasury* pun telah aktif melakukan transaksi surat berharga kepada nasabah per Juli 2021 untuk pemasaran SBN Ritel di pasar perdana sebagai Sub Mitra Distribusi SBN Ritel dan transaksi surat berharga di pasar sekunder, dengan pencapaian volume selama bulan Juli – Desember 2021 sebesar Rp951,25 miliar dan membukukan keuntungan sebesar Rp2,60 miliar.

Repo Rate) again decreased from 3.75% in January to 3.50% in February 2021, the position of government bond yields was still considered competitive when compared to other developing countries.

High liquidity in the domestic market was one of the sentiments that influenced the strengthening of Indonesian securities yields. The controlled COVID-19 case, improving economic conditions and easing global sentiment related to the Fed's policies also became positive catalysts for the movement of Indonesian securities. This then encouraged investors to enter emerging markets such as Indonesia. The increase in investor interest was shown by the high number of bids at auctions of State Sukuk and Government Bonds.

However, at the end of the third quarter, the movement of the Indonesian bond market was under pressure due to a significant decrease in the number of foreign ownership of Government Securities (SBN). This pressure also continued in the fourth quarter due to the tapering and interest rate hike plans by the Fed. The 10Y US Treasury yield increased to 1.87% in mid-December 2021, this also made the 10Y government bond yield increased to 6.4%. In addition, the outbreak of the Omicron case in various regions of the world also made investors return to safe haven assets.

Liquidity management and revenue optimization through fixed income instruments were carried out by placing funds in securities, both government bonds and corporate bonds in the primary and secondary markets as well as trading/buying and selling securities. The total income obtained from securities transactions throughout 2021 reached IDR1.46 trillion (as of December 2021).

The Treasury Division had also been actively conducting securities transactions to customers as of July 2021 for the marketing of Retail SBN in the primary market as a Sub-Partner for Retail SBN Distribution and securities transactions in the secondary market, with volume achievements during July – December 2021 amounting to IDR951.25 billion and recorded a profit of IDR2.60 billion.

Foreign Exchange Transaction

The Treasury Division continued to increase sales activities to existing and new customers, including an active role in forex transactions and interbank swaps. During 2021, the volume of forex and swap transactions reached USD10,57 billion. Forex and swap transaction revenue during 2021 reached IDR54 billion. Meanwhile, the volume of forex transaction to customer during 2021 reached USD111.10 million, with revenue of IDR3,35 billion.

Divisi *Treasury* telah mengadakan pelatihan mengenai **bjb** TIP FX dan *treasury product* kepada karyawan-karyawati bank **bjb** khususnya Cabang Devisa sehingga diharapkan dapat meningkatkan pemahaman dalam memasarkan produk *treasury* khususnya transaksi valuta asing bagi cabang devisa. Divisi *Treasury* juga telah melakukan sosialisasi mengenai *Hedging instruments* kepada Cabang Devisa yang diharapkan dapat membantu nasabah dalam mengelola risiko nilai tukar dan juga suku bunga seperti *FX Forward*, *FX Swaps*, *FX DNDF*, *Interest Rate Swaps* dan *Cross Currency Swaps* mengingat potensi permintaan untuk melakukan transaksi lindung nilai (*hedging*), khususnya dari nasabah korporasi dan BUMN masih cukup tinggi di pasar.

The Treasury Division conducted training on **bjb** TIP FX and treasury products for bank **bjb** employees, especially the foreign exchange branch so that it was expected to increase understanding in marketing treasury products, especially foreign exchange transactions for foreign exchange branches. The Treasury Division also socialized hedging instruments to foreign exchange branches which were expected to assist customers in managing exchange rate risk and interest rates such as FX Forward, FX Swaps, Domestic Non Deliverable Forward (DNDF), interest rate swaps and cross currency swaps given the potential demand for hedging transactions, particularly from corporate and SOE customers, was still quite high in the market.

Selain itu, Divisi *Treasury* juga aktif dalam melakukan transaksi derivatives DNDF untuk melakukan *hedging* atas posisi terbuka bank sehingga pendapatan bank menjadi lebih optimal. Hal ini juga dilakukan untuk meningkatkan likuiditas dan aktivitas pasar uang di Indonesia.

In addition, the Treasury Division was also active in conducting DNDF derivative transactions to hedge bank open positions so that bank income could be optimized. This was also done to increase liquidity and money market activity in Indonesia.

Faktor Pendukung dan Penghambat Bisnis *Treasury*

Penyebaran COVID-19 kembali meningkat didorong merebaknya varian Delta pada tahun 2021. Kasus harian COVID-19 sempat menunjukkan penurunan pada awal tahun 2021, di tengah munculnya varian Alpha pada akhir tahun 2020. Penyebaran di Asia mencapai puncaknya pada awal Mei 2021, sedikit menurun pada Juni tetapi meningkat kembali pada Agustus 2021. Perbaikan ekonomi global tertahan seiring dengan peningkatan penyebaran COVID-19 varian Delta. Kebijakan pembatasan mobilitas masyarakat harus dilakukan untuk mencegah penyebaran varian Delta dan berdampak pada tertahannya aktivitas ekonomi.

Secara keseluruhan tahun 2021, perbaikan ekonomi global terus berlanjut meski tidak merata dengan ketidakpastian pasar keuangan yang terus berlanjut, antara lain terkait peningkatan penyebaran COVID-19 varian Delta, antisipasi pasar terhadap kebijakan *tapering* The Fed, serta kenaikan penyebaran varian Omicron yang berdampak pada peningkatan ketidakpastian, perlu terus dicermati dan diwaspadai pada akhir tahun 2021.

Sinergi kebijakan yang semakin kuat antara Bank Indonesia, Pemerintah, dan Komite Stabilitas Sistem Keuangan (KSSK) serta inovasi baik dalam koordinasi kebijakan ekonomi nasional termasuk koordinasi fiskal-moneter, maupun dalam akselerasi digitalisasi dan inklusi ekonomi-keuangan nasional menjadi faktor kunci berlanjutnya perbaikan ekonomi dengan stabilitas yang terjaga. Pada tahun 2021, Pemerintah melanjutkan kebijakan fiskal ekspansif dengan stimulus fiskal yang cukup besar untuk penanganan dampak COVID-19, termasuk untuk anggaran kesehatan dan perlindungan sosial.

Sementara itu untuk transaksi valuta asing nasabah, Divisi *Treasury* memfasilitasinya dalam sistem **bjb** TIP FX. Hal itu dilakukan untuk memenuhi kebutuhan *pricing* bagi nasabah secara *real time*.

Strategi Bisnis *Treasury* Tahun 2022

Tahun 2022 kondisi perekonomian Indonesia masih dipengaruhi oleh perkembangan dari efek pandemi COVID-19 varian Omicron. Selain itu, berbagai faktor yang dapat menggerakkan pasar keuangan antara lain dari pasar domestik perlu dicermati perkembangan tingkat inflasi, kebijakan Pemerintah dalam penanganan COVID-19. Sementara itu tantangan dari pasar global antara lain kebijakan The Fed yang akan menaikkan tingkat suku bunga acuan pada bulan Maret 2022 dan menurut survei akan dilakukan sebanyak empat kali di tahun 2022 juga menjadi perhatian investor. Lebih lanjut tingkat inflasi di US sendiri juga menjadi tolak ukur tersendiri bagi pemerintahan AS khususnya The Fed untuk menentukan kebijakan-kebijakan ekonomi AS kedepannya.

Menghadapi tantangan pasar uang tersebut, Divisi *Treasury* senantiasa melakukan analisa dan menerapkan strategi agar sejalan dengan perkembangan pasar dengan tetap menjaga likuiditas bank dan optimalisasi pendapatan melalui transaksi *Treasury*. Divisi *Treasury* akan terus mengembangkan produk dan layanan untuk mengakomodir kebutuhan nasabah dengan

Supporting and Inhibiting Factors of Treasury Business

The spread of COVID-19 increased again driven by the outbreak of the Delta variant in 2021. Daily COVID-19 cases had shown a decline in early 2021, amid the emergence of the Alpha variant at the end of 2020. The spread in Asia reached its peak in early May 2021, declining slightly in late June 2020 but increased again in August 2021. Global economic recovery was restrained as the spread of the Delta variant of COVID-19 increased. A policy of restricting community mobility had to be implemented to prevent the spread of the Delta variant and have an impact on the restraint of economic activity.

Overall in 2021, the global economy continued to improve even though it was uneven with financial market uncertainty that continued, including the increase in the spread of the Delta variant of COVID-19, market anticipation of the Fed's tapering policy, as well as the increase in the spread of the Omicron variant which has an impact on increasing uncertainty, need to continue to be observed and watched out for at the end of 2021.

The stronger policy synergy between Bank Indonesia, the Government, and the Financial System Stability Committee (KSSK) as well as innovation both in the coordination of national economic policies including fiscal-monetary coordination, as well as in accelerating digitalization and national economic-financial inclusion became key factors for continued economic improvement by maintained stability. In 2021, the Government continued its expansionary fiscal policy with a sizeable fiscal stimulus to deal with the impact of COVID-19, including for the health and social protection budget.

Meanwhile, for customers' foreign exchange transactions, the Treasury Division facilitated the **bjb** TIP FX system. This was done to meet the pricing needs of customers in real time.

Treasury Business Strategy 2022

In 2022, Indonesia's economic conditions will still be influenced by developments from the effects of the Omicron variant of the COVID-19 pandemic. In addition, various factors that can move the financial market, including the domestic market, need to be monitored closely for developments in the inflation rate, government policies in handling COVID-19. Meanwhile, challenges from global markets, including the Fed's policy of raising the benchmark interest rate in March 2022 and according to a survey that will be conducted four times in 2022 are also of concern to investors. Furthermore, the inflation rate in the US itself is also a separate benchmark for the US government, especially the Fed, to determine future US economic policies.

Facing these money market challenges, the Treasury Division continues to analyze and implement strategies to keep pace with market developments while maintaining bank liquidity and optimizing income through Treasury transactions. The Treasury Division will continue to develop products and services to better accommodate customer needs. The main strategy of the Treasury

lebih baik. Strategi Utama Divisi *Treasury* tahun 2022 yaitu terus mengembangkan retail bisnis *treasury* khususnya penjualan bonds retail dan valuta asing kepada nasabah, mendorong peningkatan pendapatan melalui jasa layanan kustodian dan wali amanat, dan *enhancement yield instrument Treasury* dengan tetap memperhatikan risiko pasar.

Faktor Pendukung dan Penghambat Bisnis DPLK

Sejumlah perusahaan membuat berbagai kebijakan untuk mempertahankan bisnisnya. mulai dari tidak melakukan produksi, menutup sementara usahanya, bahkan pemutusan hubungan kerja (PHK) beberapa karyawannya karena kesulitan *cash flow*. Daya beli atau konsumsi masyarakat yang menurun yang menjadi faktor utama masalah timbulnya *cash flow* perusahaan yang kemudian mempengaruhi pendapatan perusahaan. Peluang bank **bjb** dalam upaya untuk mempertahankan kemampuan finansial perusahaan adalah dengan pemberian fasilitas kredit modal kerja atau usaha namun tetap memperhatikan faktor fundamental perusahaan untuk meminimalisir terjadi resiko keuangan atau gagal bayar. Upaya pemerintah dalam menghadapi kondisi acaman PHK masal dengan cara meringankan beban pajak, pembebasan biaya PPN impor terutama industry kecil dan menengah dan juga memberikan insentif untuk masyarakat atau kelompok yang terdampak ekonomi dengan upaya-upaya tersebut diharapkan dapat menumbuh kembangkan kembali industry dan sektor perdagangan perusahaan sehingga dapat menekan PHK dan memperbaiki kondisi keuangan perusahaan, terutama dalam pembayaran beban pesangon perusahaan terhadap karyawan. UU Cipta kerja No 11 Tahun 2020 yang telah disahkan oleh Presiden Joko Widodo berlaku efektif tahun 2020 terdapat kewajiban perusahaan dalam memberikan kompensasi pesangon sesuai dengan PP 35 Tahun 2021.

UU Cipta Kerja No 11 Tahun 2020 bukan sebagai ancaman justru sebagai peluang dan pendorong industry DPLK. Dana Pensiun menjadi sarana kompensasi atas semua kewajiban pengusaha kepada karyawan dalam proses Pemutusan Hubungan Kerja (PHK).

Supporting and Inhibiting Factors of DPLK Business

A number of companies make various policies to maintain their business. starting from not doing production, temporarily closing their business, and even laying off some employees due to *cash flow* difficulties. Declining purchasing power or public consumption is the main factor in the problem of the emergence of company *cash flow* which then affects the company's income. bank **bjb** opportunity in an effort to maintain the company's financial capacity is to provide working or business capital credit facilities but still pay attention to the company's fundamental factors to minimize financial risk or default. The government's efforts to deal with the threat of mass layoffs are by easing the tax burden, exemption from import VAT fees, especially for small and medium-sized industries and also providing incentives for communities or groups that are affected by the economy. can reduce layoffs and improve the company's financial condition, especially in paying the company's severance pay to employees. The Job Creation Law No. 11 of which has been ratified by President Joko Widodo, is effective in 2020, there is an obligation for the company to provide severance compensation in accordance with PP 35 of 2021.

The Job Creation Law No. 11 of 2020 was not a threat, but rather an opportunity and a driving force for the DPLK industry. The Draft Government Regulation (RPP) states that PKWT employees must receive 1x severance pay for each year the employee works. Pension funds are a means of compensation for all obligations of employers to employees in the process of Termination of Employment (PHK).

Besarnya *captive market* bank **bjb** dalam sektor retail dan konsumen merupakan satu peluang potensi market yang dapat dioptimalkan untuk meningkatkan dana kelolaan DPLK bank **bjb**. Pelaksanaan literasi dan edukasi yang dilakukan secara kontinyu diharapkan dapat meningkatkan kesadaran masyarakat terutama nasabah bank **bjb** untuk mempersiapkan kesejahteraan hari tuanya melalui DPLK.

Rencana dan Strategi di tahun 2022

Digital Banking

Digital Banking

Di tahun kedua pandemi COVID-19, banyak perubahan yang terjadi pada kehidupan di dunia. Perubahan tersebut terjadi pada berbagai sisi kehidupan salah satu dampak yang paling terlihat yaitu dari sisi perekonomian dari mulai bisnis, cara bertransaksi dan perubahan perilaku masyarakat dalam bertransportasi.

In the second year of the COVID-19 pandemic, many changes occurred in life in the world. These changes occurred in various aspects of life; one of the most visible impacts was from the economic side of starting a business, how to transact and changes in people's behavior in transportation.

Masyarakat mulai beradaptasi dengan era *hybrid* dimana kehidupan yang dijalankan dimasa pandemi seperti ini agar masyarakat dapat beraktivitas secara normal namun tetap perlu memperhatikan protokol kesehatan. Begitupula dari sisi cara pembayaran, perlu adanya adaptasi perubahan dari sisi cara pembayaran.

People started to adapt to the hybrid era in which life was carried out during a pandemic like this so that people could carry out normal activities but still need to pay attention to health protocols. Like-wise in terms of payment methods, it was necessary to adapt to changes in terms of payment methods.

Penggunaan uang elektronik dan *contactless* sebagai alat pemenuhan kebutuhan transaksi yang tepat di era sekarang, metode pembayaran ini dianggap lebih sesuai dimasa pandemi yang mewajibkan kita menjaga jarak dan mengurangi kontak langsung. Pengguna dapat melakukan transaksi tanpa tatap muka atau menunggu waktu untuk mengambil sisa kembalian yang dapat terakomodasi melalui sistem otomatis.

Dalam memenuhi kebutuhan nasabah akan kemudahan transaksi perbankan di masa pandemi, bank **bjb** hadir dengan memberikan fitur transaksi tarik atau setor tunai tanpa kartu atau yang lebih dikenal dengan *cardless*. Melalui fitur ini, nasabah dapat melakukan transaksi tarik atau setor tunai tanpa kartu ATM, setelah sebelumnya nasabah mendapatkan kode transaksi yang di-generate melalui layanan **bjb Cardless** pada layanan Digi Mobile. Dengan adanya **bjb Cardless**, nasabah tidak perlu repot membawa kartu atm untuk melakukan tarik dan setor tunai melalui jaringan ATM.

Pada tahun 2021 ini bank **bjb** membukukan pendapatan *fee based income* dari layanan *e-channel* sebesar Rp431,74 miliar atau naik 41,56% secara *year on year*. Kenaikan pendapatan ini di dominasi oleh peningkatan jumlah pengguna kartu ATM/Debit bank **bjb**, serta peningkatan jumlah pengguna transaksi *e-channel* bank **bjb**.

Selain itu juga, bank **bjb** menorehkan sejumlah prestasi diantaranya:

The use of electronic and contactless money as a tool to meet the needs of the right transaction in the current era, this payment method was considered more appropriate during a pandemic that required us to keep our distance and reduce direct contact. Users could make transactions without meeting face-to-face or waiting for time to collect the remaining change which could be accommodated through an automated system.

In meeting customer needs for the convenience of banking transactions during the pandemic, bank **bjb** presented by providing a cardless cash withdrawal or deposit transaction feature or better known as *cardless*. Through this feature, customers could make cash withdrawals or deposit transactions without an ATM card, after previously receiving a transaction code that was generated through the **bjb Cardless** service on the Digi Mobile service. With the **bjb Cardless**, customers did not have to bother carrying an ATM card to withdraw and deposit cash through the ATM network.

In 2021, bank **bjb** recorded fee-based income from e-channel services of IDR431.74 billion, an increase of 41.56% year on year. This increase in revenue was dominated by an increase in the number of bank **bjb** ATM/Debit card users, as well as an increase in the number of bank **bjb** e-channel transaction users.

In addition, bank **bjb** made a number of achievements including:

1. *Top Regional Banker 2021* – Majalah Investor

Suku Bunga Dasar Kredit

Suku Bunga Dasar Kredit (SBDK) digunakan sebagai dasar penetapan suku bunga kredit yang akan dikenakan oleh Bank kepada nasabah. SBDK belum memperhitungkan komponen estimasi premi risiko yang besarnya tergantung dari penilaian Bank terhadap risiko masing-masing debitur atau kelompok debitur. Dengan demikian, besarnya suku bunga kredit yang dikenakan kepada debitur belum tentu sama dengan SBDK. Dalam Kredit konsumsi non KPR tidak termasuk penyaluran dana melalui kartu kredit dan kredit tanpa agunan (KTA).

Interest Rate on Credit

The Prime Lending Rate (SBDK) was used as the basis for determining the loan interest rate that the Bank will charge to customers. Prime Lending Rate did not take into account the risk premium estimation component, the amount of which depends on the Bank's assessment of the risk of each debtor or group of debtors. Thus, the amount of credit interest rates charged to borrowers was not necessarily the same as the prime lending rate. In non-KPR consumption credit, it did not include disbursement of funds through credit cards and unsecured credit (KTA).

Prospek Usaha dan Strategi Ke Depan Tahun 2022

Tantangan makro ekonomi global dan nasional selama tahun 2020 hingga semester I tahun 2021 dihadapkan pada tantangan yang sulit dan tidak mudah. Varian baru dari COVID-19 menyerang di hampir di 200 negara dunia sehingga menciptakan kembali gelombang kedua dari serangan virus Corona ini. Kemelut kesehatan yang merupakan dampak dari mutasi virus ini tidak dapat dihindari yakni memberikan tekanan luar biasa terhadap perekonomian global dan nasional. Kebijakan penanganannya melalui pembatasan mobilitas memicu ketidakpastian pasar keuangan global.

Secara umum kondisi ekonomi global di tahun 2022 diperkirakan akan membaik yang didukung peningkatan mobilitas dan stimulus kebijakan di berbagai negara serta kemajuan penanganan COVID-19. Atas hal tersebut berbagai lembaga keuangan internasional memproyeksikan perekonomian dunia akan tumbuh dikisaran 4,3% - 4,4% untuk tahun 2022.

Business Prospects and Future Strategies In 2022

Global and national macroeconomic challenges during 2020 until the first semester of 2021 were faced with difficult and not easy challenges. The new variant of COVID-19 attacked in almost 200 countries of the world, creating a second wave of this Corona virus attack. The health crisis which became the impact of this virus mutation was unavoidable, thus, it put tremendous pressure on the global and national economy. The policy of handling it through restrictions on mobility triggered uncertainty in global financial markets.

In general, global economic conditions in 2022 were expected to improve, supported by increased mobility and policy stimulus in various countries as well as progress in handling COVID-19. For this reason, various international financial institutions projected that the world economy will grow in the range of 4.3% - 4.4% for 2022.

Dari sisi domestik, perekonomian dalam negeri mulai menunjukkan perbaikan yang diperkirakan terus menguat pada tahun 2022. Kebijakan pemerintah tahun 2022 akan berfokus untuk melakukan pemantapan pemulihan sosial ekonomi sebagai penguatan pondasi yang mendukung pelaksanaan reformasi struktural secara lebih optimal. Terdapat empat poin kebijakan Pemerintah untuk melaksanakan penguatan fondasi dimaksud yaitu:

1. Melanjutkan upaya pemantapan pemulihan ekonomi dengan tetap memprioritaskan sektor kesehatan untuk mendorong efektivitas penanganan COVID-19 sebagai kunci pemulihan ekonomi
2. Menjaga keberlanjutan program perlindungan sosial untuk memperkuat pondasi kesejahteraan sosial, mencegah kemiskinan dan kerentanan akibat dampak COVID-19, termasuk memperkuat daya ungkit UMKM dan dunia usaha agar mampu bangkit kembali lebih kuat dan berdaya tahan
3. Mendukung peningkatan produktivitas dengan perbaikan kualitas Sumber Daya Manusia (SDM) melalui peningkatan kualitas pendidikan, penguatan sistem kesehatan yang terintegrasi dan handal, serta penguatan program perlindungan sosial sepanjang hayat.
4. Optimalisasi pendapatan, penguatan *spending better* dan inovasi pembiayaan sebagai kunci dalam rangka konsolidasi kebijakan fiskal yang adil dan berkelanjutan.

Di tahun 2022 perekonomian domestik diproyeksikan akan membaik dan pandemi lebih terkendali sejalan dengan akselerasi program vaksinasi dan program penguatan perekonomian seperti

From the domestic side, the domestic economy started to show improvement which was expected to continue to strengthen in 2022. The government's policy in 2022 will focus on strengthening socio-economic recovery as a strengthening of the foundation that supports the implementation of structural reforms more optimally. There are four points of Government policy to implement the strengthening of the said foundation, namely:

1. Continuing efforts to solidify economic recovery while prioritizing the health sector to encourage the effectiveness of handling COVID-19 as the key to economic recovery
2. Maintaining the sustainability of social protection programs to strengthen the foundation of social welfare, preventing poverty and vulnerability due to the impact of COVID-19, including strengthening the leverage of MSMEs and the business world to be able to rise again stronger and more resilient.
3. Supporting increased productivity by improving the quality of Human Resources (HR) through improving the quality of education, strengthening an integrated and reliable health system, and strengthening lifelong social protection programs.
4. Optimizing income, strengthening *spending better* and financing innovation as the keys to consolidating a fair and sustainable fiscal policy.

In 2022, the domestic economy was projected to improve and the pandemic to be more controlled in line with the acceleration of vaccination programs and economic strengthening programs such

pemberian insentif, subsidi, dan optimalisasi serta inovasi *vehicle* Pemerintah pada BUMN dan Badan Layanan Umum (BLU), yang berperan dalam peningkatan layanan publik dan mendukung pertumbuhan ekonomi. Hal tersebut akan berdampak pada kenaikan permintaan domestik di tahun 2022 yang akan mendorong tingkat inflasi kembali pada pola normal yang didukung dengan stabilitas nilai tukar rupiah yang terjaga.

Secara keseluruhan, perekonomian Indonesia di tahun 2022 diproyeksi mampu tumbuh sebesar 5,2%. Dari sisi pengeluaran, konsumsi rumah tangga yang memberikan kontribusi sekitar 54% terhadap perekonomian diperkirakan mampu kembali ke level pertumbuhan normalnya. Hal ini didorong oleh pola aktivitas dan mobilitas masyarakat yang lebih baik pasca pemulihan dari eskalasi pandemi COVID-19 baik di tahun 2020 maupun 2021. Sementara itu, konsumsi Pemerintah pada tahun 2022 mampu tumbuh positif sebesar 2,8%–4,5% seiring terkendalinya pandemi yang memungkinkan sebagian besar fungsi pelayanan publik dapat berjalan normal.

Dengan mempertimbangkan berbagai dinamika, risiko ketidakpastian, prospek pemulihan ekonomi global dan nasional, maka berikut proyeksi indikator asumsi makro dan industri perbankan untuk tahun 2022.

as providing incentives, subsidies, and optimizing and innovating Government vehicles for SOEs and Public Service Agencies (BLU), which play a role in improving public services and support economic growth. This will have an impact on increasing domestic demand in 2022 which will push the inflation rate back to a normal pattern supported by maintained stability in the rupiah exchange rate.

Overall, the Indonesian economy in 2022 was projected to grow by 5.2%. On the expenditure side, household consumption, which contributes around 54% to the economy, is estimated to be able to return to its normal growth level. This is driven by better patterns of activity and community mobility after recovery from the escalation of the COVID-19 pandemic in both 2020 and 2021. Meanwhile, Government consumption in 2022 is able to grow positively by 2.8%–4.5% as it is controlled a pandemic that allows most public service functions to run normally.

By considering dynamics, risk of uncertainty, prospects for global and national economic recovery, the following are the projections of indicators for macro assumptions and the banking industry for 2022.

Dengan ketidakpastian tersebut bank **bjb** yakin memiliki prospek yang baik serta peluang untuk terus tumbuh secara berkelanjutan. Peluang yang dimiliki bank **bjb** antara lain sebagai berikut:

1. Penurunan GWM oleh Bank Indonesia diprediksi akan membuat likuiditas perbankan bertambah sehingga bank **bjb** dapat memanfaatkan penurunan GWM ini untuk melakukan ekspansi kredit.
2. Berdasarkan skala pasar, sebagian besar Kantor Cabang bank **bjb** masih menjadi *market nichers* di wilayah operasionalnya sehingga masih memiliki peluang yang cukup besar untuk meningkatkan pangsa pasarnya baik dari sisi aset, dana pihak ketiga, maupun kredit.
3. Semakin meningkatnya literasi keuangan masyarakat melalui program yang dicanangkan oleh BI dan OJK dalam rangka menerapkan kebijakan keuangan inklusif sebagai suatu bentuk pendalaman layanan keuangan (*financial service deepening*) yang ditujukan kepada masyarakat *in the bottom of the pyramid* untuk memanfaatkan produk dan jasa keuangan formal seperti sarana menyimpan uang yang aman (*keeping*), *transfer*, menabung maupun pinjaman dan asuransi.
4. Kegiatan ekonomi yang cukup tinggi Propinsi Jawa Barat, Banten dan DKI Jakarta merupakan potensi pengembangan perkreditan dan pendanaan.
5. Dukungan dari Pemerintah Daerah secara konsisten dan berkesinambungan dalam mengembangkan bank **bjb** sebagai penggerak dan pendorong laju perekonomian di daerah.
6. Otoritas Jasa Keuangan mengumumkan bahwa penerapan standar industri perbankan sesuai Basel III *Reforms* akan ditunda menjadi 1 Januari 2021, kebijakan ini berdampak bagi permodalan bank **bjb**. Dengan adanya penundaan ini akan memberikan ruang likuiditas dan permodalan bank **bjb** sehingga fungsi utama Bank sebagai penyeimbang sektor keuangan akan tetap terjaga.

Berdasarkan hal yang telah dijabarkan di atas, bank **bjb** optimis untuk dapat senantiasa meningkatkan kinerja dalam jangka pendek maupun jangka panjang secara berkelanjutan. Hal ini didasarkan pada kekuatan yang dimiliki oleh bank **bjb** yaitu:

1. Sebagai intitusi pengelola keuangan kas daerah, bank **bjb** memiliki akses yang luas dalam menghimpun dan menyalurkan dana masyarakat serta tercatat sebagai perusahaan publik yang melantai di Bursa efek Indonesia (BEI) sejak tahun 2010.
2. Memiliki basis nasabah yang loyal dalam jumlah yang sangat besar yaitu Aparatur Sipil Negara (ASN), para pensiunan dan masyarakat lokal, terutama di wilayah Jawa Barat dan Banten.
3. Berada di Propinsi Jawa Barat dan Banten yang mempunyai sumber daya alam yang luas, sumber daya manusia, kawasan industri besar serta kegiatan ekonomi yang terus berkembang.
4. Memiliki jaringan kantor yang relatif menyebar di 14 (empat belas) Provinsi terutama Jawa Barat dan Banten serta Jakarta yang merupakan pusat perekonomian Indonesia.
5. Telah ditunjuknya bank **bjb** sebagai Bank Operasional II (BO II) yang melaksanakan penyaluran gaji Pemerintah Pusat yang ditempatkan di daerah.

With the uncertainty that exists in the banking world, bank **bjb** has the opportunity to grow. The opportunities owned by bank **bjb** include the following:

1. The decrease in statutory reserves by Bank Indonesia was predicted to increase banking liquidity so that bank **bjb** could take advantage of this reduction in reserve requirements to expand credit.
2. Based on market scale, most of bank **bjb** branch offices were still market nichers in its operational areas so that they still had ample opportunity to increase their market share in terms of assets, third party funds, and credit.
3. Increasing public financial literacy through programs launched by BI and FSA in order to implement financial inclusion policies as a form of financial service deepening aimed at the public in the bottom of the pyramid to utilize formal financial products and services such as a means of saving money safely (*keeping*), transfers, savings as well as loans and insurance
4. High economic activity in the provinces of West Java, Banten and DKI Jakarta were potential for credit and funding development.
5. Consistent and continuous support from the Regional Government in developing bank **bjb** as a driving force for the economic rate of the region.
6. The Financial Services Authority announced that the application of the banking industry standard according to Basel III Reforms was postponed to January 1, 2021, this policy had an impact on bank **bjb**'s capital. This delay provided room for liquidity and bank **bjb**'s capital so that the Bank's main function as a balancer for the financial sector could be maintained.

Based on the matters described above, bank **bjb** is optimistic to be able to continuously improve its performance in the short and long term in a sustainable manner. This is based on the strengths possessed by bank **bjb** namely:

1. As a regional cash management institution, bank **bjb** has broad access in collecting and channeling public funds and has been listed as a public company that has been listed on the Indonesia Stock Exchange (IDX) since 2010.
2. Has a very large base of loyal customers, namely the State Civil Service (ASN), retirees and local communities, especially in West Java and Banten.
3. Located in the Province of West Java and Banten, which have extensive natural resources, human resources, large industrial areas and growing economic activities.
4. Having a network of offices that are relatively spread out in 14 (fourteen) Provinces, especially West Java and Banten and Jakarta, which are the centers of the Indonesian economy.
5. bank **bjb** has been appointed as Operational Bank II (BO II) which conducts distribution of central government salaries which are placed in the regions.

6. Transformasi *digital* bank **bjb** melalui pengembangan layanan berbasis *digital* seperti transaksi **bjb** Digi menjadi lebih mudah, karena fitur layanan terintegrasi melalui sistem *mobile*, seperti *Internet Banking-bjb* Net, *SMS Banking-bjb* SMS, **bjb** info.
7. Memiliki program pemberdayaan yang dikenal dengan Pemberdayaan Ekonomi Masyarakat Terpadu (PESAT) yang mencakup program Pesat Sehat dan Produktif, Program Pesat kapasitas Usaha dan Program Pesat Wirausaha Baru dalam rangka untuk meningkatkan kompetensi dan kapasitas pelaku Usaha Mikro, Kecil dan Menengah (UMKM).

bank **bjb** senantiasa melakukan kolaborasi dan sinergi dengan berbagai pihak, baik Pemerintah, BUMN/BUMD maupun swasta. Sebagai mitra strategis Pemerintah Daerah, bank **bjb** terus menebarkan inspirasi kepada setiap generasi dan memantapkan kinerjanya di tengah berbagai tantangan yang dihadapi terutama pandemi COVID-19.

Untuk menjaga pencapaian kinerja bank **bjb** di tahun 2022, dibutuhkan formula yang dituangkan dalam bentuk Arahan Strategi Direksi Tahunan (ASDT) guna menjadi pedoman rencana kerja bagi seluruh unit kerja. Arahan Strategi Direksi Tahunan (ASDT) Tahun 2022 merupakan arahan kebijakan dan strategi yang akan dijalankan selama satu tahun sebagai pedoman bagi seluruh unit kerja dalam menyusun rencana kerja dan anggaran dalam rencana bisnis. Proyeksi Pengembangan SDM Tahun 2022

Dalam pengembangan karir dan kompetensi pegawai, Bank berkomitmen secara berkelanjutan untuk membangun talenta dan memastikan perencanaan suksesi secara berkelanjutan. Untuk itu telah disusun kerangka strategi dengan nama *Human Capital Strategic Plan* (HCSP) yang ditopang oleh 3 Pillars, yaitu *Base Pillars*, *Upright Pillars* dan *Sturdy Pillars*. Untuk Rencana Pengembangan Sumber Daya Manusia tahun 2022, Divisi *Human Capital* telah menyusun rencana pengembangan SDM melalui program akselerasi yang mencakup 3 (tiga) pokok utama yaitu

HR Development Projections in 2022

In developing employee careers and competencies, the Bank committed to continuously developing talent and ensuring sustainable succession planning. For this reason, a strategic framework called the *Human Capital Strategic Plan* (HCSP) was prepared, and it was supported by 3 Pillars, namely the *Base Pillars*, *Upright Pillars* and *Sturdy Pillars*. For the *Human Resources Development Plan* for 2022, the *Human Capital Division* has prepared a HR development plan through an acceleration program that includes 3 (three) main points,

kompetensi, kinerja, serta karir pegawai, adapun program rencana pengembangan sumber daya manusia tahun 2022 sebagai berikut:

1. Branch Manager Development Program (BMDP)

Program pengembangan pegawai di level managerial yang ditujukan bagi *Manager/Pin*. KCP/Pin Grup melalui Pendidikan dan Pelatihan yang bertujuan untuk peningkatan kompetensi dan mempersiapkan pegawai menjadi *successor* pejabat eksekutif di level pemimpin cabang.

2. Staff Development Program (SDP)

Program pengembangan karir yang bertujuan mempersiapkan pegawai yang memiliki kompetensi untuk memenuhi jenjang jabatan di level *officer*.

3. Information Technology and Digital Banking Development Program

Program pengembangan pegawai yang diperuntukan bagi pegawai internal bank **bjb** yang memiliki minat dan kemampuan di bidang *information technology* dan *digital banking* untuk mendukung strategi transformasi *digital* bank **bjb**.

4. Account Officer Development Program (AODP)

Program pengembangan karir yang diperuntukkan bagi para pegawai *level assistant* di bidang bisnis yang dipersiapkan untuk mengisi jabatan-jabatan *critical* di bidang bisnis dan akan berkarir serta memiliki spesialisasi di bidang bisnis.

5. Professional Supporting Development Program (PSDP)

Program pengembangan pegawai dalam rangka pemenuhan kebutuhan pegawai untuk jabatan *Dealer* – Divisi *Treasury* yang sumber kandidat berasal dari pegawai eksisting bank **bjb** baik dari internal Divisi *Treasury* maupun unit kerja lainnya yang memiliki kompetensi dan potensi di bidang *Treasury* khususnya *dealer*.

6. Acceleration Program

Merupakan program akselerasi level *assistant grade 1*, melalui kenaikan grade 1 tingkat dengan tujuan untuk meningkatkan motivasi para pegawai yang berkinerja baik.

7. Manager Development Program (MDP)

Program pengembangan dan percepatan karir yang ditujukan bagi *talent-talent* terbaik bank **bjb** di level *first line management* (minimal level jabatan *officer* di rentang *grade 6-9*) untuk dipersiapkan menjadi calon-calon *manager* yang berkualitas, untuk selanjutnya akan diberikan pendidikan dan pelatihan secara komprehensif serta lebih difokuskan pada area bisnis.

Dalam rangka percepatan peningkatan kompetensi, kinerja dan karir pegawai, beberapa program akselerasi karir masih menjadi *concern* manajemen dalam menjalankan “*strategic talent management*”. Namun untuk mempersiapkan diri dalam menjawab tantangan di era *digital* dan *financial technology* melalui munculnya perusahaan-perusahaan keuangan berbasis teknologi atau *financial technology (fintech)*, mendorong industri perbankan untuk melakukan digitalisasi dan inovasi dalam teknologi khususnya transaksi.

namely competence, performance, and employee careers, while the human resource development plan program for 2022 is as follows:

1. Branch Manager Development Program (BMDP)

Employee development program at Managerial Level aimed at Managers/Pins. KCP/PinGroup through Education and Training which aims to increase competence and prepare employees to become Successors of Executive Officers at Branch Manager Level.

2. Staff Development Program (SDP)

A career development program that aims to prepare competent employees to fulfill positions at the officer level.

3. Information Technology and Digital Banking Development Program

Employee development program intended for bank **bjb** internal employees who have interests and abilities in the fields of Information Technology and Digital Banking to support bank **bjb**'s Digital Transformation strategy.

4. Account Officer Development Program (AODP)

A career development program intended for assistant level employees in the business field who are prepared to fill critical positions in the business field and will have a career and specialize in the business field.

5. Professional Supporting Development Program (PSDP)

6. Acceleration Program

It is an acceleration program for grade 1 assistant level, through grade 1 level increase with the aim of increasing the motivation of employees who perform well.

7. Manager Development Program (MDP)

Career development and acceleration program aimed at bank **bjb**'s best talents at the first line management level (at least officer level in the grade 6-9) range to be prepared to become qualified candidates for managers, for further comprehensive education and training more focused on the business area.

In order to accelerate the improvement of employee competence, performance and career, several programs of career accelerations still become a management concern in carrying out “*strategic talent management*”. However, the preparation to answer challenges in the digital era and financial technology was through the emergence of technology-based financial companies or financial technology (*fintech*), encourage the banking industry to digitize and innovate in technology, especially transactions.

Dalam merespon hal tersebut, bank **bjb** sebagai Bank Nasional perlu untuk mempersiapkan sekaligus meningkatkan kemampuan para ahli teknologi yang ada, bank **bjb** telah melaksanakan program pengembangan internal di bidang *Information and Technology* melalui *Information Technology Development Program* (ITDP) agar memiliki kemampuan yang setara dengan pasar dan dapat bersaing dengan industri perbankan maupun perusahaan berbasis teknologi atau *Financial Technology* (Fintech).

Selain itu, guna mengoptimalkan penyerapan potensi transaksi *treasury* dan pasar modal serta peningkatan dan percepatan kuantitas serta kualitas sumber daya manusia pada bidang *treasury*, bank **bjb** melaksanakan *dealer treasury program* dengan harapan menciptakan SDM yang unggul, handal dan tangguh yang mampu menjawab tantangan persaingan bisnis yang semakin kompleks.

In response to this, bank **bjb** as a National Bank needs to prepare and improve the capabilities of existing technology experts, bank **bjb** has implemented an internal development program in the field of *Information and Technology* through the *Information Technology Development Program* (ITDP) in order to have capabilities equivalent to the market and can compete with the banking industry and technology-based companies or *Financial Technology* (Fintech).

In addition, in order to optimize the absorption of potential treasury transactions and the capital market as well as to increase and accelerate the quantity and quality of human resources in the treasury sector, bank **bjb** implements a *dealer treasury program* with the hope of creating superior, reliable and resilient human resources capable of responding to the challenges of increasingly competitive business. complex.

Transaksi material adalah setiap transaksi yang dilakukan oleh Perusahaan Terbuka atau Perusahaan Terkendali yang memenuhi batasan nilai sebagaimana diatur dalam Peraturan Otoritas Jasa Keuangan (POJK) No.17/POJK.04/2020 Tentang Transaksi Material dan Perubahan Kegiatan Usaha.

Material Information Containing Conflict of Interest and/or Transactions With Affiliated Parties

A material transaction is any transaction made by a Public Company or a Controlled Company that meets the value limit as stipulated in the Financial Services Authority Regulation (POJK) No.17/POJK.04/2020 concerning Material Transactions and Changes in Business Activities.

Lingkup Transaksi:

Perusahaan Terbuka yang melakukan Transaksi Material dalam:

- a. 1 (satu) kali transaksi; atau
- b. Suatu rangkaian transaksi untuk suatu tujuan atau kegiatan tertentu, wajib memenuhi ketentuan sebagaimana diatur dalam POJK No.17/POJK.04/2020.

Scope of Transaction:

Public Company that conducts Material Transactions in:

- a. 1 (one) transaction; or
- b. A series of transactions for a specific purpose or activity, must comply with the provisions as stipulated in POJK No.17/POJK.04/2020.

Batasan Nilai:

- (1) Suatu transaksi dikategorikan sebagai Transaksi Material apabila nilai transaksi sama dengan 20% (dua puluh persen) atau lebih dari ekuitas Perusahaan Terbuka.
- (2) Transaksi berupa perolehan dan pelepasan atas perusahaan atau segmen operasi dikategorikan sebagai Transaksi Material dalam hal:
 - a. Nilai transaksi sama dengan 20% (dua puluh persen) atau lebih dari ekuitas Perusahaan Terbuka;
 - b. Total aset yang menjadi objek transaksi dibagi total aset Perusahaan Terbuka nilainya sama dengan atau lebih dari 20% (dua puluh persen);
 - c. Laba bersih objek transaksi dibagi dengan laba bersih Perusahaan Terbuka nilainya sama dengan atau lebih dari 20% (dua puluh persen); atau
 - d. Pendapatan usaha objek transaksi dibagi dengan pendapatan usaha Perusahaan Terbuka nilainya sama dengan atau lebih dari 20% (dua puluh persen).

Value Limitation:

- (1) A transaction is categorized as a Material Transaction if the transaction value is equal to 20% (twenty percent) or more of the equity of the Public Company.
- (2) Transactions in the form of acquisitions and disposals of companies or operating segments are categorized as Material Transactions in terms of:
 - a. The transaction value is equal to 20% (twenty percent) or more of the equity of the Public Company;
 - b. The total assets that are the object of the transaction divided by the total assets of the Public Company are equal to or more than 20% (twenty percent);
 - c. The net profit of the object of the transaction is divided by the net profit of the Public Company whose value is equal to or more than 20% (twenty percent); or
 - d. The operating income of the object of the transaction is divided by the operating income of the Public Company whose value is equal to or more than 20% (twenty percent).

(3) Dalam hal transaksi sebagaimana dimaksud pada (1) dan (2) dilakukan oleh Perusahaan Terbuka yang mempunyai ekuitas negatif, transaksi dikategorikan sebagai Transaksi Material apabila nilai transaksi sama dengan 10% (sepuluh persen) atau lebih dari total aset Perusahaan Terbuka.

Transaksi Benturan Kepentingan

Berdasarkan POJK Nomor 42/POJK.04/2020 Tentang Transaksi Afiliasi dan Transaksi Benturan Kepentingan yang di maksud benturan kepentingan adalah perbedaan antara kepentingan ekonomis perusahaan terbuka dengan kepentingan ekonomis pribadi anggota Direksi, anggota Dewan Komisaris, Pemegang Saham Utama, atau Pengendali yang dapat merugikan Perusahaan Terbuka dimaksud.

Transaksi benturan kepentingan adalah transaksi yang dilakukan oleh perusahaan terbuka atau perusahaan terkendali dengan setiap pihak, baik dengan afiliasi maupun pihak selain afiliasi yang mengandung benturan kepentingan.

bank **bjb** telah memiliki pedoman benturan kepentingan untuk dapat menangani situasi benturan kepentingan yang dihadapi, dalam rangka menjalankan kegiatan usaha Bank yang ditetapkan melalui Surat Keputusan Direksi nomor 1217/SK/DIR-KP/2015 tanggal 28 Desember 2015 tentang Pedoman Benturan Kepentingan, Surat Keputusan Direksi nomor 0077/SK/DIR-CS/2019 tanggal 14 Januari 2019 tentang Kebijakan Tata Tertib Kerja Direksi, Surat Keputusan Dewan Komisaris nomor 10/SK/DKO/2019 tanggal 04 Desember 2019 tentang Pedoman dan Tata Tertib Kerja Dewan Komisaris.

Setiap pegawai Bank yang berpotensi atau telah berada dalam situasi benturan kepentingan wajib membuat laporan mengenai situasi Benturan Kepentingan yang akan/sedang dihadapinya, melalui surat deklarasi yang disampaikan kepada pihak pengelola situasi Benturan Kepentingan untuk kemudian diberikan rekomendasi. Selain itu seluruh pengungkapan yang tertuang di dalam laporan mengenai situasi Benturan Kepentingan dan rekomendasi yang diberikan atas pengungkapan situasi Benturan Kepentingan tersebut ditembuskan kepada Divisi Kepatuhan dan APU PPT untuk dilakukan pemantauan dan evaluasi terhadap implementasi atas pengelolaan Benturan Kepentingan di lingkungan bank **bjb**.

1. Penyusunan Surat Edaran Otoritas Jasa Keuangan tentang Pedoman Perhitungan Aset Tertimbang Menurut Risiko untuk Risiko Kredit dengan Menggunakan Pendekatan Standar bagi Bank Umum (SEOJK ATMR Risiko Kredit) dilatarbelakangi oleh adanya revisi standar pemenuhan modal minimum untuk risiko kredit sebagaimana diatur dalam standar Basel III: Finalising postcrisis reforms (Basel III Reforms) yang diterbitkan oleh <i>Basel Committee on Banking Supervision</i> (BCBS). Standar dimaksud berlaku secara internasional sejak 1 Januari 2023. 2. Dalam SEOJK ATMR Risiko Kredit diatur mengenai tata cara perhitungan ATMR Risiko Kredit dengan menggunakan pendekatan standar, yang antara lain mencakup perhitungan tagihan bersih, penetapan bobot risiko sesuai kategori portofolio, serta pengakuan teknik mitigasi risiko kredit. 3. Terdapat perubahan dalam rangka meningkatkan ketahanan permodalan dan sensitivitas terhadap risiko yang tercermin dari beberapa hal berikut: a. Bobot risiko lebih granular dan dibagi menjadi lebih banyak bucket; b. Terdapat klasifikasi kategori portofolio yang lebih beragam; dan c. Terdapat keharusan due diligence terhadap pihak lawan untuk memastikan pemahaman atas profil risiko dan karakteristik dari pihak lawan serta telah dikenakan bobot risiko yang sesuai (tidak hanya bergantung pada peringkat eksternal) 4. ATMR Risiko Kredit dengan menggunakan pendekatan standar sesuai SEOJK ini pertama kali diperhitungkan dalam rasio KPMM sejak 1 Januari 2023. 1. The preparation of the Financial Services Authority Circular Letter concerning Guidelines for Calculation of Risk-Weighted Assets for Credit Risk Using the Standard Approach for Commercial Banks (SEOJK RWA Credit Risk) was motivated by the revision of the minimum capital fulfillment standards for credit risk as stipulated in the Basel III standard: Finalizing postcrisis reforms (Basel III Reforms) issued by the Basel Committee on Banking Supervision (BCBS). The standard is valid internationally since January 1, 2023. 2. In the SEOJK Credit Risk RWA, it is regulated on the procedure for calculating Credit Risk RWA using a standard approach, which includes calculating net receivables, determining risk weights according to portfolio category, as well as recognizing credit risk mitigation techniques. 3. There are changes in order to increase capital resilience and sensitivity to risk as reflected in the following: a. Risk weights are more granular and are divided into more buckets; b. There is a more diverse classification of portfolio categories; and c. There is a need for due diligence on the counterparty to ensure an understanding of the risk profile and characteristics of the counterparty and has been subjected to an appropriate risk weighting (not only dependent on external ratings) 4. RWA Credit Risk using the standard approach in accordance with SEOJK was first calculated in the CAR ratio since January 1, 2023. Per akhir Desember 2021, modal inti bank **bjb** (*audited*) mencapai Rp11,45 triliun (individu) Rp12,56 triliun (konsolidasi) dan berada pada kategori KBMI 2. Strategi permodalan yang efektif, kuat dan efisien telah menjadi fokus manajemen seiring dengan terus bertumbuhnya bank **bjb** menjadi bank yang semakin besar dan semakin kuat.

Several regulatory developments that significantly affect the operational and business conditions of bank **bjb** going forward are reflected in the issuance of Financial Services Authority Regulation Number 12/POJK.03/2021 concerning Commercial Banks. Based on the POJK, bank **bjb**, which was previously in the category of Commercial Banks based on Business Activities (BUKU) III, becomes Bank Group Based on Core Capital (KBMI) 2 (Banks with Core Capital of more than IDR6 trillion to IDR14 trillion). The inclusion of bank **bjb** core capital in the KBMI 2 category makes the business activities that can be carried out by bank **bjb** become wider, and can increase customer confidence in carrying out banking activities through bank **bjb**. As of the end of December 2021, bank **bjb**'s core capital (*audited*) reached IDR11.45 trillion (Bank Only) IDR12.56 trillion (consolidated) and was in the KBMI 2 category. An effective, strong and efficient capital strategy has become the focus of management in line with continued growth bank **bjb** is becoming a bigger and stronger bank.

Komponen permodalan bank **bjb** didominasi oleh komponen permodalan yang bersifat permanen, dimana komponen modal inti merupakan komponen terbesar dalam struktur permodalan bank. Pada posisi bulan Desember 2021, rasio modal inti bank **bjb** baik secara individual dan konsolidasi terhadap total ATMR bank mencapai 17,89% dan 18,07%. Rasio tersebut berada diatas ketentuan yang ditetapkan oleh Bank Indonesia dengan batasan minimum yaitu 6% baik secara individual maupun konsolidasi. Perhitungan rasio modal inti utama (*Common Equity Tier 1 Ratio*) terhadap total ATMR bank baik secara individual dan konsolidasi di bulan Desember 2021 mencapai 13,87% dan 14,25% yang berada di atas ketentuan yang telah ditetapkan Bank Indonesia dengan batasan minimum yaitu 4,50%.

Kecukupan Permodalan

Sebagai salah satu pengungkapan Basel II Pilar III, Otoritas Jasa Keuangan telah menerbitkan Surat Edaran Otoritas Jasa Keuangan Nomor 26/SEOJK.03/2016 tanggal 14 Juli 2016 perihal Kewajiban Penyediaan Modal Minimum sesuai Profil Risiko dan Pemenuhan *Capital Equivalency Maintained Assets* (CEMA). Sehubungan hal tersebut, bank **bjb** telah mengembangkan dan menerapkan metodologi untuk penerapan *Internal Capital Adequacy Assessment Process* (ICAAP) dimana metodologi tersebut telah dibahas dan disetujui dalam Komite Manajemen Risiko bank **bjb**. Laporan rasio kecukupan penyediaan modal minimum sesuai Profil Risiko dilaporkan secara berkala kepada Dewan Komisaris dan Direksi sebagai salah satu bentuk kepatuhan terhadap ketentuan Surat Edaran Otoritas Jasa Keuangan tersebut.

Pengukuran internal yang dilakukan bank **bjb** telah memperhitungkan Pilar I dan Pilar II yaitu rasio kecukupan modal bank minimum sesuai profil risiko baik secara individual maupun konsolidasi di bulan Desember 2021 mencapai 9,23% dimana hasil pengukuran profil risiko bank pada periode tersebut berada pada level peringkat komposit *Low to Moderate*. Pada posisi bulan Desember 2021, rasio kecukupan

The capital component of bank **bjb** was dominated by a permanent capital component, in which the core capital component was the largest component in the bank's capital structure. In the position in December 2021, the ratio of bank **bjb**'s core capital both individually and consolidated to the bank's total RWA reached 17.89% and 18.07%, respectively. This ratio was above the provisions set by Bank Indonesia with a minimum limit of 6%, both individually and on a consolidated basis. The calculation of the main core capital ratio (*Common Equity Tier 1 Ratio*) to the total RWA of banks both individually and consolidated in December 2021 reached 13.87% and 14.25%, above the provisions set by Bank Indonesia with a minimum limit of 4.50%.

Adequacy of Capital

As one of the Basel II Pillar III disclosures, the Financial Services Authority has issued a Financial Services Authority Circular Letter Number 26/SEOJK.03/2016 dated July 14, 2016 concerning Minimum Capital Requirements in accordance with Risk Profile and Fulfillment of Capital Equivalency Maintained Assets (CEMA). In this regard, bank **bjb** has developed and implemented a methodology for implementing the Internal Capital Adequacy Assessment Process (ICAAP) where the methodology has been discussed and approved in bank **bjb**'s Risk Management Committee bank **bjb**. The report on the minimum capital adequacy ratio in accordance with the Risk Profile is reported regularly to the Board of Commissioners and Directors as a form of compliance with the provisions of the Financial Services Authority Circular.

Internal measurements carried out by bank **bjb** considered Pillar I and Pillar II, namely the minimum bank capital adequacy ratio according to the risk profile both individually and consolidated in December 2021 reaching 9.23% in which the results of the measurement of the bank's risk profile for that period were at the composite Low to Moderate rating level. In the position in December 2021, the

modal minimum bank baik secara individual sebesar 17,91% serta konsolidasi sebesar 18,08% sehingga rasio kecukupan modal bank tersebut berada diatas ketentuan rasio kecukupan modal bank minimum sesuai profil risiko bank yaitu 9,24%.

Sejalan telah diterbitkannya POJK Nomor 11/POJK.03/2016 tanggal 29 Januari 2016 perihal Kewajiban Penyediaan Modal Minimum Bank Umum, saat ini bank **bjb** telah mempersiapkan infrastruktur yang baik dan efektif dalam rangka memastikan implementasi POJK tersebut tidak mengganggu ekspansi bisnis dan aktivitas operasional bank **bjb**. Sesuai POJK tersebut, bank harus menyediakan rasio kecukupan modal minimum sesuai profil risiko bank ditambah dengan *Capital Conservation Buffer*, *Countercyclical Buffer* dan *Capital Surcharge* untuk *Domestic Systemically Important Bank* (D-SIB). *Capital Conservation Buffer* tersebut diperlukan oleh bank sebagai upaya penyangga (*buffer*) dalam menghadapi kerugian akibat kondisi krisis, sedangkan *Countercyclical Buffer* dibutuhkan bank sebagai tambahan modal penyangga untuk mengantisipasi kerugian apabila terjadi pertumbuhan kredit perbankan yang berlebihan sehingga berpotensi mengganggu stabilitas sistem keuangan.

bank **bjb** selalu melakukan perbaikan dan pengembangan baik dari segi produk dan jasa serta peningkatan infrastruktur manajemen risiko bank **bjb** melalui analisis yang komprehensif disertai dengan riset yang memadai sehingga dapat menjaga agar aktivitas bisnis dan operasional bank **bjb** tetap *prudent* dan berada dalam batas toleransi risiko bank **bjb**. Selain itu pula, bank **bjb** telah menetapkan *risk appetite* dan *risk tolerance* agar kecukupan permodalan yang dimiliki bank **bjb** masih memadai dan mampu mengcover kerugian ataupun potensi risiko kerugian yang timbul dari aktivitas operasional bank **bjb**.

Pengelolaan modal risiko kredit bank **bjb** berpedoman pada Surat Edaran Otoritas Jasa Keuangan Nomor 42/SEOJK.03/2016 tanggal 28 September 2016 perihal Pedoman Perhitungan Aset Tertimbang Menurut Risiko untuk Risiko Kredit dengan Menggunakan Pendekatan Standar. Penetapan bobot risiko pada perhitungan ATMR mengacu kepada bobot risiko sesuai ketentuan Otoritas Jasa Keuangan dimaksud.

Dalam mengukur ATMR Risiko Pasar, bank **bjb** masih mempergunakan format *standardized method* yang meliputi perhitungan risiko suku bunga dan risiko nilai tukar. Sesuai dengan pedoman yang ditetapkan oleh Bank Indonesia, risiko pasar yang wajib dihitung oleh Bank adalah risiko suku bunga di *trading book* dan risiko nilai tukar di *trading book* dan *banking book*. Sebagai upaya ke tahap pengembangan internal model, bank **bjb** telah memiliki sistem informasi OPICS Risk yang berfungsi dalam mengukur *Value at Risk*, dan sensitivitas risiko dari *portfolio dealing room* untuk setiap efek yang dikategorikan ke dalam *Trading Book*.

Perhitungan kecukupan modal risiko operasional masih menggunakan metode *basic indicator approach* (BIA) yang dilakukan sesuai dengan ketentuan dari regulator. Berdasarkan metode tersebut, Perusahaan mengalokasikan modal minimum untuk risiko operasional berdasarkan *historical data* yaitu sebesar rata-rata dari

minimum capital adequacy ratio for banks both individually was 17.91%, and consolidated was 18.08% so that the bank's capital adequacy ratio was above the minimum bank capital adequacy ratio according to the bank's risk profile, namely 9.24%.

In line with the issuance of POJK Number 11/POJK.03/2016 dated January 29, 2016 concerning the Minimum Capital Requirement for Commercial Banks, currently bank **bjb** has prepared a good and effective infrastructure in order to ensure the implementation of the POJK does not disrupt the business expansion and operational activities of bank **bjb**. In accordance with the POJK, banks must provide a minimum capital adequacy ratio according to bank **bjb**'s risk profile plus a Capital Conservation Buffer, Countercyclical Buffer and Capital Surcharge for D-SIB (Domestic Systemically Important Bank). The Capital Conservation Buffer is needed by banks as a buffering effort in dealing with losses due to crisis conditions, while the Countercyclical Buffer is needed by banks as additional buffer capital to anticipate losses in the event of excessive bank credit growth that has the potential to disrupt financial system stability.

bank **bjb** always makes improvements and developments both in terms of products and services as well as improving bank **bjb**'s risk management infrastructure through comprehensive analysis accompanied by adequate research so that it can maintain activities bank **bjb**'s business and operations remain prudent and are within the limits of bank risk tolerance. In addition, bank **bjb** has determined risk appetite and risk tolerance so that the capital adequacy of bank **bjb** is still sufficient and able to cover losses or potential risk of losses arising from bank operational activities.

The management of bank **bjb** credit risk is guided by the Financial Services Authority Circular Letter Number 42/SEOJK.03/2016 dated 28 September 2016 concerning Guidelines for Calculating Risk Weighted Assets for Risk for Credit Risk by Using a Standardized Approach. The determination of risk weight in the calculation of RWA refers to the risk weight in accordance with the provisions of the Financial Services Authority in question.

In measuring Market Risk RWA, banks still use the standardized method format which includes the calculation of interest rate risk and exchange rate risk. In accordance with the guidelines set by Bank Indonesia, market risks that must be calculated by bank **bjb** are interest rate risk in the trading book and exchange rate risk in the trading book and banking book. As an effort to develop the internal model, bank **bjb** has an OPICS Risk information system that functions in measuring Value at Risk, and risk sensitivity from dealing room portfolio for each securities categorized in the Trading Book.

Calculation of capital adequacy for operational risk still uses the Basic Indicator Approach (BIA) method which is carried out in accordance with the provisions of the regulator. Based on this method, bank **bjb** allocates a minimum capital for operational risk based on historical data, which is the average of the total

penjumlahan pendapatan bruto (*gross income*) tahunan selama 3 (tiga) tahun terakhir (yang positif) dikali tarif yang berlaku yaitu 15%. Perhitungan kecukupan modal risiko operasional tersebut menjadi dasar dalam perhitungan ATMR Risiko Operasional.

annual gross income for the last 3 (three) years (positive) times the applicable tariff of 15%. The calculation of operational risk capital adequacy is the basis for calculation of Operational Risk RWA.

Praktik Manajemen Risiko

Risk Management Practices

Pengungkapan Eksposur Risiko dan Penerapan Manajemen Risiko

Risiko Kredit

bank **bjb** menerapkan proses yang ketat pada setiap penyusunan maupun perubahan atas setiap ketentuan internal bank. Penyusunan maupun perubahan atas KPB, SOP, Pedoman, maupun Petunjuk Teknis perkreditan dilakukan melalui tahapan berjenjang yang dimulai dari pembahasan pada level teknis hingga melalui persetujuan Direksi. bank **bjb** juga telah memiliki standar baku dalam alur penyusunan ketentuan sehingga dapat menghasilkan kualitas yang baik. Setiap penyusunan maupun perubahan atas Kebijakan, SOP, Pedoman dan Petunjuk Teknis perkreditan senantiasa melalui pembahasan bersama Divisi yang terkait sehingga memenuhi kecukupan identifikasi dan mitigasi risiko serta ketentuan yang berlaku.

bank **bjb** saat ini telah memiliki *portfolio guideline* serta menetapkan (*risk appetite*) dan toleransi risiko (*risk tolerance*) berdasarkan pertimbangan kekuatan permodalan serta target pendapatan kredit. Tingkat risiko yang akan diambil (*risk appetite*) merupakan tingkat dan jenis risiko yang bersedia diambil oleh Bank dalam rangka mencapai sasaran Bank. Toleransi risiko (*risk tolerance*) merupakan tingkat dan jenis risiko yang dapat di tolerir secara maksimum ditetapkan oleh Bank. Toleransi risiko menjadi penjabaran dari tingkat risiko yang akan diambil.

Adapun terkait dengan limit kewenangan memutus kredit, saat ini bank **bjb** telah menerapkan mekanisme keputusan kredit secara berjenjang sesuai dengan tingkat risiko yang tercermin dari plafond pengajuan fasilitas kredit.

Kecukupan Proses Identifikasi, Pengukuran, Pemantauan, dan Pengendalian Risiko, serta Sistem Informasi Manajemen Risiko

Dalam analisa kredit, bank **bjb** telah menerapkan proses identifikasi atas potensi risiko yang melekat. Proses identifikasi tersebut menjadi lebih optimal dengan dibentuknya Divisi Credit Risk yang khusus melaksanakan review dan analisa lanjutan atas proses pengajuan fasilitas kredit yang telah disusun oleh bagian bisnis.

Sebagai bentuk identifikasi atas risiko kredit, bank **bjb** telah mengembangkan adanya kajian independen yang berisi analisa atas perkembangan portofolio kredit, *Non Performing Loan* (NPL), *Root Cause Credit* serta prediksi perkembangan kualitas kredit dengan mempertimbangkan kesiapan infrastruktur pendukungnya.

Disclosure of Risk Exposures and Application of Risk Management

Credit Risk

bank **bjb** applies a strict process for each preparation and amendment to each bank's internal regulations. The preparation and amendment to the KPB, the Guidelines and credit SOPs are carried out through a tiered phase which starts from discussion at the technical level to through the approval of the Directors. bank **bjb** also owned a standard in the flow of provisions so that it could produce good quality. Every preparation or amendment to policies, SOPs, guidelines and technical guidelines for credit was always discussed with the relevant divisions so as to meet the adequacy of risk identification and mitigation as well as applicable regulations.

bank **bjb** has now set (risk appetite) and risk tolerance (risk tolerance) based on consideration of capital strength and credit income targets. The level of risk to be taken (risk appetite) is the level and type of risk that is willing to be taken by bank **bjb** in order to achieve bank **bjb**'s goals. Risk tolerance is the level and type of risk that is maximally determined by bank **bjb**. Risk Tolerance is the translation of the level of risk to be taken.

As for the credit limit, bank **bjb** has implemented a tiered credit decision mechanism in accordance with the level of risk that is reflected in the credit facility ceiling.

Adequacy of the Risk Identification, Measurement, Monitoring and Control Process, And The Risk Management Information System

In the credit analysis, bank **bjb** has implemented a process of identifying potential inherent risks. The identification process has become more optimal with the formation of a Credit Risk Division that specializes in carrying out further reviews and analysis of the credit facility application process prepared by the business department.

As a form of identification of credit risk, bank **bjb** has developed an independent study that contains an analysis of the development of credit portfolios, Non-Performing Loans (NPLs), Root Cause Credit and predictions of credit quality development by considering the readiness of supporting infrastructure

Dalam melakukan pengukuran risiko, bank **bjb** mengembangkan model risiko kredit melalui penggunaan *Internal Credit Risk Rating* (ICRR) dan *Internal Credit Risk Scoring* (ICRS) pada setiap pengajuan kredit.

Adapun *rating* dan *scoring* yang dimiliki oleh bank **bjb** meliputi:

- Segmen Korporasi dan Komersial
- Segmen Konsumer
- Segmen UMKM
- Segmen KPR

ICRR adalah suatu alat bantu dalam mengukur risiko kredit dalam bentuk suatu model yang digunakan untuk memprediksi tingkat kemungkinan kegagalan pembayaran oleh debitur atas fasilitas kredit yang diberikan. ICRR Mengklasifikasikan entitas perusahaan/korporasi secara sistematis ke dalam suatu kelas risiko (*grading* atau peringkat). Penggunaan ICRR bertujuan untuk menentukan peringkat bagi debitur yang mencerminkan besaran *Probability of Default* (PD). Debitur dengan rating terbaik memiliki *Probability of Default* yang mendekati nol. Adapun untuk kredit dengan *rating* lebih rendah, akan memiliki *Probability of Default* yang meningkat

Tingkatan rating debitur dinyatakan dengan huruf yang meliputi 20 (dua puluh) peringkat berbeda yaitu:

In measuring risk, bank **bjb** develops a credit risk model through the use of the *Internal Credit Risk Rating* (ICRR) and *Internal Credit Risk Scoring* (ICRS) for each credit application.

The rating and scoring owned by bank **bjb** include:

- Corporate and Commercial Segments
- Consumer Segment
- MSME segment
- KPR segment

ICRR is a tool in measuring credit risk in the form of a model used to predict the likelihood of payment defaults by debtors on credit facilities provided. ICRR Classifies systematic corporate/corporate entities into a risk class (*grading* or rating). The use of ICRR aims to determine the rating for debtors that reflects the amount of *Probability of Default* (PD). Debtors with the best rating have a *Probability*.

Debtor rating levels are stated in letters covering 20 (twenty) different ratings, namely:

Rating	Keterangan/Description
AAA	<i>Outstanding</i>
AA+	<i>Strong</i>
AA	<i>Strong</i>
AA-	<i>Strong</i>
A+	<i>Good</i>
A	<i>Good</i>
A-	<i>Good</i>
BBB+	<i>Average</i>
BBB	<i>Average</i>
BBB-	<i>Average</i>
BB+	<i>Acceptable</i>
BB	<i>Acceptable</i>
BB-	<i>High Risk</i>
B+	<i>High Risk</i>
B	<i>Watch List</i>
B-	<i>Watch List</i>

Rating	Keterangan/Description
CCC+	<i>Special Mention</i>
CCC	<i>Special Mention</i>
CCC-	<i>Substandard</i>
D	<i>Doubtful</i>

Adapun penerapan ICRS menjadi suatu alat bantu rekomendasi keputusan persetujuan atau penolakan atas pengajuan fasilitas kredit. Dengan menggunakan ICRS maka Bank dapat memproses kredit dengan lebih baik, obyektif dan standar, serta dengan waktu proses relatif lebih cepat.

Sebagai bentuk lain dari pengukuran risiko kredit, bank **bjb** telah melakukan estimasi kerugian yang telah diperkirakan (*Expected Loss*) serta besar kerugian yang tidak diperkirakan (*Unexpected Loss*). *Expected Loss* (EL) adalah besaran kerugian secara statistik yang diperkirakan timbul secara rata-rata dari perkiraan kerugian yang secara umum terjadi. EL didapatkan dari perhitungan Eksposur pada saat *default* (EAD), kerugian pada saat default (LGD) dan probabilitas terjadinya default (PD), yang diestimasi dari data probabilitas *default* secara historis. Sementara itu *Unexpected Loss* (UL) merupakan deviasi dari rata-rata kerugian. Perhitungan UL diperoleh dari data volatilitas secara historis (*historical volatility*) atas data *default*.

bank **bjb** juga telah mengembangkan proses pemantauan risiko yang dilakukan secara berkala melalui penerbitan laporan *Root Cause of Credit Risk* (RCCR) yang disampaikan kepada Direksi dan seluruh Divisi terkait. Laporan *Root Cause of Credit Risk* (RCCR) berisi analisa perkembangan portofolio beserta kualitas kreditnya, serta tingkat konsentrasi kredit baik berdasarkan sektor ekonomi, maupun debitur inti. Melalui laporan ini bank **bjb** mengembangkan mekanisme identifikasi berkala atas potensi penurunan kualitas suatu portofolio kredit sehingga menjadi masukan dalam penyusunan strategi Manajemen Risiko. Dengan demikian maka penanganan atas kemungkinan penurunan kualitas portofolio kredit dapat segera ditindaklanjuti sehingga menjadi *Early Warning Signal* (EWS).

Disamping itu bank **bjb** secara berkala melakukan analisa *stress test* yang meliputi beberapa skenario utama yaitu:

- **Portfolio Concentration Stress Test (Specific Market Crisis)**
Perhitungan *stress test* dengan pendekatan portfolio concentration bertujuan untuk menghitung perubahan *Probability of Default* (PD) yang diakibatkan memburuknya kolektibilitas seluruh kredit.
- **Macro Economy Stress Test (General Market Crisis)**
Perhitungan *stress test* dengan menggunakan analisa makro ekonomi bertujuan untuk mengetahui perubahan *Probability of Default* (PD) yang disebabkan oleh adanya pergerakan Kurs USD/IDR, perubahan Suku Bunga Acuan, serta perubahan Tingkat Inflasi dan Gross Domestic Product (GDP).

The application of ICRS becomes a decision of approval or rejection of credit facility applications. By using ICRS, bank **bjb** can process credit better, objectively and standards, and with a relatively faster processing time.

As another form of credit risk measurement, bank **bjb** has estimated the estimated loss (*Expected Loss*) as well as the amount of an unexpected loss (*Unexpected Loss*). *Expected Loss* (EL) is the amount of a statistically estimated loss arising on average from the estimated losses that generally occur. EL is obtained from the calculation of Exposure at the time of default (EAD), losses at the time of default (LGD) and probability of occurrence of default (PD), which is estimated from historical default probability data. Meanwhile *Unexpected Loss* (UL) is the deviation from the average loss. UL calculations are obtained from historical volatility data on default data.

bank **bjb** has also developed a risk monitoring process that is carried out periodically through the issuance of the *Root Cause of Credit Risk* (RCCR) report submitted to the Directors and all relevant Divisions. The *Root Cause of Credit Risk* (RCCR) report contains an analysis of the development of the portfolio and its credit quality, as well as the level of credit concentration based on the economic sector and core debtors. Through this report bank **bjb** develops a periodic identification mechanism for the potential deterioration in the quality of a credit portfolio so that it becomes input in the preparation of a Risk Management strategy. Thus, the handling of the possibility of decreasing the quality of the loan portfolio can be immediately followed up so that it becomes an *Early Warning Signal* (EWS).

Besides this, bank **bjb** regularly conducts *stress test* analysis which covers several main scenarios, namely:

- **Portfolio Concentration Stress Test (Specific Market Crisis)**
Calculation of stress tests using the portfolio concentration approach aims to calculate changes in *Probability of Default* (PD) resulting from the deteriorating collectibility of all loans.
- **Macro Economy Stress Test (General Market Crisis)**
Calculation of stress tests using macroeconomic analysis aims to determine changes in *Probability of Default* (PD) caused by movements in the USD/IDR exchange rate, changes in Reference Interest Rates, as well as changes in the Inflation Rate and Gross Domestic Product (GDP).

- **Reverse Stress Test**

Apabila pada pelaksanaan *stress test* pada umumnya bertujuan untuk menghitung dampak perubahan makro ekonomi yang telah ditentukan sebelumnya terhadap perubahan nilai NPL, *Profit and Loss* serta CAR, dan Aktiva Tertimbang Menurut Risiko (ATMR) maka perhitungan *stress test* dengan skenario *reverse* bertujuan untuk mengetahui perubahan kondisi makro ekonomi yang berdampak pada penurunan nilai CAR hingga berada di bawah ketentuan.

- **Bottom Up Stress Test**

bank **bjb** secara berkala melakukan *stress test* ketahanan permodalan bank dimana pada tahun 2021, bank **bjb** terlibat dalam penyusunan *Bottom Up Stress Test* (BUST). Pelaksanaan *stress test* dilakukan dengan pendekatan kategori portfolio level dan bertujuan untuk menghitung pengaruh kondisi *shock* makro ekonomi terhadap peningkatan PD (*Probability of Default*) secara *bankwide* serta pencapaian laba dan permodalan bank. Pelaksanaan perhitungan menggunakan *satellite model* yang meliputi baik kredit produktif maupun kredit non-produktif pada seluruh sektor ekonomi. *Satellite model* tersebut merupakan perhitungan regresi *multiple* yang menghubungkan kondisi makro ekonomi sebagai *independent variable* dan PD sebagai *dependent variable*. Disamping itu, dengan memperhatikan perkembangan penyebaran COVID-19 secara global yang berdampak mengganggu kinerja perbankan, bank **bjb** telah melaksanakan uji ketahanan (*stress test*) dengan beberapa skenario *stress test* yang berdampak kepada kinerja bank, diantaranya pengaruh melemahnya nilai tukar Rupiah akibat COVID-19, penurunan kolektibilitas debitur Korporasi & Komersial yang terdampak COVID-19 serta beberapa debitur yang akan direstrukturisasi terkait stimulus COVID-19. Adapun berdasarkan hasil perhitungan *stress test* diketahui bahwa perubahan aspek eksternal tersebut tidak berdampak secara signifikan terhadap penurunan *Capital Adequacy Ratio* (CAR) sehingga dapat dikatakan bahwa permodalan cukup memadai dalam menghadapi gejala perubahan faktor eksternal.

Sistem Pengendalian Intern yang Menyeluruh

bank **bjb** telah memiliki sistem pengendalian intern untuk manajemen risiko kredit dengan berpedoman pada SE OJK Nomor 34/SEOJK.03/2016 tanggal 1 September 2016 Tentang Penerapan Manajemen Risiko bagi Bank umum.

Dalam pelaksanaannya, sistem pengendalian intern untuk risiko kredit mencakup penerapan atas hal-hal sebagai berikut:

- Dipenuhinya kecukupan Kebijakan, Pedoman dan Prosedur bidang perkreditan;
- Dilakukannya *review* oleh unit kerja independen atas rancangan Kebijakan, Pedoman dan Prosedur bidang perkreditan;

- **Reverse Stress Test**

If the implementation of stress tests generally aims to calculate the impact of predetermined macroeconomic changes on changes in the value of NPLs, Profit and Loss and CAR, and Risk Weighted Assets (RWA), the calculation of stress tests with a reverse scenario aims to determine changes in macro conditions economics that have an impact on the decline in the value of the CAR to be below the provisions.

- **Bottom Up Stress Test**

bank **bjb** periodically conducted stress tests on the resilience of bank capital where in 2021, bank **bjb** was involved in the preparation of the Bottom Up Stress Test (BUST). The stress test was carried out using a portfolio level category approach and aimed to calculate the effect of macroeconomic shock conditions on the increase in PD (*Probability of Default*) bankwide and the achievement of bank profits and capital. The calculation was carried out using a satellite model including both productive and non-productive loans in all economic sectors. The satellite model was a multiple regression calculation that related macroeconomic conditions as the independent variable and PD as the dependent variable. In addition, considering the development of the spread of COVID-19 globally which brought an impact on disrupting banking performance, bank **bjb** carried out a stress test with several stress test scenarios that had an impact on bank performance, including the effect of the weakening of the Rupiah exchange rate due to COVID-19, a decrease in the collectibility of Corporate & Commercial debtors affected by COVID-19 as well as several debtors that was restructured due to the COVID-19 stimulus. Meanwhile, based on the results of the stress test calculation, it is known that changes in external aspects did not have a significant impact on the decrease in the Capital Adequacy Ratio (CAR) so that the capital was adequate in dealing with changes in external factors.

Comprehensive Internal Control System

bank **bjb** already has an internal control system for credit risk management based on SE OJK Number 34/SEOJK.03/2016 dated September 1, 2016 concerning Application of Risk Management for commercial banks.

In its implementation, the internal control system for credit risk includes the application of the following matters:

- Fulfillment of the adequacy of Credit Policy, Guidelines and Procedures in the field of credit;
- Conduct a review by an independent work unit on the draft Credit Policy, Guidelines and Procedures;

- Dilakukannya review/kaji ulang atas metode pengukuran risiko oleh Divisi Manajemen Risiko yang mencakup penilaian kesesuaian metode, dan asumsi yang digunakan untuk mengukur risiko;
- Kaji ulang atas kepatuhan Bank terhadap ketentuan internal dan eksternal bidang perkreditan.

Dalam rangka optimalisasi pengendalian intern, maka bank **bjb** juga telah melakukan pemisahan fungsi yang jelas antara unit bisnis dan unit yang melaksanakan pengendalian sehingga bank **bjb** telah menerapkan *segregation of duty* dan *dual control* dalam melakukan keputusan kredit. Pengendalian intern untuk manajemen risiko kredit juga mencakup pengawasan oleh Dewan Komisaris dan Direksi secara berkala melalui pelaporan yang disampaikan oleh Divisi Manajemen Risiko maupun pelaksanaan *Risk Management Committee* (RMC) yang beranggotakan Direksi serta pejabat eksekutif terkait. Adapun pelaksanaan rapat Komite Pemantau Risiko (KPR) telah dilaksanakan secara berkala yang ditujukan untuk memantau perkembangan eksposur risiko kredit sesuai dengan perkembangan terkini.

- Conducting a review/review of the risk measurement method by the Risk Management Division which includes an assessment of the suitability of the method, and the assumptions used to measure risk
- Review bank **bjb**'s compliance with internal and external provisions in the credit sector.

In the context of optimizing internal control, bank **bjb** has also performed a clear separation of functions between business units and units that carry out control so that bank **bjb** has implemented segregation of duty and dual control in making credit decisions. Internal control for credit risk management also includes supervision by the Board of Commissioners and the Directors on a regular basis through reporting submitted by the Risk Management Division and the implementation of the Risk Management Committee (RMC) consisting of Directors and related executive officers. The implementation of Risk Monitoring Committee (KPR) meetings has been held periodically aimed at monitoring the development of credit risk exposures in accordance with the latest developments

Risiko Pasar

Risiko pasar adalah risiko yang timbul atas portfolio pada posisi neraca dan rekening administratif termasuk transaksi derivatif, akibat perubahan secara keseluruhan dari kondisi pasar, termasuk Risiko perubahan harga *option*.

Komponen risiko pasar meliputi:

- Risiko Suku Bunga adalah risiko akibat perubahan harga instrumen keuangan dari posisi *trading book* yang disebabkan oleh pergerakan sensitivitas risiko (*risk factor*) pada setiap instrumen atau akibat perubahan nilai ekonomis modal (*economic value of equity*) Bank dari aktivitas *banking book* yang disebabkan oleh perubahan suku bunga.
- Klasifikasi risiko suku bunga mencakup pula risiko suku bunga dari posisi *banking book* yang antara lain meliputi *repricing risk*, *yield curve risk*, *basis risk*, dan *optionality risk*.
- Risiko nilai tukar adalah risiko akibat perubahan nilai posisi terbuka valuta asing klasifikasi *trading book* atau akibat perubahan posisi devisa neto Bank (*banking book*) yang disebabkan oleh perubahan nilai tukar valuta asing.

Risiko pasar timbul dari pergerakan/perubahan tingkat suku bunga dan/atau nilai tukar yang mempengaruhi posisi keuangan Bank khususnya terhadap rasio permodalan. Secara garis besar, manajemen risiko pasar terbagi menjadi 2 (dua) yaitu manajemen risiko pasar *trading book* dan manajemen risiko pasar *banking book*. Sumber risiko pasar *trading book* timbul dari aktivitas *dealing room* Divisi Treasuri akibat posisi terbuka Bank yang terekspos pergerakan suku bunga atau nilai tukar valuta asing.

Sumber risiko pasar *banking book* timbul antara lain disebabkan oleh perubahan struktur portofolio neraca dan rekening administratif Bank yang sensitif terhadap pergerakan suku bunga sehingga berdampak terhadap pendapatan bunga bersih dan yang disebabkan pula karena perubahan struktur portofolio neraca dan rekening administratif Bank yang sensitif terhadap pergerakan nilai tukar yang tercermin dari posisi devisa neto bank.

Pengawasan Aktif Dewan Komisaris dan Direksi

Dewan Komisaris dan Direksi bertanggungjawab atas efektivitas penerapan manajemen risiko pasar di Bank. Terkait wewenang dan tanggung jawab pengawasan aktif Dewan Komisaris dan Direksi bank **bjb**, Dewan Komisaris dan Direksi selalu memperoleh informasi yang jelas mengenai evaluasi dan penerapan manajemen risiko eksposur risiko pasar, pemantauan limit secara harian serta langkah-langkah yang diambil oleh Risk Taking Unit khususnya terkait adanya pelampauan limit.

Dalam pelaksanaan pengawasannya, Dewan Komisaris dibantu oleh Komite Pemantau Risiko (KPR) Bank secara berkala melakukan pengawasan melalui koordinasi dengan satuan kerja manajemen

Market Risk

Market Risk is the risk arising from the portfolio in the balance sheet and administrative account positions including derivative transactions, due to overall changes in market conditions, including the risk of changes in option prices.

Components of market risk include:

- Interest Rate Risk is the risk due to changes in financial instrument prices from Trading Book positions caused by risk factor movements on each instrument or due to changes in the economic value of capital of bank **bjb** from Banking Book activities caused by changes in interest rates.
- Classification of interest rate risk also includes interest rate risk from the banking book position, which includes repricing risk, yield curve risk, basis risk, and optionality risk.
- Exchange Rate Risk is the risk due to changes in the value of open positions in the Trading Book classification or due to changes in the position of bank **bjb**'s Net Open Exchange (Banking Book) caused by changes in foreign exchange rates.

Market risk arises from movements/changes in interest rates and/or exchange rates that affect the financial position of banks, especially towards capital ratios. Broadly speaking, market risk management is divided into 2 (two), namely trading book market risk management and banking book market risk management. The source of trading book market risk arises from the Dealing Room of the Treasury Division due to bank **bjb**'s open position exposed to movements in interest rates or foreign exchange rates.

Sources of banking book market risk arise, among others, due to changes in the structure of bank **bjb**'s balance sheet and administrative accounts which are sensitive to interest rate movements so that it has an impact on net interest income and which is also caused by changes in the structure of bank **bjb**'s balance sheet and administrative accounts which are sensitive to exchange rate movements reflected by bank **bjb**'s Net Open Position.

Active Supervision of the Board of Commissioners and Directors

The Board of Commissioners and Directors are responsible for the effectiveness of the application of Market Risk Management in bank **bjb**. Related to the authority and responsibility of active supervision of bank **bjb** Board of Commissioners and Directors, the Board of Commissioners and Directors always obtain clear information regarding the evaluation and application of risk management for market risk exposure, daily monitoring of limits and steps taken by the Risk Taking Unit, especially related to the existence of limit exceeding.

In carrying out its supervision, the Board of Commissioners is assisted by bank **bjb**'s Risk Monitoring Committee (KPR) periodically conducts supervision in coordination with the Risk Management

risiko. Media koordinasi yang digunakan dapat berupa laporan pemantauan risiko oleh SKMR yang disampaikan kepada Komite Pemantau Risiko ataupun melalui media rapat antara kedua belah pihak. Pada implementasinya, pelaksanaan rapat yang diadakan umumnya membahas penerapan manajemen risiko di bank **bjb** menyangkut diantaranya penerapan pengukuran *risk tolerance* risiko pasar, pembahasan profil risiko yang bersifat material, serta kecukupan dan evaluasi metodologi dan/atau tools pengukuran risiko pasar yang dipergunakan satuan kerja manajemen risiko.

Pengawasan yang dilakukan oleh Direksi adalah melalui pemantauan penerapan limit *treasury* secara berkala baik terjadi pelampauan limit (breach limit) maupun tidak terjadi pelampauan limit, dan melakukan persetujuan atas limit yang bersifat baru ataupun setelah dilakukan perubahan. Sedangkan pembahasan eksposur risiko pasar dibahas dalam rapat Komite Manajemen Risiko (*Risk Management Committee*). Sejalan dengan kebijakan manajemen risiko pasar mengenai tahapan eskalasi pelampauan limit, setiap pelampauan limit akan diinformasikan dan disetujui apabila terjadi kondisi abnormal dalam Komite Manajemen Risiko (RMC). Pengelolaan risiko pasar tersebut disusun ke dalam bentuk kebijakan, prosedur, limit risiko dan hasil keputusan lainnya terkait dengan pengelolaan risiko pasar. Limit risiko pasar dan *risk appetite* Bank dievaluasi secara periodik atau sewaktu-waktu diperlukan untuk dilakukan evaluasi sesuai dengan perubahan lingkungan bisnis Bank.

Kecukupan Kebijakan, Prosedur dan Penetapan Limit

Sebagai penerapan manajemen risiko pasar yang bersifat dinamis, satuan kerja manajemen risiko bank melakukan pembaharuan dan evaluasi atas kebijakan dan pedoman manajemen risiko bank secara berkala. Evaluasi pedoman pengukuran limit risiko pasar oleh satuan kerja manajemen risiko secara berkala dan dilakukan pembahasan dengan risk taking unit (Divisi Treasury) dan selanjutnya akan diajukan kepada Direksi untuk persetujuan atas pedoman dimaksud.

Terkait dengan evaluasi penetapan limit *dealing room treasury* dan ALM yang diajukan oleh Divisi Treasury, satuan kerja manajemen risiko melakukan evaluasi terhadap limit tersebut dengan metodologi yang telah disahkan dalam pedoman manajemen risiko bank. Limit untuk level portofolio *treasury* dievaluasi minimal satu tahun sekali atau dapat dilakukan lebih sering jika terdapat pergerakan volatilitas harga pasar atau perubahan *business plan risk taking unit*. Evaluasi analisa tersebut sekurang-kurangnya memuat informasi mengenai latar belakang perubahan limit, kondisi saat ini, dasar perhitungan dalam melakukan perubahan limit, kepatuhan terhadap regulasi dan dampak terhadap modal.

Work Unit. The coordination media used can be in the form of risk monitoring reports by SKMR submitted to the Risk Monitoring Committee or through media meetings between the two parties. In its implementation, the meeting held generally discusses the application of risk management in bank **bjb** involving among others the application of market risk risk tolerance measurement, discussion of material risk profiles, as well as the adequacy and evaluation of methodologies and/or market risk measurement tools used by the Risk Management Work Unit.

Supervision conducted by the Directors is through periodic monitoring of the application of Treasury limits, both breach limits and no exceeding limits, and approval of new limits or after changes are made. While the discussion of market risk exposures was discussed in a Risk Management Committee meeting. In line with market risk management policies regarding the escalation stages of limit exceeding, every limit exceeding will be informed and approved if abnormal conditions occur in the Risk Management Committee (RMC) Market risk management is arranged in the form of policies, procedures, risk limits and other decision results related to market risk management. Market risk limits and bank risk appetite are evaluated periodically or at any time needed to be evaluated in accordance with changes in bank **bjb**'s business environment.

Adequacy of Policies, Procedures and Limit Determination

As a dynamic application of market risk management, bank **bjb**'s Risk Management Work Unit regularly updates and evaluates bank risk management policies and guidelines. Evaluate guidelines for measuring market risk limits by the Risk Management Work Unit on a regular basis and discuss with the risk taking unit (Treasury Division) and subsequently will be submitted to the Directors for approval of the guidelines referred to.

In connection with the evaluation of the determination of the Dealing Room Treasury and ALM limits proposed by the Treasury Division, the Risk Management Work Unit evaluates these limits using the methodology that has been approved in bank **bjb**'s risk management guidelines. Limit for treasury portfolio level is evaluated at least once a year or can be done more frequently if there is a movement in market price volatility or changes in business plan risk taking units. Evaluation of the analysis contains at least information on the background of changes in limits, current conditions, the basis for calculating changes in limits, compliance with regulations and the impact on capital.

Kecukupan Proses Identifikasi, Pengukuran, Pemantauan, dan Pengendalian Risiko, serta Sistem Informasi Manajemen Risiko

Dalam melakukan penerapan manajemen risiko melalui proses identifikasi, pengukuran, pemantauan, dan pengendalian risiko, serta sistem informasi manajemen risiko untuk risiko pasar sebagaimana Surat Edaran Otoritas Jasa Keuangan Nomor 34/SEOJK.03/2016 tanggal 1 September 2016, Bank melakukan penerapan manajemen risiko yaitu:

1. Identifikasi Risiko Pasar

Proses identifikasi risiko pasar meliputi identifikasi dari karakteristik produk baru, identifikasi sumber risiko pasar yang dapat berdampak kepada transaksi yang akan dilakukan oleh *dealing room treasury*. Proses identifikasi risiko yang disesuaikan dengan risiko pasar melekat pada aktivitas bisnis bank yang meliputi risiko suku bunga antara lain *repricing risk*, *yield curve risk*, *basis risk*, dan *optionality risk* dan untuk risiko nilai tukar antara lain tercermin dari besarnya eksposur transaksional. Satuan kerja manajemen risiko juga melakukan *review* atau evaluasi atas produk maupun aktivitas yang terekspos pengaruh pergerakan variabel pasar.

2. Pengukuran Risiko Pasar

Pengelolaan portofolio Divisi Treasuri tanpa adanya dasar pertimbangan dan penilaian risiko akan mengakibatkan kerugian di atas toleransi bank dalam menyerap kerugian. Salah satu cara dalam menanggulangi kejadian risiko yang dapat menyebabkan kerugian di atas toleransi risiko bank adalah penggunaan toleransi risiko atau limit transaksi yang diperkenankan manajemen Bank. Pengajuan limit oleh Divisi Treasuri sebagai *risk taking unit* harus mendapatkan kajian risiko secara terukur oleh Divisi Manajemen Risiko. Pengajuan limit ini bertujuan untuk mempermudah manajemen bank **bjb** dalam memahami risiko yang dihadapi serta pengelolaan risikonya.

Pengajuan limit harus meliputi kriteria-kriteria sebagai berikut: Divisi Treasuri sebagai *risk taking unit* menerapkan "*trading*" dan "*hedging*" secara berkala sebagai bagian dari proses pengelolaan bisnis *treasury* khususnya bidang *treasury trading*. Pada konteks limit berbasis risiko ini, yang ditentukan adalah limit yang berkaitan dengan aktivitas *treasury*. Dalam proses penerapan limit dilakukan usaha pendekatan dimana terdapat komponen-komponen yang mendukung diantaranya:

a. Rencana Bisnis

- Rencana bisnis harus secara luas mencantumkan tujuan dari limit yang diminta, target pasar, pendapatan yang diharapkan dan kebutuhan akan modal. Rencana tersebut harus mengkuantifikasi cara bagaimana limit tersebut akan dipergunakan, contoh "*trading*" atau "*hedging*".
- Aplikasi limit harus mengidentifikasi mata uang dan pasar spesifik yang menjadi eksposur terhadap tujuan unit bisnis.

Adequacy of the Risk Identification, Measurement, Monitoring and Control Process, And Risk Management Information System

In implementing Risk Management through the process of identifying, measuring, monitoring and controlling Risk, as well as the Risk Management information system for Market Risks as stated in Bank Indonesia Circular Letter Number 13/23/DPNP dated October 25, 2011, bank **bjb** implements risk management, namely:

1. Market Risk MeasurementMarket Risk Identification

The process of identifying market risk includes identification of the characteristics of new products, identification of sources of market risk that can have an impact on transactions that will be carried out by the Dealing Room Treasury. The risk identification process that is adjusted to Market Risk is inherent in bank **bjb**'s business activities which includes interest rate risk including repricing risk, yield curve risk, basis risk, and optionality risk and for exchange rate risk, among others, reflected in the magnitude of transactional exposure. The Risk Management Work Unit also reviews or evaluates products and activities that are exposed to the influence of market variable movements.

2. Market Risk Measurement

Management of the Treasury Division's portfolio without a basis for consideration and risk assessment will result in losses above bank **bjb**'s tolerance in absorbing losses. One way to overcome risk events that can cause losses above bank risk tolerance is to use risk tolerance or transaction limits that are allowed by bank management. Submission of limits by the Treasury Division as a risk-taking unit must obtain a measurable risk assessment by the Risk Management Division. Submission of this limit aims to facilitate management bank **bjb** in understanding the risks faced and managing the risks.

Submission of limits must include the following criteria:

Treasury Division as a risk taking unit implements "*trading*" and "*hedging*" regularly as part of the Treasury business management process, especially in the field of Treasury Trading. In the context of this risk-based limit, what is determined is the limit relating to Treasury activities. In the process of applying limits, an attempt is made to approach where there are supporting components including :

a. Business Plan

- The business plan must broadly state the objectives of the requested limit, target market, expected income and capital requirements. The plan must qualify how the limit will be used, for example "*trading*" or "*hedging*".
- The limit application must identify specific currencies and markets that are exposure to the objectives of the business unit.

b. Persyaratan Modal dan Proyeksi Pendapatan

- Divisi Treasuri meminta masukan dari Divisi Manajemen Risiko dalam mengukur alokasi modal yang harus disediakan dalam memitigasi potensi kerugian yang akan timbul.
- Divisi Treasuri harus memberikan proyeksi pendapatan yang berhubungan dengan aplikasi limit. Proyeksi tersebut akan memudahkan Direksi dalam proses pengambilan keputusan persetujuan limit.

c. Penggunaan historis

Divisi Treasuri dapat memberikan analisa *trend market outlook* dengan penggunaan historis yang ada atas eksposur risiko atau limit yang akan diterapkan. Prosedur kerja pengukuran limit unit bisnis Treasuri mempertimbangkan beberapa aspek yang dinilai cukup berpotensi dalam menimbulkan kejadian risiko. Komponen yang mendasari dalam pengukuran limit memuat yaitu:

- Faktor sensitivitas risiko pasar setiap aktivitas treasuri terdapat risiko yang melekat (*risk inherent*) dimana proses dalam pengukuran risiko harus didasarkan pada sensitivitas risiko yang melekat pada aktivitas transaksi *treasury*. Faktor sensitivitas risiko pasar meliputi yaitu PV01, *duration* dan volatilitas transaksi.
- Kecukupan Data
Kecukupan data diperlukan sebagai kecukupan prosedur analisis statistik dan agar analisis pengukuran terhadap risiko menghasilkan *output* yang memadai dan sesuai dengan eksposur risiko yang dihadapi oleh Bank. Data yang diperlukan adalah data historis yang dibutuhkan guna memperkuat suatu analisis pengukuran limit risiko.
- Pengukuran *Value at Risk*
Model *Value at Risk* tersebut dipergunakan dalam mengukur dan menganalisa risiko transaksi *treasury* secara komprehensif dan terukur. Misalnya, penggunaan VaR (*value at risk*) untuk mengukur kerugian/*budget loss* atas aktivitas transaksi *treasury trading* selain itu kegunaan model ini juga dapat mengukur perkiraan kerugian terburuk yang dapat dialami Bank dalam selang waktu tertentu pada kondisi pasar yang normal dan tingkat kepercayaan tertentu.

Beberapa strategi pengelolaan risiko pasar yang dilakukan bank **bjb** adalah mencakup sistem dan prosedur dengan menggunakan teknik *mark to market*, *mark to model Value at Risk* (VaR), *stress testing*, *repricing gap* and *duration gap model* atau metoda lain yang sesuai untuk mendapatkan nilai wajar eksposur secara berkala, sekaligus merupakan *platform* yang tepat untuk menilai posisi risiko.

Pada saat ini bank **bjb** menerapkan metode yang mampu mengukur risiko terhadap nilai tukar yaitu dengan menggunakan model nilai tukar Var EWMA (*Exponential Weighted Moving Average*) yang dilengkapi dengan *fundamental analysis* dan *historical simulation* untuk menangkap tingkat risiko nilai tukar yang tercermin dalam posisi valuta neto. bank **bjb** juga telah membangun model pengukuran risiko tingkat suku bunga dengan

b. Capital Requirements and Projection of Income

- The Treasury Division requests input from the Risk Management Division in measuring capital allocation that must be provided in mitigating potential losses that will arise
- T The Treasury Division must provide income projections related to limit applications. This projection will facilitate the Directors in the decision process for approval of limits.

c. Historical Use

The Treasury Division can provide an analysis of market outlook trends with existing historical use of risk exposures or limits to be applied. The work procedure for measuring Treasury business unit limits considers several aspects that are considered to be quite potential in causing risk events. The underlying component in the measurement limit loading namely:

- Market risk sensitivity factors Each Treasury activity has inherent risk (*risk inherent*) where the process of measuring risk must be based on the risk sensitivity inherent in Treasury transaction activities. Market risk sensitivity factors include PV01, Duration and transaction volatility.
- Data Adequacy
Adequacy of data is needed as an adequate statistical analysis procedure and so that the measurement of risk analysis produces adequate output and is in accordance with the risk exposures faced by bank **bjb**. The data needed is historical data needed to strengthen an analysis of risk limit measurements.
- Measurement of Value at Risk
The Value at Risk model is used in measuring and analyzing Treasury transaction risk in a comprehensive and measurable manner. For example, the use of VaR (*value at risk*) to measure losses/*budget loss* on Treasury trading transaction activities. In addition, the use of this model can also measure the estimated worst losses that can be experienced by bank **bjb** in certain intervals under normal market conditions and a certain level of confidence.

Some of the market risk management strategies undertaken by bank **bjb** include systems and procedures using Mark To Market, Value at Risk (VaR) techniques, Stress Testing, Repricing Gap & Duration Gap Models or other appropriate methods to obtain fair value of periodic exposures, as well as being the right platform for assessing risk positions.

At this time bank **bjb** applies a method that is able to measure risk to the exchange rate, namely by using the EWMA Var Exchange Rate Model (*Exponential Weighted Moving Average*) which is equipped with to capture the exchange rate risk level reflected in the Net Open Position. bank **bjb** has also developed a model for measuring interest rate risk using a methodology that can capture interest rate risk from portfolio assets and liabilities that are

menggunakan metodologi yang dapat menangkap risiko suku bunga dari portofolio aset dan kewajiban yang sensitive terhadap perubahan suku bunga serta menentukan besaran risiko terhadap bank melalui pengukuran *interest rate risk in the banking book* yang meliputi *repricing profile*, *duration gap*, *Economic Value of Equity* (EVE) dan *sensitivitas Net interest income* (NII). Dalam proses pengukuran potensi kerugian baik itu suku bunga dan nilai tukar dari transaksi-transaksi *treasury* diukur melalui VaR simulasi historis baik secara sistem (*OPICS Risk*) maupun manual. Pengujian kelayakan internal VaR simulasi historis melalui *back testing* VaR versus *profit/loss treasury* dan dilakukan secara berkala.

Pemantauan Risiko Pasar

Aktivitas manajemen risiko dalam melakukan proses pemantauan aktivitas bisnis antara lain melalui:

1. Adanya *Risk Management Agency* (RMA) yang berfungsi untuk melakukan proses manajemen risiko pasar *trading book* melalui pemantauan limit *treasury* secara harian, misalnya ketentuan GWM, open *position*, *budget loss*, *risk sensitivity limit*, dan lain-lain. Sebagai upaya proses pemantauan yang efektif dan akurat, bank telah memiliki sistem *OPICS Risk* yang berfungsi dalam mengukur eksposur risiko *trading book* yang dilakukan oleh *dealing room treasury*.
2. Pemantauan risiko nilai tukar *banking book* dilakukan melalui pemantauan posisi valuta neto per 30 (tiga puluh) menit serta secara harian agar berada dalam toleransi limit internal bank dan regulasi Bank Indonesia.
3. Pemantauan risiko suku bunga *banking book* dilakukan melalui pengukuran *repricing GAP*, *duration GAP*, dan *Economic Value of Equity* (EVE) untuk melihat sensitivitas portofolio aktiva dan pasiva Bank dalam menghadapi perubahan suku bunga di masa datang.
4. Melakukan evaluasi terhadap eksposur risiko yang dimiliki oleh Bank.
5. Apabila terjadi pelampauan limit, Divisi Manajemen Risiko segera melakukan pelampauan tersebut kepada Direksi.

Pengendalian Risiko Pasar

Strategi yang diambil oleh bank **bjb** dalam proses pengendalian risiko pasar, antara lain melalui *hedging*, *squaring position*, *back-to-back* dan cara lain yang bertujuan untuk meng-*offset* suatu transaksi/posisi yang mengalami kerugian serta stress testing guna melihat ketahanan posisi keuangan bank **bjb** dalam menghadapi kondisi krisis. Selain itu pula dapat digunakan untuk mentransfer risiko yang dimiliki *dealing room treasury* Bank sepanjang transfer risiko tersebut masih berada dalam *risk limit* Bank. Bank juga membatasi atau melarang jenis transaksi atau instrumen tertentu untuk ditransaksikan oleh bisnis unit, serta mengurangi risiko dengan cara memberikan batas maksimum transaksi atau portofolio sesuai dengan *risk appetite* Bank.

sensitive to changes in interest rates and determine the amount of risk to banks through Repricing Profile, Duration GAP, and Economic Value of Equity (EVE) and Net interest income sensitivity (NII). In the process of measuring potential losses both interest rates and exchange rates of Treasury transactions are measured through historical VaR simulation both systemically (*OPICS Risk*) and manually. Testing the internal feasibility of historical VaR simulations through back testing VaR vs Profit/Loss Treasury and is conducted regularly.

Market Risk Monitoring

Risk management activities in carrying out the process of monitoring business activities include:

1. The existence of an RMA (Risk Management Agency) that functions to carry out the trading book market risk management process through daily monitoring of Treasury limits, for example the statutory reserve requirement, open positions, budget loss, risk sensitivity limits, etc. As an effort to monitor the process effectively and accurately, bank **bjb** has an *OPICS Risk* system that functions in measuring trading book risk exposure by the Treasury dealing room.
2. Banking book exchange risk monitoring is carried out through monitoring the Net Open Position per 30 minutes and on a daily basis to be within the tolerance limits of bank **bjb**'s internal limits and Bank Indonesia regulations.
3. Banking book interest rate risk monitoring is carried out through measurement of GAP Repricing, Duration GAP, and Economic Value of Equity (EVE) to see the sensitivity of bank assets and liabilities portfolio in the face of changes in interest rates in the future.
4. Evaluate the risk exposures held by banks.
5. In the event of exceeding the limit, the Risk Management Division immediately conducts exceeding this to the Directors.

Market Risk Control

Strategies taken by banks in the process of controlling market risk include hedging, squaring positions, back-to-back and other means aimed at offsetting a transaction/position that has a loss and stress testing in order to see the resilience of bank **bjb**'s financial position in facing crisis conditions. In addition, it can also be used to transfer risks owned by the Treasury bank's dealing room as long as the risk transfer is still within bank **bjb**'s risk limit. bank **bjb** also limits or prohibits certain types of transactions or instruments to be transacted by business units, and reduces risk by providing a maximum limit of transactions or portfolios in accordance with bank **bjb**'s risk appetite.

Sistem Pengendalian Intern yang Menyeluruh

Dalam rangka pengembangan penerapan manajemen risiko yang dinamis, satuan kerja manajemen risiko selalu melakukan evaluasi atas kebijakan, prosedur dan limit risiko pasar secara berkala. Sebagai upaya pengendalian risiko pasar berupa kecukupan kebijakan dan prosedur satuan kerja manajemen risiko, kaji ulang atas kebijakan dan prosedur dilakukan oleh unit independen baik di internal ataupun pihak eksternal.

Pelaksanaan kaji ulang dan evaluasi terhadap pengukuran risiko yang dilakukan oleh Divisi Manajemen Risiko meliputi:

- Kesesuaian kebijakan, desain proses manajemen risiko, sistem informasi, dan pelaporan manajemen risiko bank dengan kebutuhan bisnis Bank, serta perkembangan peraturan dan praktek terbaik (*best practice*) terkait manajemen risiko.
- Metode, asumsi, dan variabel yang digunakan untuk mengukur risiko dan menetapkan limit risiko pasar.
- Perbandingan antara asumsi yang digunakan dalam metode pengukuran risiko yang dipergunakan dengan kondisi yang sebenarnya/aktual.
- Perbandingan antara limit yang ditetapkan dengan eksposur yang sebenarnya/aktual.

Hasil kaji ulang Satuan Kerja Manajemen Risiko (Divisi Manajemen Risiko) yang telah dikaji ulang oleh Satuan Kerja Audit Intern (SKAI) akan disampaikan dalam Komite Manajemen Risiko (RMC) untuk kemudian diminta persetujuannya kepada Direksi. Pembahasan tersebut dilakukan pula dengan Dewan Komisaris yang dibantu oleh Komite Pemantau Risiko. Kaji ulang yang dilakukan oleh Satuan Kerja Audit Intern (SKAI) meliputi:

- Keandalan kerangka manajemen risiko, yang mencakup kebijakan, struktur organisasi, alokasi sumber daya, desain proses manajemen risiko, sistem informasi, dan pelaporan risiko bank.
- Proses pemantauan yang dilakukan oleh satuan kerja manajemen risiko.
- Evaluasi atas metodologi pengukuran satuan kerja manajemen risiko.

Comprehensive Internal Control System

In the context of developing a dynamic application of risk management, the Risk Management Unit always evaluates market risk policies, procedures and limits on a regular basis. As an effort to control market risk in the form of adequacy of policies and procedures of the Risk Management Work Unit, reviews of policies and procedures are carried out by independent units, both internal and external parties.

The review and evaluation of risk measurements carried out by the Risk Management Division include:

- Conformity of policies, design of Risk Management processes, information systems, and reporting of bank risk management with bank **bjb**'s business needs, as well as the development of regulations and best practices related to Risk Management;
- The methods, assumptions and variables used to measure risk and determine market risk limits;
- Comparison between assumptions used in the risk measurement method used and actual/actual conditions;
- Comparison between specified limits and actual/actual exposures;

The results of the Risk Management Work Unit (Risk Management Division) which have been reviewed by the Internal Audit Work Unit (SKAI) will be submitted to the Risk Management Committee (RMC) for approval from the Directors. The discussion was also conducted with the Board of Commissioners, assisted by the Risk Monitoring Committee. The review conducted by the Internal Audit Work Unit (SKAI) includes:

- Reliability of the Risk Management framework, which includes policies, organizational structure, resource allocation, design of the Risk Management process, information systems, and Bank Risk reporting;
- The monitoring process carried out by the Risk Management Work Unit;
- Evaluation of the measurement methodology of the Risk Management Work Unit;

Risiko Likuiditas

Risiko likuiditas adalah risiko akibat ketidakmampuan bank untuk memenuhi kewajiban yang timbul atau kewajiban yang telah jatuh tempo. Risiko ini terjadi akibat kegagalan pengelolaan sumber dana dan penanaman dana (*mismatch*) atau kekurangan likuiditas (*shortage*) yang mengakibatkan bank tidak mampu memenuhi kewajiban keuangannya pada waktu yang telah ditetapkan. Risiko likuiditas dapat dikategorikan sebagai berikut:

- Risiko likuiditas pasar, yaitu risiko yang timbul karena bank tidak mampu melakukan *offsetting* posisi tertentu dengan harga pasar karena kondisi likuiditas pasar yang tidak memadai atau terjadi gangguan di pasar (*market disruption*).
- Risiko likuiditas pendanaan, yaitu risiko yang timbul karena bank tidak mampu mencairkan asetnya atau memperoleh pendanaan dari sumber dana lain.

Pengawasan Aktif Dewan Komisaris dan Direksi

Dewan Komisaris dan Direksi bertanggungjawab atas efektivitas penerapan manajemen risiko likuiditas di Bank. Terkait wewenang dan tanggung jawab pengawasan aktif Dewan Komisaris dan Direksi bank **bjb**, Dewan Komisaris dan Direksi selalu memperoleh informasi yang jelas mengenai evaluasi dan penerapan manajemen risiko eksposur risiko likuiditas, pemantauan limit secara harian serta langkah- langkah yang diambil oleh *risk taking unit* khususnya terkait adanya pelanggaran limit. Dalam pelaksanaan pengawasannya, Dewan Komisaris dibantu oleh Komite Pemantau Risiko (KPR) bank yang secara berkala melakukan pengawasan melalui koordinasi dengan satuan kerja manajemen risiko. Media koordinasi yang digunakan dapat berupa laporan pemantauan risiko oleh SKMR yang disampaikan kepada Komite Pemantau Risiko maupun melalui media rapat antara kedua belah pihak. Adapun rapat yang diadakan tersebut pada umumnya membahas penerapan manajemen risiko di bank **bjb** menyangkut diantaranya penerapan pengukuran *risk tolerance* risiko likuiditas, *stress testing* likuiditas, pembahasan profil risiko likuiditas yang bersifat material, dan kecukupan metodologi pengukuran yang dipergunakan satuan kerja manajemen risiko. Pengawasan yang dilakukan oleh Direksi yaitu memantau penerapan limit *treasury* secara berkala baik terjadi pelanggaran limit (*breach limit*) maupun tidak terjadi pelanggaran limit, melakukan persetujuan

Liquidity Risk

Liquidity Risk is the risk due to the inability of banks to meet obligations that arise or obligations that are due. This risk occurs due to the failure of the management of the source of funds and investment of funds (*mismatch*) or lack of liquidity (*shortage*) which results in bank **bjb** not being able to meet its financial obligations at the specified time. Liquidity risk can be categorized as follows :

- Market Liquidity Risk, the risk arising because banks are unable to offsetting certain positions at market prices due to inadequate market liquidity conditions or market disruption;
- Funding Liquidity Risk, the risk arising because banks are unable to disburse their assets or obtain funding from other funding sources.

Active Supervision of the Board of Commissioners and Directors

The Board of Commissioners and the Directors were responsible for the effectiveness of the implementation of liquidity risk management in bank **bjb**. Regarding the powers and responsibilities of active supervision of the Board of Commissioners and Directors of bank **bjb**, the Board of Commissioners and Directors always obtained clear information regarding the evaluation and implementation of risk management for liquidity risk exposure, daily limit monitoring as well as steps taken by the risk taking unit, especially in relation to the existence of exceedance of limit. In implementing its supervision, the Board of Commissioners was assisted by bank **bjb**'s Risk Monitoring Committee (KPR), which regularly performed supervision through coordination with the risk management work unit. The coordination media used could be in the form of risk monitoring reports by SKMR which were submitted to the Risk Monitoring Committee or through media meetings between the two parties. The meetings held generally discuss the application of risk management at bank **bjb**, including the application of risk tolerance measurement for liquidity risk, stress testing of liquidity, discussion of material liquidity risk profiles, and the adequacy of the measurement methodology used by the risk management work unit. Supervision was carried out by the Directors, namely monitoring the implementation of treasury

atas limit yang bersifat baru ataupun perubahannya. Pembahasan tentang pengelolaan risiko likuiditas seperti komposisi deposito, *maturity profile* bank dilakukan dalam Rapat *Asset Liability Committee* (ALCO) sedangkan pembahasan eksposur risiko likuiditas seperti profil risiko likuiditas yang bersifat material, *liquidity stress testing*, dan eksposur risiko likuiditas lainnya dibahas dalam rapat Komite Manajemen Risiko (RMC).

Kecukupan Kebijakan, Prosedur dan Penetapan Limit

Sebagai upaya menghadapi permasalahan likuiditas mendasar, bank **bjb** telah memiliki kebijakan dan pedoman terkait penerapan manajemen risiko likuiditas. Kebijakan dan pedoman tersebut memuat diantaranya prosedur pengukuran risiko likuiditas, *stress testing* likuiditas yang memuat skenario *general market crisis* dan *bank specific crisis* dan Pedoman Rencana Pendanaan Darurat (CFP). Penetapan limit likuiditas yang berjalan di bank **bjb** yaitu penetapan limit *primary reserve*, *secondary reserve*, *excess reserve* GWM, *excess to total funding ratio* dan *limit harian Liquidity coverage ratio* sedangkan untuk penetapan pagu kas di Cabang Operasional dilakukan oleh Divisi Operasi.

Satuan kerja manajemen risiko selalu melakukan evaluasi atas kebijakan, prosedur dan analisis kinerja bank **bjb** terhadap limit yang diterapkan. Adapun perubahan limit dilakukan oleh *risk taking unit* untuk kemudian dilakukan evaluasi melalui pengukuran yang telah distandarisi oleh satuan kerja manajemen risiko.

Kecukupan Proses Identifikasi, Pengukuran, Pemantauan, dan Pengendalian Risiko, Serta Sistem Informasi Manajemen Risiko

Kebijakan risiko likuiditas mencakup risiko yang menyebabkan bank menderita kerugian akibat meningkatnya biaya dana atau adanya hambatan/keterbatasan dalam memenuhi kewajiban yang jatuh tempo. Sebagian besar transaksi finansial atau komitmen mempunyai dampak terhadap likuiditas bank. Oleh karena itu, bank sangat rentan terhadap masalah likuiditas, baik bagi bank itu sendiri maupun pengaruhnya terhadap industri perbankan secara keseluruhan. Bank berkewajiban memenuhi kewajiban keuangannya secara tepat waktu sehingga bank harus mampu memelihara suatu tingkat likuiditas yang memadai setiap waktu.

Dalam menentukan limit risiko likuiditas, bank memperhatikan kondisi likuiditas dari aktiva-pasiva bank. Likuiditas yang cukup besar perlu dikelola secara baik dan dijadikan indikator dalam menerapkan limit risiko likuiditas untuk mendukung upaya peningkatan profitabilitas bank, karena likuiditas yang cukup besar justru akan meningkatkan *idle fund* dan akan merugikan bagi bank terutama bank yang didanai nasabah korporasi. *Gap* likuiditas secara historis dapat dijadikan patokan dalam menentukan limit risiko likuiditas bagi bank. Penerapan limit likuiditas yang berjalan

limits on a regular basis whether there was a breach limit or there was no exceeding the limit, approving new limits or changes. Discussions on liquidity risk management such as the composition of core depositors, bank maturity profiles were conducted at the Asset Liability Committee (ALCO) meeting, while discussions on liquidity risk exposures such as material liquidity risk profiles, liquidity stress testing, and other liquidity risk exposures were discussed in the Risk Management Committee (RMC) meeting.

Adequacy of Policies, Procedures and Limit Determination

As an effort to deal with fundamental liquidity problems, bank **bjb** had policies and guidelines related to the implementation of liquidity risk management. The policies and guidelines included procedures for measuring liquidity risk, liquidity stress testing including scenarios of general market crisis and bank specific crisis and Guidelines for Emergency Funding Plans (CFP). The determination of the current liquidity limit at bank **bjb** was the determination of the limit of primary reserve, secondary reserve, excess reserve requirement, excess to total funding ratio and daily limit of Liquidity coverage ratio while the determination of the cash ceiling in Operational Branch was carried out by the Operations Division.

The risk management work unit always evaluates the policies, procedures and performance analysis of bank **bjb** against the applied limits. The limit changes are carried out by the risk taking unit and then evaluated through standardized measurements by the risk management work unit.

Adequacy of the Risk Identification, Measurement, Monitoring and Control Process, and the Risk Management Information System

Liquidity risk policies include risks that cause banks to suffer losses due to increased funding costs or the presence of obstacles/limitations in meeting obligations that are due. Most financial transactions or commitments have an impact on bank liquidity. Therefore, banks are very vulnerable to liquidity problems, both for bank **bjb**'s themselves and their effects on bank **bjb** industry as a whole. Banks are required to meet their financial obligations in a timely manner so that banks must be able to maintain an adequate level of liquidity at all times

In determining the liquidity risk limit, bank **bjb** considered the liquidity condition of bank **bjb**'s assets. Large liquidity needed to be managed properly and used as an indicator in implementing liquidity risk limits to support efforts to increase bank profitability, because sufficiently large liquidity would actually increase idle funds and would be detrimental to banks, especially banks funded by corporate customers. The liquidity gap had historically been used as a benchmark in determining the liquidity risk limit for a bank. The implementation of the current liquidity limit at the

di bank yaitu penetapan limit *primary reserve*, *secondary reserve*, *ekses reserve GWM*, *ekses to total funding ratio* dan *limit harian Liquidity coverage ratio (LCR)* sedangkan untuk penetapan pagu kas di Cabang Operasional dilakukan oleh Divisi Operasi.

Saat ini bank sedang mengembangkan sistem informasi pengukuran risiko likuiditas seperti *maturity profile* yang terintegrasi. Satuan kerja manajemen risiko bersama *risk taking unit* dalam tahapan integrasi sistem informasi maturity profile tersebut selalu diadakan rapat sebagai upaya mengetahui utilisasi progres yang telah dilakukan. Sistem pelaporan *maturity profile* valas telah terintegrasi dan tervalidasi dengan memadai sehingga pelaporannya tidak memerlukan proses manual lagi.

Sebagai langkah koordinasi manajemen bank dalam menghadapi kejadian krisis likuiditas dikemudian hari, bank sedang menyusun Tim Manajemen Krisis Likuiditas (*Liquidity Crisis Management Team*) sebagai langkah antisipatif dalam menyikapi krisis likuiditas dengan menjalankan prosedur rencana pendanaan darurat sesuai dengan kerangka kerja *contingency funding plan scenario*.

Dalam proses pemantauan limit *risk taking unit*, satuan kerja manajemen risiko selalu melakukan pemantauan limit secara harian dan dilaporkan kepada Direksi secara berkala. Adapun apabila terjadi eskalasi pelampauan limit maka akan segera dilaporkan kepada Direksi termasuk upaya *contingency plan* yang akan dilakukan oleh *risk taking unit*. Terkait menuju implementasi Basel III yang terfokus kepada permasalahan likuiditas, satuan kerja manajemen risiko bekerja sama dengan unit bisnis dan *supporting unit* melakukan pengukuran dampak Basel III terhadap bank **bjb** dengan melakukan simulasi perhitungan *Liquidity Coverage Ratio (LCR)* dan *Net Stable Funding Ratio (NSFR)* yang dibutuhkan oleh bank **bjb** agar terhindari dari dampak risiko likuiditas dan kepatuhan internal maupun eksternal.

Sistem Pengendalian Intern yang Menyeluruh

Dalam rangka pengembangan penerapan manajemen risiko yang dinamis, satuan kerja manajemen risiko selalu melakukan evaluasi atas kebijakan, prosedur dan limit risiko likuiditas secara berkala. Sebagai upaya pengendalian risiko pasar berupa kecukupan kebijakan dan prosedur satuan kerja manajemen risiko, kaji ulang atas kebijakan dan prosedur dilakukan oleh unit independen baik di internal ataupun pihak eksternal. satuan kerja manajemen risiko pun melakukan *stress testing* likuiditas bank **bjb** dan memberikan informasi kondisi kecukupan aset likuid yang dipandang memadai untuk meng-cover penarikan dana oleh nasabah secara tiba-tiba dan dalam jumlah besar. Laporan tersebut diinformasikan kepada Direksi dan *risk taking unit* agar mendapatkan *feed back* dan menciptakan *risk awareness*.

bank became the determination of the limit of primary reserve, secondary reserve, excess reserve requirement, excess to total funding ratio and daily limit of Liquidity coverage ratio (LCR), while the determination of cash ceiling in Operational Branch was carried out by the Operations Division.

Currently, bank **bjb** developed a liquidity risk measurement information system, such as an integrated maturity profile. The risk management work unit together with the risk taking unit in the integration stage of the maturity profile information system were always held in meetings as an effort to determine the utilization of progress that has been made. The foreign currency maturity profile reporting system had been adequately integrated and validated so that reporting did not require manual processing anymore.

As a coordinating step for bank management in facing future liquidity crises, bank **bjb** is preparing a Liquidity Crisis Management Team as an anticipatory step in responding to the liquidity crisis by carrying out emergency funding plan procedures in accordance with the Contingency Funding Plan Scenario framework.

In the process of monitoring the Risk Taking Unit limit, the Risk Management Unit always monitors the limits on a daily basis and is reported to the Directors periodically. Meanwhile, in the event of an escalation in excess of the limit, it will be immediately reported to the Directors, including a contingency plan that will be carried out by the Risk Taking Unit. Related to the implementation of Basel III which is focused on liquidity issues, the Risk Management Work Unit in collaboration with the Business Unit and Supporting Unit measures the impact of Basel III on banks by simulating the calculation of the LCR ratio (Liquidity Coverage Ratio) and NSFR (Net Stable Funding Ratio) which needed by banks to avoid the effects of liquidity risk and internal and external compliance.

Comprehensive Internal Control System

In the context of developing a dynamic application of risk management, the Risk Management Unit always evaluates policies, procedures and liquidity risk limits on a regular basis. As an effort to control market risk in the form of adequacy of policies and procedures of the Risk Management Work Unit, reviews of policies and procedures are carried out by independent units, both internal and external parties. The Risk Management Work Unit conducts stress testing of bank **bjb** liquidity and provides information on the adequacy of liquid assets that are deemed adequate to cover sudden and large withdrawals of funds by customers. The report is informed to the Directors and risk taking units in order to get feed back and create risk awareness.

Risiko Operasional

Risiko operasional adalah risiko akibat ketidakcukupan dan/atau tidak berfungsinya proses internal, kesalahan manusia, kegagalan sistem, dan/atau adanya kejadian-kejadian eksternal yang mempengaruhi operasional bank. Risiko operasional melekat kepada seluruh aktivitas bank, oleh karena itu risiko operasional tidak dapat dihilangkan namun dapat dikendalikan melalui mitigasi risiko yang memadai. Dampak kerugian dari risiko operasional dapat berupa kerugian keuangan atau kerugian non keuangan.

Bank melakukan tata kelola mengenai pengelolaan risiko operasional yang dilakukan melalui *three line of defense* yaitu *risk taking unit* sebagai lini pertahanan pertama, unit kerja *risk management* sebagai lini pertahanan kedua, serta Internal Audit sebagai lini pertahanan ketiga.

Lini pertahanan pertama memiliki tanggung jawab untuk memastikan bahwa seluruh proses operasional yang dilakukan telah sesuai dengan kebijakan dan prosedur yang berlaku, melakukan identifikasi risiko operasional serta melakukan mitigasi atas peristiwa kejadian risiko operasional. Lini pertahanan kedua yang berfungsi untuk mendukung dan memastikan unit kerja pada lini pertahanan pertama telah melakukan pengelolaan risiko secara efektif. Lini pertahanan ketiga memiliki peran untuk memastikan proses pengelolaan risiko operasional yang dilakukan oleh lini pertahanan pertama dan kedua telah berlangsung secara efektif dalam memitigasi kejadian risiko yang sudah terjadi maupun yang bersifat potensial agar tidak menimbulkan potensi kerugian bagi Bank.

Pengawasan Aktif Dewan Komisaris dan Direksi

Dewan Komisaris dan Direksi melakukan pengawasan aktif atas manajemen risiko operasional, antara lain melalui Komite Risiko baik yang berada pada level komisaris maupun direksi. Dalam

Operational Risk

Operational risk was the risk due to inadequate and/or malfunctioning internal processes, human error, system failure, and/or external events that affected bank operations. Operational risk was inherent in all bank activities, therefore operational risk could not be eliminated but could be controlled through adequate risk mitigation. The impact of losses from operational risk could be in the form of financial losses or non-financial losses.

bank **bjb** implemented governance regarding operational risk management through three lines of defense, namely the risk taking unit as the first line of defense, the risk management work unit as the second line of defense, and Internal Audit as the third line of defense.

The first line of defense has the responsibility to ensure that all operational processes carried out are in accordance with applicable policies and procedures, identify operational risks and mitigate operational risk events. The second line of defense, which functions to support and ensure that work units on the first line of defense have effectively carried out risk management. The third line of defense has the role to ensure the operational risk management process carried out by the first and second line of defense has been carried out effectively in mitigating risk events that have already occurred and that are potential in nature so as not to cause potential losses to bank **bjb**.

Active Supervision of the Board of Commissioners and Directors

The Board of Commissioners and the Directors carry out active oversight of operational risk management, including through the Risk Committee both at the level of commissioners and

pelaksanaan pengawasan aktif yang dilakukan Dewan Komisaris, dilakukan melalui Komite Pemantau Risiko. Sementara pada tingkat Direksi dilakukan melalui Komite Manajemen Risiko yang antara lain membahas mengenai kebijakan manajemen risiko bank. Dalam rangka meminimalisir kejadian *fraud*, Direksi melakukan sosialisasi kepada seluruh karyawan mengenai pencegahan terkait *fraud* sebagai langkah untuk meningkatkan awareness karyawan mengenai kejadian *fraud*. Selain itu, sebagai upaya dalam peningkatan *awareness* terhadap risiko operasional bank menerbitkan *comic strip* “Kang Risman” secara rutin yang berisi mengenai penerapan manajemen risiko operasional pada setiap aktivitas bank **bjb**.

bank **bjb** memiliki unit kerja independen yang melaksanakan pengelolaan manajemen risiko operasional secara *bankwide* yaitu Grup Risiko Operasional yang berada dibawah Divisi Manajemen Risiko. Unit ini memiliki peran dalam menetapkan standar dan kebijakan pengelolaan risiko operasional, dan berhubungan serta berkoordinasi dengan seluruh unit bisnis dan *supporting* unit untuk memastikan langkah mitigasi yang dilakukan telah cukup dan memadai untuk mencegah potensi risiko operasional.

bank **bjb** melakukan pengelolaan risiko operasional pada seluruh aktivitas, dimana seluruh karyawan wajib berperan serta dalam mengelola risiko operasional pada unit kerja masing-masing serta memperhatikan kontrol yang efektif untuk mengantisipasi kemungkinan terjadinya risiko yang dapat merugikan bank **bjb**.

Kecukupan Kebijakan, Prosedur dan Penetapan Limit

bank **bjb** telah memiliki kebijakan serta pedoman manajemen risiko operasional yang secara berkala dilakukan pembaharuan dan evaluasi atas kebijakan dan pedoman manajemen risiko bank tersebut. Selain itu bank **bjb** juga telah memiliki kebijakan lain terkait manajemen risiko operasional, diantaranya kebijakan manajemen risiko, kebijakan sistem pengendalian internal, kebijakan *anti fraud*, kebijakan *business continuity management* yang didalamnya meliputi *business continuity plan* sebagai prosedur kelangsungan usaha Bank, *emergency response plan* sebagai prosedur tanggap darurat bencana dalam rangka penyelamatan data dan asset serta *disaster recovery plan* sebagai prosedur kelangsungan sistem dan infrastruktur pendukung teknologi informasi, kebijakan pengelolaan teknologi informasi. Di samping itu terkait dengan kebijakan pengembangan produk dan aktivitas baru terlebih dahulu dilakukan analisa untuk menilai risiko yang melekat terhadap aktivitas/produk tersebut.

bank **bjb** memiliki prosedur operasional untuk proses aktivitas kegiatan operasional bank **bjb** yang harus dilaksanakan oleh setiap unit kerja dengan memperhatikan sistem pengendalian intern yang memadai sehingga dapat meminimalisir kemungkinan terjadinya risiko operasional pada bank **bjb**. Selain itu bank **bjb** memiliki kebijakan terkait limit kewenangan dalam kegiatan operasional, pemisahan tugas dan tanggung jawab pada setiap level jabatan, serta adanya *approval* untuk setiap eskalasi.

directors. In the implementation of active supervision carried out by the Board of Commissioners, conducted through the Risk Monitoring Committee. While at the Directors level, it is carried out through the Risk Management Committee while discussing bank **bjb**'s risk management policies. In order to minimize the incidence of fraud, the Directors conducts socialization to all employees regarding fraud prevention as a step to increase employee awareness regarding fraud events. In addition, as an effort to increase awareness of operational risk, the bank regularly published the comic strip “Kang Risman” containing the implementation of operational risk management in every bank **bjb** activity.

bank **bjb** owned an independent work unit that carried out bank-wide operational risk management, namely the Operational Risk Group, which was under the Risk Management Division. This unit had a role in setting standards and policies for operational risk management, and in liaising and coordinating with all business units and supporting units to ensure adequate and adequate mitigation measures were taken to prevent potential operational risks.

bank **bjb** managed operational risk in all activities, where all employees were required to participate in managing operational risk in their respective work units and pay attention to effective controls to anticipate possible risks that may harm bank **bjb**.

Adequacy of Policies, Procedures and Limit Determination

bank **bjb** has policies and operational risk management guidelines which are regularly updated and evaluated on bank **bjb**'s risk management policies and guidelines. In addition, bank **bjb** also has other policies related to operational risk management, including anti-fraud policies, Business Continuity Management policies which include the Business Continuity Plan as a Bank's business continuity procedure, Emergency Response Plan as a disaster emergency response procedure in the context of saving data and assets and Disaster Recovery Plan as a procedure for the continuity of systems and infrastructure supporting information Technology, Information Technology management policies. Besides that, related to product development policies and new activities, an analysis is first carried out to assess the risks inherent in these activities/products.

bank **bjb** has operational procedures for the process of bank operational activities that must be carried out by each work unit by taking into account adequate internal control systems so as to minimize the possibility of operational risk at bank **bjb**. In addition bank **bjb** has a policy related to authority limits in operational activities, segregation of duties and responsibilities at each level of position, as well as approval for each escalation

Kecukupan Proses Identifikasi, Pengukuran, Pemantauan, dan Pengendalian Risiko, Serta Sistem Informasi Manajemen Risiko

Dalam mendukung penerapan majemen risiko operasional untuk proses identifikasi, pengukuran, pemantauan, dan pengendalian risiko, bank **bjb** telah mengembangkan alat bantu manajemen risiko yaitu:

- *Risk Control Self Assessment* (RCSA) merupakan penilaian sendiri untuk mengukur eksposur risiko dari kumpulan *risk register* sebagai analisis potensi risiko dari kegiatan operasional bank **bjb**. Penilaian RCSA mencakup assessment untuk sistem pengendalian risiko yang telah diimplementasikan bank **bjb**.
- *Key Risk Indicator* merupakan tools yang digunakan untuk mengukur eksposur risiko melalui pengukuran terhadap indikator risiko yang ditetapkan sebagai *key risk* sebagai *early warning* dalam mendeteksi potensi- potensi risiko.
- *Loss event database* merupakan pengumpulan data peristiwa risiko yang terjadi. Data ini bertujuan sebagai pemenuhan internal *loss database* sehingga bank **bjb** memiliki data kerugian yang pernah terjadi pada bank **bjb** selain itu data tersebut juga dapat digunakan untuk pengukuran kecukupan modal dengan metode yang lebih *advance*.

Disamping itu bank menerapkan pelaksanaan *Focus Group Discussion* (FGD) mengenai *issue* risiko operasional beserta upaya pengendalian yang secara rutin dilakukan oleh masing-masing unit kerja. Proses identifikasi, pengukuran, pemantauan dan pengendalian risiko operasional tersebut diperlukan dukungan infrastruktur dan sumber daya manusia yang memadai sesuai dengan lingkup dan kompleksitas bisnis bank **bjb**. Untuk pengukuran risiko operasional yang terkait dengan alokasi modal dan ATMR risiko operasional, maka bank **bjb** dilakukan perhitungan dengan metode *Basic Indicator Approach* sesuai dengan ketentuan dari regulator.

Adequacy of the Risk Identification, Measurement, Monitoring and Control Process, and the Risk Management Information System

In supporting the implementation of the operational risk management for the process of identifying, measuring, monitoring and controlling Risk, bank **bjb** has developed risk management tools, namely:

- Risk Control Self Assessment (RCSA) is a selfassessment to measure risk exposures from a collection of risk registers as an analysis of potential risks from bank operations. The RCSA assessment includes an assessment for the risk control system that bank **bjb** has implemented.
- Key Risk Indicator is a tool used to measure risk exposures through measurement of risk indicators that are set as key risks as an early warning in detecting potential risks.
- Loss Event Database is a collection of risk event data that occurs. This data aims as a fulfillment of the internal loss database so that bank **bjb** has data on losses that have occurred at bank **bjb** besides the data can also be used to measure.

In addition, the bank implemented a Focus Group Discussion (FGD) regarding operational risk issues and control efforts routinely carried out by each work unit. The process of identifying, measuring, monitoring and controlling operational risk required adequate infrastructure and human resources support in accordance with the scope and complexity of bank **bjb**'s business. For operational risk measurement related to capital allocation and operational risk RWA, bank **bjb** calculated it using the Basic Indicator Approach method in accordance with the provisions of the regulator.

Quantitative Disclosure of Operational Risk

Quantitative Disclosure Of Operational Risk - Bank Individually

Adapun pengungkapan kuantitatif risiko operasional sebagai berikut:

1. Pengungkapan Kuantitatif Risiko Operasional - Bank secara Individual
Meliputi: Laporan *Audited* dari Divisi Pengendalian Keuangan
2. Pengungkapan Kuantitatif Risiko Operasional - Bank secara Konsolidasi dengan Perusahaan Anak

Kebijakan dan Pelaksanaan Penilaian Kinerja

Dalam rangka mendukung pencapaian target kinerja pegawai yang lebih optimal, Perseroan telah menetapkan ketentuan yang mengatur mengenai pelaksanaan *performance management system* melalui **bjb** prestasiku *personal scorecard* yang diharapkan mampu mendorong pegawai untuk meningkatkan kinerja di periode berikutnya.

Policy and Conduct of Performance Evaluation

In order to support the achievement of more optimal employee performance targets, the Company has established regulations governing the implementation of the performance management system through the **bjb** Prestasiku *personal scorecard* which is expected to encourage employees to improve performance in the next period.

Performance management system berbasis *personal scorecard* merupakan sistem pengelolaan kinerja individual pegawai yang menggunakan pendekatan *Balanced Scorecard* (BSC), dengan penjelasan sebagai berikut:

1. Fokus utama dalam penilaian **bjb** prestasiku meliputi:
 - a. *Key Performance Indicator* (KPI) Penetapan target kinerja pegawai (*goal setting*) yang disepakati bersama antara pegawai dengan atasan langsung berdasarkan penetapan tugas/pekerjaan dan tanggung jawab pegawai serta merupakan target turunan (*cascading target*) yang harus memiliki keterkaitan langsung dengan pencapaian target *Balance Scorecard* (BSC) unit kerja.
 - b. Kompetensi Penilaian terhadap kompetensi yang terdiri dari *core competencies* dan *technical competencies* yang berisi mengenai tuntutan pengetahuan, keterampilan serta perilaku yang menunjang kinerja pegawai.
 - c. Faktor Penambah dan Pengurang Nilai Penilaian yang dilakukan terhadap hal-hal yang bersifat kualitatif dapat menambah atau mengurangi penilaian kinerja pegawai, seperti: Predikat *Culture*, Prestasi/*Special Assignment*, Sanksi/Perilaku Indisipliner.
2. Penetapan KPI Pegawai ditetapkan menggunakan 4 (empat) perspektif *Balance Scorecard* yaitu: *Financial*, *Customer*, *Internal Process* and *Learning and Growth*.
3. Penetapan KPI pegawai harus memenuhi kriteria SMART-CC (*Specific*, *Measurable*, *Achievable*, *Realistic*, *Time Bound*, *Consistent* dan *Continuous Improvement*).
4. Penilaian pegawai dilakukan oleh 3 (tiga) pihak yang terdiri dari pegawai (*self-assessment*), Atasan Pertama dan Atasan Kedua dari pegawai sesuai dengan hierarki jabatan pada struktur organisasi bank **bjb**.

The personal scorecard-based performance management system represents an employee performance management system that adopts *Balanced Scorecard* (BSC) approach, with the following description:

1. The main focus in evaluating **bjb** prestasiku includes :
 - a. *Key Performance Indicator* (KPI) which is a decision of a mutually agreed goal setting for employees and direct supervisors based on the assignment of tasks/duties and employee responsibilities and it represents a cascading target that must be directly related to achieving *Balance Scorecard* (BSC) target of the relevant business unit.
 - b. *Competency Assessment* of core competencies that include the demands of knowledge, skills and behaviors that support employee performance.
 - c. Increasing and Reducing Factors for Score Evaluation on matters that are qualitative in nature can increase or decrease employee performance evaluation, such as: *Culture*, *Achievement/Special Assignment*, *Sanctions/Discipline Behavior*.
2. Employee KPI is required to adopt 4 (four) *Balance Scorecard* perspectives, namely: *Financial*, *Customer*, *Internal Process* and *Learning and Growth*.
3. KPIs for employees must meet SMART-CC criteria (*Specific*, *Measurable*, *Achievable*, *Realistic*, *Time Bound*, *Consistent* and *Continuous Improvement*).
4. Employee evaluation is conducted by 3 (three) parties including employees (*self-assessment*), First Supervisor and Second Supervisor of employees in accordance with the hierarchy in the bank **bjb** organizational structure.

Kebijakan Hubungan Industrial

Industrial Relation Policy

Perseroan berkomitmen untuk membangun dan memelihara Hubungan Industrial yang sehat dan harmonis sebagai sebuah sistem hubungan kerja yang sehat dan konstruktif antara karyawan, Bank dan Pemerintah. Adapun prinsip umum hubungan kepegawaian yang diterapkan di bank **bjb** adalah sebagai berikut:

1. Menciptakan Hubungan Industrial yang harmonis yang dibangun dan dikelola dengan baik, dengan peran aktif pegawai, serikat karyawan, serta organisasi pegawai yang diakui Perseroan.
2. Menciptakan kegiatan yang dapat meningkatkan *level of engagement* Pegawai terhadap Perseroan melalui program-program yang secara efektif mampu memberikan dampak pada perubahan sikap dan perilaku kerja pegawai serta membawa perubahan yang positif bagi kinerja Perseroan.

Pelaksanaan hubungan industrial dibangun atas dasar pemahaman bank **bjb**, Pegawai dan Serikat Karyawan yang melaksanakan hak, kewajiban dan tanggung jawabnya dalam suasana saling menghormati, saling mempercayai, dan tekad untuk saling bekerjasama dengan tujuan menjamin kelangsungan usaha Bank dan perbaikan kesejahteraan pegawai. Praktik hubungan industrial memerlukan berbagai sarana untuk melaksanakannya. Beberapa sarana utama hubungan industrial adalah sebagai berikut:

1. Serikat Pegawai
Perseroan senantiasa tunduk pada Undang-Undang Ketenagakerjaan, hal ini tercermin dari diberikannya kebebasan kepada pegawai untuk bergabung dalam organisasi serikat karyawan. Serikat Karyawan bank **bjb** (SEKAR) merupakan serikat karyawan yang dibentuk untuk menjalin hubungan yang baik antara pegawai dan manajemen bank **bjb**, sehingga tercipta hubungan industrial yang harmonis.
2. Perjanjian Kerjasama
Perseroan telah memiliki Perjanjian Kerjasama (PKB) yang merupakan hasil perundingan antara bank **bjb** dan SEKAR yang memuat syarat-syarat kerja, hak dan kewajiban kedua belah pihak berdasarkan ketentuan perundang-undangan. PKB pertama bank **bjb** berlaku untuk periode 2016 sampai dengan 2018 dan PKB yang saat ini berlaku untuk periode 2021 sampai dengan 2023 yang telah didaftarkan dan mendapat pengesahan dari Kementerian Ketenagakerjaan RI No. 4/ HI.00.01/00.0000.220105006/B/1/2022 tentang Perjanjian Kerja Bersama antara bank **bjb** dengan serikat karyawan bank **bjb** yang ditetapkan pada tanggal 24 Januari 2022.
3. Peraturan Internal dan Eksternal
Perseroan senantiasa patuh dan taat pada regulasi dan peraturan yang berlaku di Indonesia. Selain itu, juga patuh pada ketentuan internal bank **bjb** terkait kebijakan *Human Capital* yang diatur antara lain dalam Standar Operasional

The Company committed to building and maintaining healthy and harmonious Industrial Relations as a system of healthy and constructive working relationships between employees, the Bank and the Government. The general principles of employee relations applied at bank **bjb** were as follows:

1. Creating healthy industrial relations and harmony that are built and well managed, with the active role of employees, Employee Unions, and Management as a unity that collaborates with each other in realizing the Bank's vision and mission.
2. Creating activities that can enhance employee engagement level with the Bank through programs that are effectively capable of making changes in attitudes and work behavior of employees and generating positive changes to the performance of the Bank.

The implementation of industrial relations is built based on an understanding of bank **bjb**, employees, and employee unions who carry out their rights, obligations, and responsibilities in an atmosphere of mutual respect, mutual trust, and determination to cooperate to ensure the continuity of the bank's business and improve employee welfare. The practice of industrial relations requires various means to carry it out. Some of the primary means of industrial relations are as follows:

1. Employee Union
The Company was always subject to the Manpower Act; this was reflected in the freedom given to employees to join employee union organizations. bank **bjb** Employee Union (SEKAR) became an employee union formed to establish good relations between employees and bank **bjb** management, to create harmonious industrial relations.
2. Cooperation agreement
The Company already had a Cooperation Agreement (PKB) as the result of negotiations between bank **bjb** and SEKAR which contained the terms of work, rights and obligations of both parties based on the provisions of the legislation. The first PKB bank **bjb** was valid for the period 2016 to 2018 and the PKB which was currently valid for the period 2021 to 2023 which had been registered and approved by the Ministry of Manpower of the Republic of Indonesia No. 4/ HI.00.01/00.0000.220105006/B/1/2022 concerning Collective Labor Agreement between bank **bjb** and bank **bjb** employee union which was stipulated on January 24, 2022.
3. Internal and External Regulations
The Company always complied with the regulations and regulations that applied in Indonesia. In addition, it also complied with bank **bjb's** internal regulations related to Human Capital policies regulated in the Standard Operating

Prosedur Pengelolaan Penghasilan dan Fasilitas Kepegawaian yang telah diperbaharui dan disetujui pada bulan April 2021.

4. Layanan Konsultasi Pegawai

Perseroan terus berupaya dalam membangun dan meningkatkan *engagement* Pegawai dengan melakukan peningkatan kualitas komunikasi Pegawai yang lebih baik melalui sarana komunikasi kepegawaian yang memberikan konsistensi dalam penyampaian informasi.

Sarana komunikasi kepegawaian berfungsi sebagai wadah Pegawai untuk melakukan diskusi, tukar pikiran, konsultasi, menyampaikan keluhan dan saran mengenai permasalahan kepegawaian yang dialami, serta mengakses informasi terkait dengan produk dan ketentuan kepegawaian, baik sesama Pegawai maupun dengan manajemen melalui Divisi Human Capital.

Sehubungan dengan hal tersebut, Perseroan menghadirkan **bjb** HC Cares sebagai sarana komunikasi kepegawaian yang cepat, tepat, dan akurat untuk memberikan kenyamanan bagi Pegawai dalam bekerja agar meningkatkan *engagement* Pegawai, serta mendorong kontribusi Pegawai secara aktif berpartisipasi dalam membangun hubungan industrial yang strategis dan harmonis demi terwujudnya kinerja Pegawai yang produktif dan inovatif.

5. Penyelesaian Perselisihan Hubungan Industrial

Dalam rangka menciptakan ketenangan bekerja dan berusaha bagi pegawai dan Bank, maka hubungan industrial yang harmonis wajib diupayakan oleh seluruh jajaran bank **bjb**. Salah satu contoh terciptanya ketenangan bekerja dan berusaha adalah bahwa apabila timbul perselisihan dapat diselesaikan dengan sebaik-baiknya di tingkat unit kerja atau perusahaan sesuai dengan ketentuan UU No. 13/2003 dan UU No. 2 Tahun 2004 tentang Penyelesaian Perselisihan Hubungan Industrial.

Procedures for Income Management and Personnel Facilities which had been updated and approved in April 2021.

4. Employee Consulting Service

The Company continued to strive to build and improve employee engagement by improving the quality of employee communication through employee communication facilities that provided consistency in the delivery of information.

The personnel communication facility served as a forum for employees to conduct discussions, exchange ideas, consult, submit complaints and suggestions regarding staffing problems experienced, as well as access information related to products and staffing provisions among employees and with management through the Human Capital Division.

In this regard, the Company presented **bjb** HC Cares as a means of employee communication that was fast, precise, and accurate to provide comfort for employees at work in order to increase employee engagement, as well as encourage employee contributions to actively participate in building strategic and harmonious industrial relations for the realization of Productive and innovative employee performance.

5. Industrial Relations Dispute Settlement

In order to create peace of mind in working and doing business for employees and the Bank, harmonious industrial relations had to be pursued by all levels of bank **bjb**. One example of creating peace of mind in working and doing business was that if a dispute arises, it could be resolved as well as possible at the work unit or company level in accordance with the provisions of Law no. 13/2003 and Law no. 2 of 2004 concerning Settlement of Industrial Relations Disputes.

TAHAPAN PROGRAM PROGRAM STAGE

Rencana dan Strategi Pengembangan *Human Capital* Tahun 2022

Development Plan of Human Capital in 2022

Rencana Pengembangan Pegawai

Dalam pengembangan karir dan kompetensi pegawai, Perseroan berkomitmen secara berkelanjutan untuk membangun talenta dan memastikan perencanaan suksesi secara berkelanjutan. Untuk itu telah disusun kerangka strategi dengan nama *Human Capital Strategic Plan* (HCSP) yang ditopang oleh 3 (tiga) *Pillars*, yaitu *Base Pillars*, *Upright Pillars* dan *Sturdy Pillars*.

Untuk Rencana Pengembangan Sumber Daya Manusia Tahun 2022, Perseroan telah menyusun rencana pengembangan SDM melalui program akselerasi yang mencakup 3 (tiga) pokok utama yaitu kompetensi, kinerja, serta karir pegawai, adapun program rencana pengembangan sumber daya manusia tahun 2022 sebagai berikut:

Employee Development Plan

In developing employee careers and competencies, the Company committed to continuously developing talent and ensuring sustainable succession planning. For this reason, a strategic framework was prepared under the name *Human Capital Strategic Plan* (HCSP) supported by 3 (three) *Pillars*, namely *Base Pillars*, *Upright Pillars* and *Sturdy Pillars*.

For the Human Resources Development Plan for 2022, the Company prepared a HR development plan through an acceleration program that included 3 (three) main points, namely competence, performance, and employee careers, while the human resource development plan program for 2022 is as follows:

Branch Manager Development Program (BMDP)	Program pengembangan pegawai di Level Managerial yang ditujukan bagi Manager/Pemimpin KCP/Pemimpin Grup melalui Pendidikan dan Pelatihan yang bertujuan untuk peningkatan kompetensi dan mempersiapkan pegawai menjadi <i>Successor</i> Pejabat Eksekutif di Level Pemimpin Cabang. Employee development program at Managerial Level aimed at Managers/Pins. KCP/PinGroup through Education and Training which aims to increase competence and prepare employees to become Successors of Executive Officers at Branch Manager Level.
Staff Development Program (SDP)	Program pengembangan karir yang bertujuan mempersiapkan pegawai yang memiliki kompetensi untuk memenuhi jenjang jabatan di level officer. A career development program that aims to prepare competent employees to fulfill positions at the officer level.
Information Technology & Digital Banking Development Program	Program pengembangan pegawai yang diperuntukkan bagi pegawai internal bank bjb yang memiliki minat dan kemampuan di bidang <i>Information Technology</i> dan <i>Digital Banking</i> untuk mendukung strategi Transformasi Digital bank bjb. Employee development program intended for bank bjb internal employees who have interests and abilities in the fields of Information Technology and Digital Banking to support bank bjb's Digital Transformation strategy
Account Officer Development Program (AODP)	Program pengembangan karir yang diperuntukkan bagi para pegawai level assistant di bidang bisnis yang dipersiapkan untuk mengisi jabatan-jabatan <i>critical</i> di bidang bisnis dan akan berkarir serta memiliki spesialisasi di bidang bisnis. A career development program intended for assistant level employees in the business field who are prepared to fill critical positions in the business field and will have a career and specialize in the business field.
Professional Supporting Development Program (PSDP)	Program pengembangan pegawai dalam rangka pemenuhan kebutuhan pegawai untuk jabatan <i>Dealer</i> – Divisi Treasury dimana sumber kandidat berasal dari pegawai eksisting bank bjb baik dari internal Divisi Treasury maupun unit kerja lainnya yang memiliki kompetensi dan potensi di bidang <i>Treasury</i> khususnya <i>Dealer</i>. Employee development program in order to meet the needs of employees for the position of Dealer - Treasury Division where the source of candidates comes from existing bank bjb employees both from internal Treasury Division and other work units who have competence and potential in the field of Treasury, especially Dealers.
Acceleration Program	Merupakan program akselerasi level <i>assistant grade 1</i>, melalui kenaikan grade 1 tingkat dengan tujuan untuk meningkatkan motivasi para pegawai yang berkinerja baik. It is an acceleration program for grade 1 assistant level, through grade 1 level increase with the aim of increasing the motivation of employees who perform well.
Manager Development Program (MDP)	Program pengembangan dan percepatan karir yang ditujukan bagi talent-talent terbaik bank bjb di level <i>First Line Management</i> (minimal level jabatan Officer di rentang Grade 6-9) untuk dipersiapkan menjadi calon-calon Manager yang berkualitas, untuk selanjutnya akan diberikan pendidikan & pelatihan secara komprehensif serta lebih difokuskan pada area bisnis. Career development and acceleration program aimed at bank bjb's best talents at the First Line Management level (at least Officer level in the Grade 6-9) range to be prepared to become qualified Manager candidates, for further comprehensive education & training and more focused on the business area.

Dalam rangka percepatan peningkatan kompetensi, kinerja dan karir pegawai, beberapa program akselerasi karir masih menjadi *concern* manajemen dalam menjalankan “*strategic talent management*”. Untuk itu, Perseroan mempersiapkan diri dalam menjawab tantangan di era *digital* dengan munculnya perusahaan-perusahaan keuangan berbasis teknologi atau *financial technology (fintech)* dengan melakukan digitalisasi dan inovasi dalam teknologi khususnya transaksi.

Perseroan sebagai bank dengan skala bisnis nasional perlu untuk mempersiapkan sekaligus meningkatkan kemampuan para ahli teknologi yang ada. Perseroan telah melaksanakan program pengembangan internal di bidang *Information & Technology* melalui *Information Technology Development Program (ITDP)* agar memiliki kemampuan yang setara dengan pasar dan dapat bersaing dengan industri perbankan maupun perusahaan berbasis teknologi atau *financial technology (fintech)*.

Selain itu, guna mengoptimalkan penyerapan potensi transaksi *treasury* dan pasar modal serta peningkatan dan percepatan kuantitas serta kualitas sumber daya manusia pada bidang *treasury*, Perseroan melaksanakan *Dealer Treasury Program*.

In order to accelerate employee competency, performance and career improvement, several career acceleration programs are still a management concern in implementing “*strategic talent management*”. However, the programs aim to prepare itself to respond to challenges in the digital and financial technology era, through the emergence of technology-based financial companies or financial technology (*fintech*), encouraging the banking industry to digitize and innovate in technology, especially transactions.

The Company as a bank with a national business scale needs to prepare and improve the capabilities of existing technology experts, bank **bjb** has implemented an internal development program in the field of Information and Technology through the Information Technology Development Program (ITDP) in order to have capabilities equal to the market and be able to compete with the banking industry and technology-based companies or financial technology (*fintech*).

In addition, in order to optimize the potential absorption of treasury and capital market transactions as well as to increase and accelerate the quantity and quality of human resources in the treasury sector, bank **bjb** is implementing a Dealer Treasury

Harapannya yaitu, menciptakan SDM yang unggul, handal dan tangguh yang mampu menjawab tantangan persaingan bisnis yang semakin kompleks.

Program with the hope of creating superior, reliable and resilient human resources capable of responding to the challenges of increasingly competitive business. complex.

2. Automation of applications and processes to increase productivity and efficiency.
3. Integrated, clear, and reliable data to assist business decision making.
4. Reliable and secure infrastructure and connectivity.
5. Appropriate IT governance, policies and processes supporting the IT vision and mission.
6. Delivery channel providing a comprehensive and consistent "customer experience" across all channels.
7. Reliable and customer focused IT resources (customer-centric).

The implementation initiatives and roadmap were designed around several key drivers to ensure alignment with business objectives. The Information Technology Strategic Plan (ITSP) is a document that illustrates the vision and mission of the Bank's Information Technology, and the main principles that serve as a reference in the use of Information Technology to meet business needs and support long-term strategic plans.

The IT Strategic Plan ensured that enterprise IT provided optimal results and services that directly supported the organization's vision, mission, strategy and priorities. The IT Strategic Plan was prepared using a structured approach with the following framework.

IT Strategic Plan disusun menggunakan pendekatan yang terstruktur sebagai berikut:

The IT Strategic Plan was prepared using a structured approach as follows:

Kebijakan Teknologi Informasi dan Penerapannya

Kebijakan Teknologi Informasi berdasar kepada Peraturan Otoritas (POJK) Nomor 38/POJK.03/2016 tentang Penerapan Manajemen Risiko dalam Penggunaan Teknologi Informasi oleh Bank Umum. Kebijakan Teknologi Informasi (KTI) disahkan melalui SK No. 0267/SK/DIR-TI/2019.

Information Technology Policy and its Application

Information Technology Policy is based on the Authority Regulation (POJK) Number 38/POJK.03/2016 concerning the Application of Risk Management in the Use of Information Technology by Commercial Banks. Information Technology Policy (KTI) which was passed through Decree No. 0267/SK/DIR-TI/2019.

Penerapan Kebijakan Teknologi Informasi telah dilaksanakan melalui Pedoman Kerja yang secara umum ditentukan dalam Kebijakan Teknologi Informasi (KTI) dan diturunkan melalui Standar Operasional Prosedur (SOP) lebih rinci. Adapun beberapa cakupan yang terdapat pada KTI adalah sebagai berikut:

- Organisasi dan Kewenangan
- Prinsip Kehati-hatian
- Pengelolaan Teknologi Informasi
- Rencana Pemulihan Bencana
- Pengembangan dan Pengadaan
- Aktivitas Operasional Teknologi Informasi
- Jaringan Komunikasi
- Pengamanan Informasi
- Layanan Perbankan Elektronik
- Audit Intern TI
- Penggunaan Pihak Penyedia Jasa TI
- Penyedia Jasa TI oleh Bank
- Dokumentasi dan Pelaporan

The implementation of Information Technology Policy has been carried out through the Work Guidelines which are generally determined in the Information Technology Policy and derived through Standard Operating Procedures (SOP) in more detail. Some of the scopes contained in IT Policy are as follows:

- Organization and Authority
- Prudential Principles
- Management of Information Technology
- Disaster Recovery Plan
- Development and Procurement
- Information Technology Operational Activities
- Communication network
- Information Security
- Electronic Banking Services
- IT Internal Audit
- Use of IT Service Providers
- IT Service Providers by Banks
- Documentation and Reporting

Infrastruktur Teknologi Informasi

Perseroan telah memiliki Infrastruktur yang dapat bersaing pada era modern salah satunya Perangkat *Storage Network* dan *Security*. Infrastruktur Teknologi Informasi Perseroan didukung oleh fasilitas *Data Center* (DC) dan *Disaster Recovery Center* (DRC) sebagai berikut:

Infrastructure of Information Technology

The Company already has an infrastructure that can compete in the modern era, one of which is Storage Network and Security Devices. The Company's Information Technology infrastructure is supported by the Data Center (DC) and Disaster Recovery Center (DRC) facilities as follows:

Jenis Perangkat	Jumlah / Total	Device Type
Firewall	12	Firewall
Email Security Appliance	1	Email Security Appliance
Environment Monitoring	1	Environment Monitoring
IPS	5	IPS
Switch	35	Switch
Modem	30	Modem

Perseroan senantiasa melakukan pemeliharaan secara berkala terhadap infrastruktur yang dimiliki tersebut. Berdasarkan Anggaran Rencana Bisnis Bank Tahun 2021, Perseroan mengalokasikan biaya sebesar Rp951,345 miliar untuk disalurkan sebagai dana ekspansi Teknologi Informasi khususnya dibidang infrastruktur dialokasikan sebesar Rp470.120 miliar. Hingga saat ini alokasi dana yang berhasil diserap untuk pengembangan dan peningkatan dibidang Teknologi Informasi adalah sebesar Rp365.413 miliar.

IT Governance

Penerapan IT Governance di perseroan mengacu pada *Control Objective fo Information Technologies* (COBIT) yang tercantum pada IT *Strategic Plan* 2017 – 2022. COBIT 5 merupakan sebuah kerangka kerja yang disusun dengan mempertimbangkan keselarasan kerja dan standar internasional lainnya seperti *Information Technology Infrastructure Library* (ITIL) V3 (*Service Management Framework*), ISO 27001 (*Information Security Standard*), ISO 31000 (*IT Governance Standard*), *The Open Group Architecture Framework* (TOGAF), serta berbagai kerangka kerja publikasi *Information Systems Audit and Control Association* (ISACA) seperti berbagai kerangka kerja publikasi ISACA seperti *Val IT*, *Risk IT*, dan sebagainya. Hal ini membuat COBIT 5 sebagai sebuah kerangka kerja tata kelola dan manajemen TI yang terintegrasi dan mencakup seluruh proses yang terdapat dalam perusahaan secara menyeluruh.

Selain itu, COBIT juga disusun dengan mempertimbangkan pendekatan *holistic* (menyeluruh), yaitu dengan mengikutsertakan tujuh elemen *enabler* daripada hanya berfokus terhadap proses Teknologi Informasi. Ketujuh *enabler* tersebut yaitu:

1. Prinsip, Kebijakan dan Kerangka Kerja
2. Proses
3. Struktur Organisasi
4. Budaya, etika dan perilaku
5. Informasi
6. Layanan, Infrastruktur dan Aplikasi
7. SDM, keahlian dan kompetensi

Implementasi COBIT di Perseroan adalah sebagai berikut:

1. Penerapan COBIT diimplementasikan pada penyusunan IT *Strategic Plan* tahun 2017 sampai dengan 2022 dengan melakukan pengukuran terhadap kondisi eksisting Divisi *Information Technology* melalui perhitungan COBIT;
2. Penerapan COBIT turut dilaksanakan dalam pemenuhan *project* Teknologi Informasi;

The Company always carries out periodic maintenance of the infrastructure it owns. Based on the Bank's 2021 Business Plan Budget, the Company allocated IDR 951,345 billion to be channeled as Information Technology expansion funds, especially in the infrastructure sector, which was allocated IDR 470,120 billion. Until now, the allocation of funds that had been successfully absorbed for development and improvement in the field of Information Technology reached IDR 365,413 billion.

IT Governance

The implementation of IT Governance in the company referred to Control Objective fo Information Technologies (COBIT) as stated in the 2017- 2022 IT Strategic Plan. COBIT 5 is a framework prepared by considering work alignment and other international standards such as ITIL V3 (*Service Management Framework*), ISO 27001 (*Information Security Standard*), ISO 31000 (*IT Governance Standard*), TOGAF (*Enterprise Architecture Framework*), and various ISACA publication frameworks such as various ISACA publication frameworks such as *Val IT*, *Risk IT*, etc. This makes COBIT 5 an integrated IT governance and management framework that covers the entire process in the company as a whole.

In addition, COBIT was also prepared by considering a holistic approach, which included seven enabler elements rather than just focusing on the Information Technology process. The seven enablers are:

1. Principles, Policies and Frameworks.
2. Process
3. Organizational Structure
4. Culture, ethics and behavior
5. Information
6. Services, Infrastructure and Applications
7. HR, expertise and competence

The implementation of COBIT at bank **bjb** is as follows:

1. COBIT is implemented in the preparation of the 2017-2022 IT Strategic Plan by measuring the existing conditions of the Information Technology Division through COBIT calculations;
2. COBIT implementation is also carried out in fulfilling the Information Technology project;

3. Penerapan ITIL dilaksanakan dalam pelayanan Teknologi Informasi yang mendukung operasional bank **bjb** dalam mencapai visi dan misi perusahaan;
4. Proses standarisasi ISO 27001 dan ISO 20000 mulai dilakukan *assessment* pada awal tahun 2021 yang akan dilanjutkan dengan proses sertifikasi ISO 27001 dan 20000.
5. Kepatuhan Divisi *Information Technology* terhadap Peraturan regulator melalui pemenuhan Laporan terkini penggunaan Teknologi Informasi tahun 2021 yang dilaporkan maksimal 1 (satu) bulan sejak akhir tahun pelaporan.

Pelaporan Teknologi Informasi mengacu kepada POJK No. 38/POJK.03/2016 tentang Penerapan Manajemen Risiko dalam Penggunaan Teknologi Informasi oleh Bank Umum. Salah satunya terdapat pada Pasal 30 yang menyebutkan bahwa Bank wajib melaporkan kondisi terkini penggunaan Teknologi Informasi Paling Lambat 1 (satu) bulan sejak akhir tahun pelaporan.

Langkah-Langkah Pengendalian Risiko Operasional

Dalam melakukan pengendalian risiko operasional di bank **bjb** termasuk risiko penggunaan Teknologi Informasi didalamnya, dilakukan secara komprehensif dan berkelanjutan. Selain itu untuk fungsi tertentu seperti fungsi pengamanan informasi dan fungsi *Business Continuity Plan* (BCP) dilaksanakan dan dipantau semaksimal mungkin dalam rangka mencegah, mendeteksi dan melakukan *corrective action* atas potensi risiko yang teridentifikasi. Sosialisasi *security assessment* dan *penetration testing* terhadap beberapa aplikasi kritikal telah dilaksanakan sebagai bagian mitigasi risiko yang dilakukan oleh Divisi *Information Technology*.

3. Implementation of ITIL is carried out in Information Technology services that support bank **bjb** operations in achieving the company's vision and mission;
4. The ISO 27001 and ISO 20000 standardization processes will begin an assessment in early 2021 which will be followed by the ISO 27001 and 20000 certification processes.
5. Compliance of the Information Technology Division with regulatory regulations through the fulfillment of the latest report on the use of Information Technology in 2021 which is reported a maximum of 1 (one) month from the end of the reporting year

Information Technology Reporting refers to POJK number to the Financial Services Authority (OJK) No. 38/POJK.03/2016 concerning Application of Risk Management in the Use of Information Technology by Commercial Banks. One of them is in Article 30 which states that Banks are required to report the latest conditions of the use of Information Technology no later than 1 (one) month since the end of the reporting year.

Steps of Operational Risk Control

In carrying out operational risk control in the company environment including the risk of using Information Technology therein, the process is carried out comprehensively and continuously. In addition, certain functions such as the information security function and Business Continuity Plan (BCP) function are carried out and monitored as much as possible in order to prevent, detect and carry out corrective actions on identified potential risks. The socialization of security assessment and penetration testing of several critical applications has been carried out as part of risk mitigation undertaken by the Information Technology Division.

Pengembangan Teknologi Informasi Tahun 2021

Development of Information Technology in 2021

Teknologi Informasi yang handal, inovatif, memiliki kecukupan kapasitas dan kemampuan fungsional untuk berkembang secara gradual merupakan salah satu *tools* utama dalam rangka menunjang pencapaian *Business Goals*. Keberadaan Teknologi Informasi diharapkan dapat memberikan kontribusi yang maksimal dalam mendukung:

- Memenuhi kebutuhan bisnis yang dinamis.
- Memberikan keyakinan yang memadai atas keamanan, kelancaran dan efisiensi operasional bank.
- Meningkatkan tingkat ketersediaan layanan dan mengurangi tingkat gangguan layanan.

Langkah Strategis Divisi Information Technology

Strategic Steps of Information Technology Division

Perubahan *marketplace* dan *society*, ekspektasi *customer*, perubahan regulasi, pengaruh globalisasi dan efisiensi menuntut perbankan untuk lebih berfokus kepada layanan yang didukung dengan Teknologi Informasi. Oleh karena itu, arah pengembangan Teknologi Informasi kedepan akan lebih berfokus kepada peningkatan infrastruktur Teknologi Informasi sebagai *key enabler* pengembangan bisnis secara terpadu dan komprehensif antara lain:

- a. Meningkatkan kemampuan layanan perbankan melalui otomatisasi dan integrasi secara menyeluruh sehingga dapat mendukung kebutuhan bisnis.
- b. Melakukan akselerasi pengembangan aplikasi dan perbaikan (*improvement*) fitur-fitur *e-channel*, sebagai *enabler* peningkatan bisnis *transactional banking*.
- c. Peningkatan akurasi, keamanan, dan kenyamanan, dalam bertransaksi menggunakan produk *e-banking* bank **bjb** melalui perbaikan baik secara proses bisnis maupun infrastruktur pendukungnya.
- d. Memperkuat dan memodernisasi sistem infrastruktur Teknologi Informasi yang *reliable* melalui pengembangan *delivery channels* dan optimalisasi sistem *core banking* yang lebih terintegrasi.
- e. Pengelolaan sistem IT yang lebih fokus, terarah dan terintegrasi untuk mendukung pengembangan seluruh segmen bisnis secara keseluruhan, agar dapat mengakselerasi *business process*, meningkatkan kehandalan *electronic channels* serta memberikan solusi layanan IT yang lebih mendekatkan bisnis dengan nasabah.

Market and society changes, customer expectations, regulatory changes, the effects of globalization and efficiency required banks to focus more on services supported by Information Technology. Therefore, the direction of Information Technology development in the future should focus more on improving Information Technology infrastructure as a key enabler of integrated and comprehensive business development, including:

- a. Improving banking service capabilities through automation and comprehensive integration so that it could support business needs.
- b. Accelerating application development and improving *e-channel* features, as an enabler to enhance the transactional banking business.

Sertifikasi Sistem Teknologi Informasi

System Certification of Information Technology

Sertifikasi Sistem Teknologi Informasi:

- National Standard Indonesia Chip Card Specification (NSICCS)**
yaitu sebuah standar teknologi yang digunakan oleh Bank Indonesia sebagai standar teknologi untuk Alat Transaksi Menggunakan Kartu (ATMK). NSICCS merupakan sebuah migrasi teknologi untuk kartu berbasis *magnetik stripe* ke kartu berteknologi *chip*. Penggunaan kartu yang dimaksud disini adalah untuk kartu ATM atau debit yang sudah menggunakan *teknologi chip* dan yang sudah melalui proses sertifikasi yang dilakukan melalui *functional test* dan *security test*.
- National Payment Gateway (NPG)**
Sebagai upaya meningkatkan efisiensi dalam penyelenggaraan sistem pembayaran *ritel* dan mikro, Bank Indonesia mendorong industri sistem pembayaran ritel dan mikro untuk mengembangkan *National Payment Gateway (NPG)*. NPG merupakan suatu *switching* nasional untuk berbagai transaksi antar bank yang dilakukan melalui *delivery channel* seperti: ATM, EDC, internet, telepon, dan *mobile payment*. Sistem pembayaran nasional ini memungkinkan transaksi pembayaran *non tunai* dapat diproses di dalam negeri.

Information Technology System Certification:

- National Standard Indonesian Chip Card Specification (NSICCS)**
is a technology standard used by Bank Indonesia as a technology standard for Card-Using Transaction Devices (ATMK). NSICCS is a technology migration for magnetic stripe-based cards to chip technology cards. The use of the cards referred here is for ATM or debit cards that have used chip technology and that have gone through a certification process carried out through functional tests and security tests.
- National Payment Gateway (NPG)**
In an effort to improve efficiency in the operation of retail and micro payment systems, Bank Indonesia is encouraging the retail and micro payment system industry to develop the National Payment Gateway (NPG). NPG is a national switching for various interbank transactions carried out through delivery channels such as: ATM, EDC, internet, telephone and mobile payment. This national payment system allows non-cash payment transactions to be processed domestically.

Kebijakan Rangkap Jabatan Direksi

Anggota Direksi dilarang merangkap jabatan sebagai anggota Dewan Komisaris, Direksi atau pejabat eksekutif pada bank, perusahaan dan/atau lembaga lain. Tidak termasuk rangkap jabatan apabila anggota Direksi yang bersangkutan bertanggung jawab terhadap pengawasan atas penyertaan pada Perusahaan Anak Bank, menjalankan tugas fungsional sebagai anggota Dewan Komisaris pada Perusahaan anak bukan yang dikendalikan oleh Bank, sepanjang tidak mengakibatkan yang bersangkutan mengabaikan pelaksanaan tugas dan tanggung jawab sebagai anggota Direksi.

Concurrent Position of Directors

Members of the Directors are prohibited from holding concurrent positions as members of the Board of Commissioners, Directors or executive officers at banks, companies and/or other institutions. Excludes concurrent positions if the member of the Directors concerned is responsible for oversight of the participation in the Bank Subsidiary Company, carries out functional duties as a member of the Board of Commissioners in a subsidiary company not controlled by the Bank, as long as it does not result in the person neglecting the implementation of the duties and responsibilities as a member of the Directors.

Pengelolaan Benturan Kepentingan Direksi

Benturan kepentingan maupun yang berpotensi menjadi benturan kepentingan atau segala sesuatu yang dapat menghambat Direksi untuk bertindak independen harus diungkapkan oleh Direksi. Benturan kepentingan merupakan suatu kondisi adanya konflik antara kepentingan ekonomi perusahaan dan kepentingan ekonomi individu. Dalam hal terdapat benturan kepentingan dalam pengambilan keputusan, Direksi harus mengutamakan kepentingan Bank.

Dalam hal terjadi benturan kepentingan, anggota Direksi dilarang mengambil tindakan yang dapat merugikan Bank atau merugikan keuntungan Bank dan wajib mengungkapkan benturan kepentingan dimaksud dalam setiap keputusan. Pengungkapan benturan kepentingan dicantumkan dalam setiap risalah rapat Direksi, paling kurang mencakup nama Direksi yang memiliki benturan kepentingan, masalah benturan kepentingan dan dasar pertimbangan pengambilan keputusan.

Terkait dengan pengambilan keputusan dalam rapat Direksi, Direksi yang memiliki benturan kepentingan diperkenankan untuk mengungkapkan ide dan pendapat, akan tetapi tidak disertakan dalam pengambilan keputusan, baik dalam musyawarah maupun pengambilan suara terbanyak. Hal tersebut harus dicatat dalam risalah rapat Direksi.

Dalam hal Bank mempunyai benturan kepentingan dengan kepentingan pribadi seorang anggota Direksi, maka Bank akan diwakili oleh anggota Direksi lainnya dan dalam hal Bank mempunyai kepentingan yang bertentangan dengan kepentingan seluruh anggota Direksi, maka dalam hal ini Bank diwakili oleh Dewan Komisaris.

Management of Conflicts of Interest in the Directors

Conflicts of interests as well as those that have the potential to become a conflict of interest or anything that can prevent the Directors from acting independently must be disclosed by the Directors. Conflict of interest is a condition of conflict between the economic interests of the company and individual economic interests. In the event of a conflict of interest in decision making, the Directors must prioritize the interests of the Bank.

In the event of a conflict of interest, members of the Directors are prohibited from taking actions that could harm the Bank or harm the Bank's profit and must disclose the conflict of interest referred to in each decision. Disclosure of conflicts of interest is included in each minutes of the Directors' meeting, at least covering the names of Directors who have a conflict of interest, conflict of interest issues and the basis for decision making.

Related to decision making in Directors' meetings, Directors who have a conflict of interest are allowed to express their ideas and opinions, but they are not included in decision making, both in deliberations and the majority of votes. This must be noted in the minutes of the Directors' meeting.

If the Bank has a conflict of interest with the personal interests of a member of the Directors, then the Bank will be represented by other members of the Directors and in the event that the Bank has an interest that conflicts with the interests of all members of the Directors, in this case the Bank is represented by the Board of Commissioners.

Kepemilikan Saham Direksi

Direksi wajib mengungkapkan kepemilikan saham yang mencapai 5% (lima persen) atau lebih, baik pada Bank maupun pada perusahaan lain yang berkedudukan di dalam dan di luar negeri. Kepemilikan saham Direksi dapat dilihat pada tabel di bawah ini.

Rapat Direksi

Kebijakan Rapat

Setiap kebijakan dan keputusan strategis, wajib diputuskan dalam rapat Direksi. Rapat Direksi dapat diadakan setiap waktu bilamana dipandang perlu oleh seorang atau lebih anggota Direksi atau atas permintaan tertulis dari Dewan Komisaris. Rapat Direksi dilaksanakan sekurang-kurangnya 1 (satu) kali dalam 1 (satu) bulan.

Rapat Direksi dipimpin oleh Direktur Utama, dalam hal Direktur utama tidak dapat hadir atau berhalangan hal mana tidak perlu dibuktikan kepada pihak ketiga, maka rapat Direksi akan dipimpin oleh seorang yang dipilih oleh dan dari anggota Direksi yang hadir. Seorang anggota Direksi dapat diwakili dalam rapat Direksi hanya oleh anggota Direksi lainnya berdasarkan suara kuasa.

Share Ownership of the Directors

The Directors must disclose share ownership of 5% (five percent) or more, both at the Bank and at other companies domiciled inside and outside the country. Directors' share ownership can be seen in the table below.

Meeting of the Directors

Meeting Policy

Every policy and strategic decision must be decided in a meeting of the Directors. Meetings of the Directors may be held at any time if deemed necessary by one or more members of the Directors or at the written request of the Board of Commissioners. Meetings of the Directors are held at least 1 (one) time in 1 (one) month.

The Directors meeting is chaired by the President Director, in the event that the President Director is unable to attend or is unable to attend, which does not need to be proven to a third party, the Directors meeting will be chaired by someone chosen by and from the present Directors. A member of the Directors may be represented at a meeting of the Directors only by other members of the Directors based on a power of attorney.

Rapat Direksi dapat dilaksanakan melalui rapat dengan cara tatap muka atau melalui media *teleconference* atau media lainnya. Rapat Direksi sah dan berhak mengambil keputusan yang mengikat hanya apabila lebih dari setengah dari jumlah anggota Direksi hadir atau diwakili dalam rapat.

Meetings of the Directors can be held through meetings by face to face or through teleconference media or other media. Directors meetings are valid and have the right to make binding decisions only if more than half of the total members of the Directors are present or represented at the meeting.
